RE: PERMIT NO. 36-08667

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

RE: Water Right No. 36-08667
Drilling Permit No. 36-92-S-0224-000

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use submitted in connection with the above referenced water right. It, and your permit to appropriate water (copy enclosed), both indicate that water is diverted for stockwater, domestic and commercial use. Also enclosed is a copy of the drilling permit approved in 1992. It indicates the extent of use to be single family domestic. Single family domestic use constitutes the diversion of 0.04 cfs or less and/or the use for one home and irrigation of up to 1/2 acre of land.

You were properly charged \$35.00 for the domestic well drilling permit. However, because of the use and amount you have indicated (domestic of 2 homes, commercial and stockwater w/a rate of 0.27 cfs), the drilling permit is no longer considered strictly single family domestic. The charge for a non-domestic drilling permit is \$200.00.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$165.00 fee to upgrade the drilling permit to a non-domestic. The Department will hold your file for 30 days to allow you time in which to submit the additional fee. **Please address your correspondence to my attention.**

If you have any questions or if I can be of any assistance, please feel free to contact me at (208)327-7900.

PROOF DUE NOTICE

RE: PERMIT NO. 36-08667

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

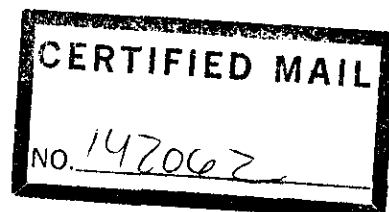

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Dear Ms. Hoover:

I recently received your letter dated July 1, 1994, regarding assignment of the above applications for permit.

On March 16, 1994, the department received assignment forms from you assigning these applications to Jack & Margaret Verbree and Northwest Farm Credit Services. At that time, we modified our records to reflect that change in ownership.

The assignments you submitted with your letter of July 1, 1994 are duplicates of the assignments submitted March 16, 1994.

The applications for permit are currently being processed. The permits, when issued, will identify both the Verbree's and Northwest Farm Credit Services as owners of record.

If you have any further questions, please feel free to contact me directly at (208) 327-7944.

MEMORANDUM

DATE: 07-Feb-1994

FROM: Loren Holmes *LH*

TO: Files 36-08666, ~~35-08667~~

SUBJECT: Evidence of existing development

On their face, these applications indicated existing development and claimed immunity from the current moratorium.

In-house information in the form of NAPP photo 417-43, dated 6/22/87 indicated the existence of dairies on these sites as of the photo date.

The applicant was asked for additional information to establish that the dairies were in place before 11/19/87.

We have a letter from Kraft Foods, a long time cheese processor in Rupert, which buys milk throughout the Magic Valley indicating they knew of these dairies in 1987 or earlier.

There appears to be sufficient evidence to justify approving these applications on the basis of existing development.

Dear Mrs Verbree:

Mr. Hill Brandsma operated a dairy at 1574 East 2900 South Wendell, Idaho during 1987. He operated this dairy over a long period of time. We believe this has been a active dairy site for well over 20 years.

Mr. Pedro Fernandez operated a dairy at 1600 East 2874 South Wendell, Idaho during 1987. He sold milk to Kraft for approximately 3 years. It is my personal opinion that this is also a long time dairy site. The facility has probably been in use since the 1970s.

Please feel free to contact me for further information.

Re: 36-08666 & 36-08667

Dear Mr & Mrs Verbree:

In several letters and telephone conversations I requested additional information as proof that your dairies were operating prior to 11-19-1987. This information is needed to allow the Applications for Permit you filed in July 1992 to be processed and not be held due to the Snake River Basin Moratorium.

To date we have not received anything from you to support processing your applications and want to give you one last chance to comply. If we do not hear from you by January 11, 1994 we will assume you do not intend to comply with our requests.

Cordially,

Please provide the additional information we need as soon as possible so we can forward your applications to the State Office in Boise for final approval.

Re: Applications for Permits 36-8666 & 8667

Dear Mr. & Mrs. Verbree:

A review of the above referenced applications you submitted to obtain water rights for your dairies revealed that additional information will be needed. To satisfy the State Office in Boise that both applications should be exempt from the Snake River Basin moratorium currently in force, we need to prove both dairies existed prior to 11-19-1987.

I can provide as evidence on your behalf copies of infra-red aerial photos that indicate dairies may have existed in the 40 acre parcel listed in your applications as of the photo date, 6-22-87. At least one more source is needed to confirm the dairies were in use before 11-19-1987. If you can provide us with copies of power records, sales or purchase invoices, or any thing else you think will be convincing proof, please do so as soon as possible. Please send them to my attention and I will forward them to Boise.

If you have any questions or need to discuss this matter in more detail, please feel free to call me at 736-3033.
