Dear Mr. Brown:

This will be the Department's last attempt to obtain the assignment form that was previously mailed to you. As you know, the Department cannot accept the proof of beneficial use that you submitted because you are not the current holder of record.

The Department understands that you are trying to work with the current owners of the permit, Donald and Sharon Higbee, to obtain the assignment. If the Department can assist you in this manner, please notify the Department and the Department will send correspondence directly to the Higbee's in an attempt to obtain the completed assignment form.

The Department will hold the file for an additional 20 days in an attempt to obtain the assignment. If the Department has not received the assignment at that time, the Department will take action to film and destroy the water right file.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Dear Mr Brown:

On April 26, 1993, the Department corresponded with you and explained the need for an assignment and proof of beneficial use to be filed in connection with the above referenced permit.

The Department received the proof of beneficial use, however, as of this date, the Department has not received the assignment form from the Higbees. The Department cannot proceed with the analysis of the proof of beneficial use and eventual issuance of a license until the assignment form is received.

Please contact the Higbees and explain the need to expedite the assignment form to the Department as soon as possible. I will continue to hold the file until the assignment is received.

Re: Permit No. 36-08634

Dear Mr. Brown:

As we discussed on the phone this morning, enclosed is a copy of the water right permit issued to Mr. and Mrs. Higbee. I have highlighted the pertinent information that you should need in order to complete the proof of beneficial use. The only information that I do not possess is the well drilling information. It will be necessary for you to find ~~you~~ who drilled the well and when it was drilled. If you still have difficulty completing the form, feel free to give me a call and I will assist you. Since the proof is due on or before May 3, 1993, I encourage you to complete it as soon as possible and return it to me.

Secondly, as we discussed, a water right permit is personal property. It does not automatically transfer when you buy the land. Therefore, this water right permit still belongs to the Higbees. In order for the water right permit to become your personal property, the Higbees need to "assign" the permit to you. I have enclosed the appropriate form for this to take place. Please forward the assignment to the Higbees and explain that it is necessary to submit it to the Department as soon as possible.

Once the Department has received the assignment and completed proof of beneficial use, the Department will continue with the licensing process by conducting a field examination of the well. Once the field exam is complete you will be issued a license to a water right.

In the mean time, if you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 36-08634

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08634

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Re: Application for Permit No. 36-08634

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the South Idaho Press on 1/17 & 1/24/92. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
