DALE DICKINSON	)	

This matter having come before the Department of Water Resources (Department) as a result of an examination by the Department to determine the extent of beneficial use of water, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On October 16, 1992, Marsha Dickinson and Dale Dickinson applied to the Department for a permit to appropriate 0.03 cubic feet per second of water from groundwater source within the NE 1/4 NE 1/4 SE 1/4, Section 13, Township 9S, Range 16E, B.M., Jerome County, to be used for domestic and irrigation purposes.

2. On June 3, 1994, the Department approved the Application for Permit.

3. On April 25, 1994, the Department received Proof of Beneficial Use of water for the Permit.

4. On June 9, 1994, the Department conducted a field examination and found that water had been diverted within a

RECORDED
MAR 23 1995

different legal description than authorized by the Permit.

5. On November 17, 1994, the Department sent notice and an Amendment to the permit holder stating that the permit had to be amended before the Department could issue a license.

6. On December 20, 1994, the Department sent a second notice to the permit holder stating that the permit had to be amended before the Department could issue a license.

7. The Department has not received the Application for Amendment of the permit.

CONCLUSIONS OF LAW

1. Development of the water as listed on the permit was a condition of the permit, and compliance with the condition is required prior to perfection of a water right.

2. The Department is unable to issue a license for the permit, because the water was not developed on the property described in the permit.

3. The permit could have been amended by the permit holder but the permit holder has not filed the appropriate amendment.

4. The Department should void the permit.

ORDER

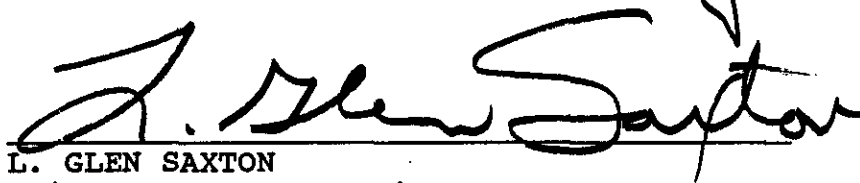

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 36-08681 is VOIDED and issuance of a license thereon is REFUSED under Section

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

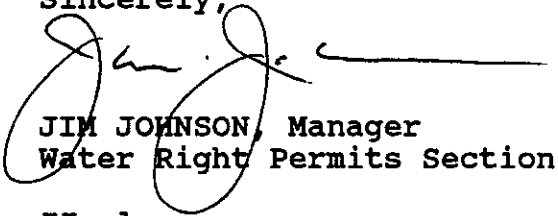

RECEIVED

MAR 23 1995

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

JIM JOHNSON, Manager

PROOF DUE NOTICE

RE: PERMIT NO. 36-08681

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Re: Permit No. 36-08681

Dear Permit Holder:

Returned is the proof of beneficial use submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed. I have indicated the items you failed to complete on the proof form. You should be able to obtain the needed information from the permit to appropriate water that was previously mailed to you.

Furthermore, you indicate that eight (8) homes are being supplied from this well. However, this permit is issued for the domestic use of one (1) home. If you are supplying eight (8) homes, you are doing so in violation of your permit.

You indicate on the proof form that you have already paid \$165. For your information, you have only paid \$65. You paid \$30 for the application of a water right, and you paid \$35 for a drilling permit. Since your permit only authorizes the diversion of 0.03 cfs and you use a groundwater source, a license examination fee does not apply to this permit. However, had you diverted 0.04 cfs or more, a \$50 license exam fee would be applicable. You have not yet paid for the license examination fee.

Please properly complete and return the original proof of beneficial use at your convenience. In the mean time, If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
