MEMORANDUM

TO: Files 36-10767 & 36-10768

FROM: Pam Skaggs⁸/State Office

SUBJECT: Transfer 5319

DATE: April 19, 1999

Transfer 5319 adds a point of diversion under Right 36-10768, and adds a point of diversion, changes the place, nature & season of use under a portion of Right 36-10767, splitting the right into Parts A & B. The applicant is using these two transferred rights to provide for construction of a dairy on the 38.0 acres being taken out of irrigation production.

Right 36-10767 was decreed as a supplemental groundwater right and the shares associated with the 38.0 acres must be retained and continue to be used on the remaining irrigated land. The dairy use is considered to be 100% consumptive allowing a total maximum annual diversion volume of 114.0 af from the 38.0 acres no longer irrigated. The transfer results in a net reduction of diversion volume.

Recommended conditions include drilling permit conditions, measuring devices, annual reporting, water quality, county zoning, land application, North Side Canal Co. shares under Right 36-10767B, non-confirmation & 13,000 gpd limits for Right 36-10768 and standard transfer conditions.
