

section 25 township 85 Range 15 E

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

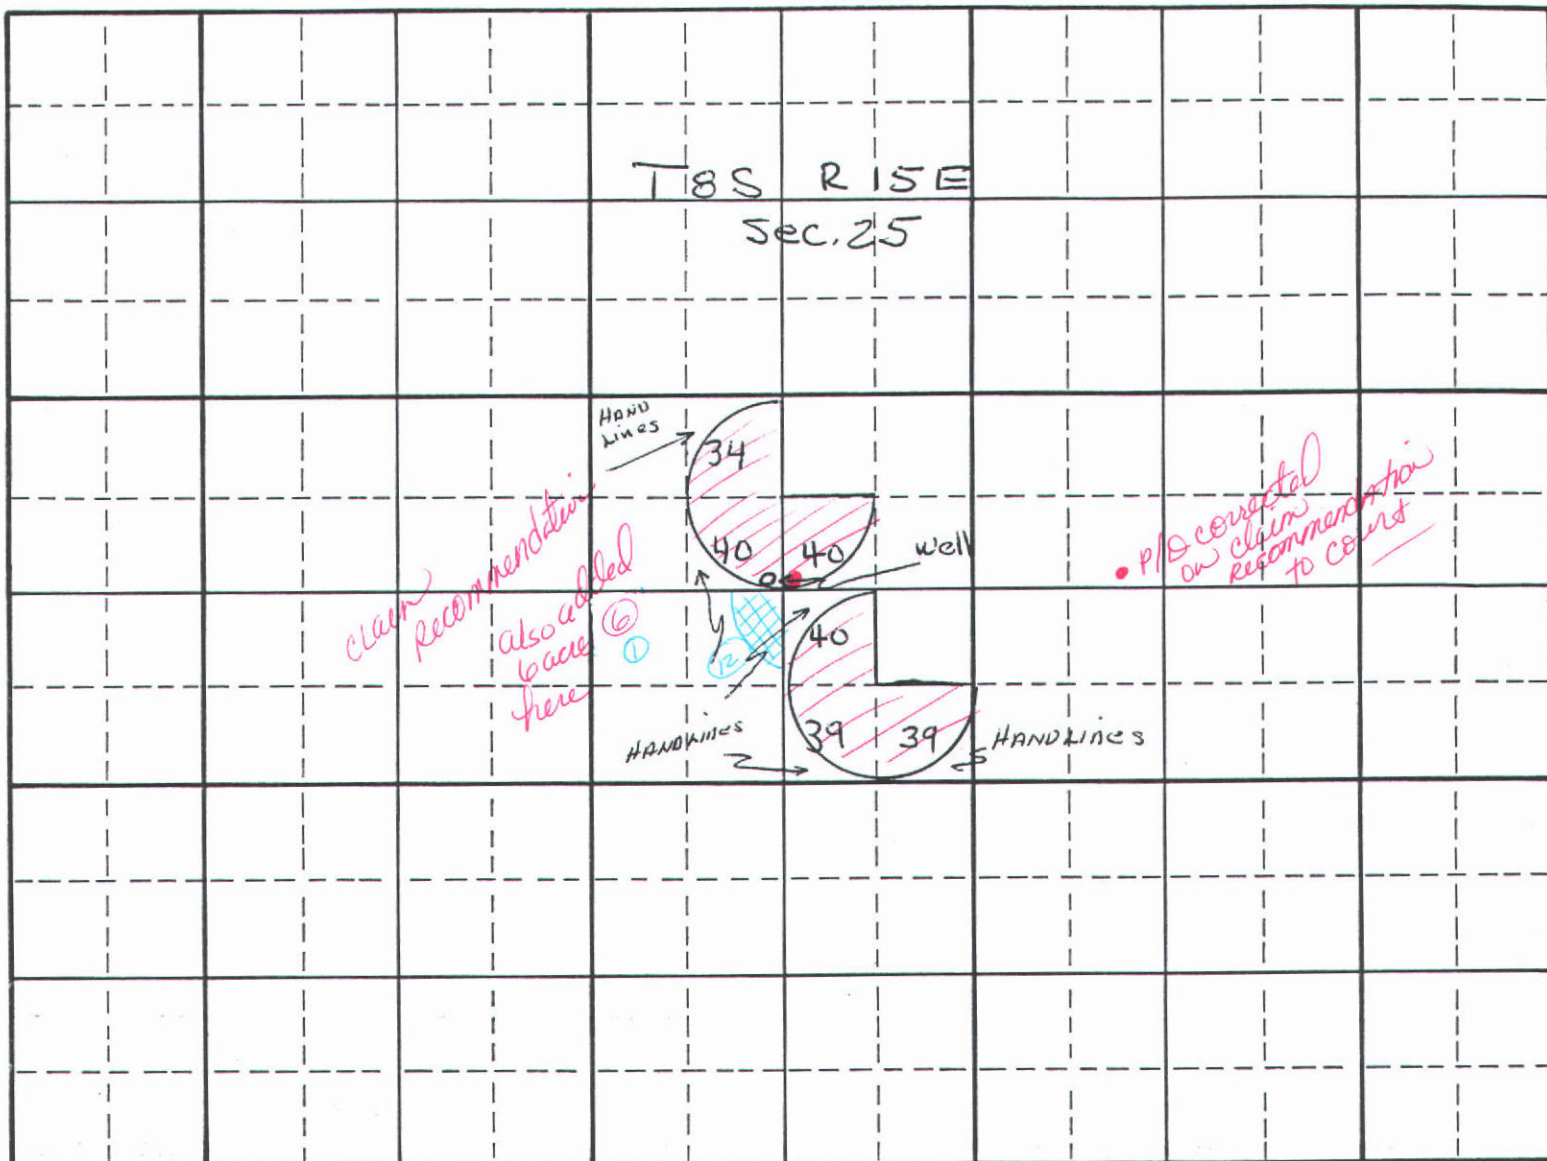

The map is a grid representing a section of land. Section 25 is outlined in green. A blue line, labeled 'Place of use', runs diagonally across the section. A red stamp in the bottom right corner reads 'MICROFILMED MAY 18 1992'. The grid is labeled with '22', '23', and '24' in the top row, and '25' in the middle row.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

RE: WATER RIGHT NO. 36-08637

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. It is more accurate to reflect the acres covered by this permit as part of a larger system. The license will list all of the acres irrigated by the well, but will be limited to the number of acres the examiner found pertinent to this right within the place of use. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley Walter Keen

H. REMARKS AND OVERLAP REVIEW ANALYSIS

The pump, motor & well (P/D) for this water right are also the P/D for WR# 36-07524, which provides for the diversion & irrigation of 232 acres of land also located in section 25. According to the original field report for this P/D, the well can divert 1,850.6 afa at a measured rate of diversion of 4.36 cfs. Since just 928.0 afa were allocated (recommended) for WR# 36-07524, the system should easily provide for the diversion of 52.0 afa recommended for this water right of 13 acres. This acreage represents the owner's estimate of ground to be irrigated.

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 36-08637 are based on the information below:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-01 to 10-31	.23	combined in remarks

The recommended rate has been reduced to the system rate per acre for the following reasons:

- 1) The rate for the overlapping senior right, 36-07524, is already the entire capacity of the system. The rate per acre for 36-07524 is under an inch per acre at .01879.
2. This permit was for additional acres, not water; therefore, the current system rate of .01779 per acre will be used for the recommendation.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08637

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 36-08637

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08637

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

RE: APP. NO. 36-8637/Trust Water Processing

DATE: 4-7-92

The above application is a trust water filing which has been forwarded to the state office for final review and processing.

The applicants have not stated on the application that there are other rights used for the same purposes. The water rights and adjudication databases do not show other overlapping rights. I recommend counting all 13 acres under the filing as trust acreage. All trust conditions are applicable.

Re: Application for Permit No. 36-08637

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Gooding County Leader on 1/15 & 1/22/92. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
