AFFIDAVIT of PUBLICATION

RECEIVED

State of Idaho }
County of Jerome } ss.

JAN 24 1992

Department of Water Resources
Southern Region Office

Patty Nance, being first duly sworn, deposes and says that she is the printer (publisher) of the Jerome North Side News, a newspaper published every week in Jerome, County of Jerome, State of Idaho; that said newspaper has been continuously and uninterruptedly published for a period of seventy-eight consecutive weeks prior to the first publication of the annexed notice, and is a newspaper qualified to publish legal notices as provided by act of the 1919 session of the legislature of the State of Idaho, known as House Bill 145; that the annexed advertisement was published once each week for

2 consecutive issues in said newspaper proper and not in a supplement; that the date of the first publication of said advertisement was on the 15th day of January, 19 92 and the date of the last publication was on the 22nd day of

January, 19 92

Patty Nance

Subscribed and sworn to before me this 23rd day of

January, 19 92

MICROFILMED

JAN 24 2002

State of Idaho
Department of Water Resources
Water Right License
WATER RIGHT NO. 36-08628

CONDITIONS OF APPROVAL

1. Domestic use is for 2 homes and does not include lawn, garden, landscape, or other types of irrigation.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
3. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 11TH day of January, 2002.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 36-08628 Telephone No. 224-5858

2. Name(s) of Permit Holder(s): Kent F. Edwards

3. Mailing Address: 213 E. 450 S., Jerome, ID 83338

4. Source of Water: Groundwater

If **GROUNDWATER**, Well Driller's Name: Dave Austin 6" well Date Drilled: 1998
Smith Drilling & Pump Co. 8" Date Drilled: Nov. 91

OPTIONAL:

Pump horsepower: 2 hp Pressure (psi): 80 psi Dynamic pumping level (ft.): 145
7 1/2 hp

5. Extent of Use (as authorized by the permit):

Domestic 1 (No. of households) Stockwater 5-10 horses (No. and type of stock)

Irrigation 8 (No. of acres) Other _____

6. Total rate and/or volume for which proof is submitted 0.18 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly: 4/23/93 per telecon
4/23/93

Measuring device: Required? ____ Yes ✓ No Installed? ____ Yes ✓ No

OR

Flow Measurement Port: Required? ____ Yes ✓ No Installed? ____ Yes ✓ No

8. Fee Enclosed: \$ 50.00 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

Permittee

RE: License No. 36-8628 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

for Shelley W. Keen
Water Rights Supervisor

JEROME ID 83338**

**Kari Lynn Townsend
Secretary**

**MICROFILMED
JAN 24 2002**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

FILE: 36-08628

FROM: Amanda Folsom

DATE: November 3, 2000

John Freitag and I met with Mr. Kent Edwards on August 15, 2000. Mr. Edwards owns a large barn that they live in and conduct business from, a trailer to the east of the barn, and approximately 35.4 acres of which 8 are irrigated. I attained the acreage information from the Jerome Assessor's Office, and from the FSA Office. I included the map that I got from the Assessor's Office.

There are two wells on the property, both located in the NWSW ¼ of Sec 9, Twn 09S, Rng 17E. However, Mr. Edwards indicated that only one well is being used. The eight acres are irrigated by a large impact sprinkler on a wheel, and by eleven hand lines in the east field. At the time of the exam, the impact sprinkler was running. I was not able to place the Fuji on the vinyl hose to get a measurement, so I used a theoretical to attain the capacity, which came to 0.19cfs.

There were five horses in the pasture at the time of the exam, and Mr. Edwards indicated that that number would fluctuate through out the year. Small troughs around the pasture water the horses. My recommendation is as follows:

Irrigation	0.18cfs	32afa
Stockwater	0.02cfs	0.1afa
Domestic	0.06cfs	0.6afa
Total	0.18cfs	32.7afa

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08628

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 36-08628

Dear Mr. Edwards:

On April 26, 1993, the Department corresponded with you and explained the need to upgrade your domestic drilling permit to an irrigation permit. The Department allowed 30 days in which to submit the additional \$165 in order to upgrade your drilling permit. As of this date, the Department has not received and correspondence or additional fees from you.

Condition #3 of your water right permit states " . . . shall comply with the drilling permit requirements of Section 42-235, Idaho Code." You have failed to meet this condition by not obtaining a non domestic drilling permit.

The Department will allow an additional 15 days for you to comply with this condition. If you have not done so at the end of this time, the Department will take action to film and destroy the file and you will no longer possess a valid water right.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 36-08628

Dear Permit Holder:

The Department is in receipt of the proof of beneficial use filed in connection with the above referenced permit. On the proof you indicate that there are two wells being used for the purposes of stockwater of 5 - 10 horses, domestic use for one home and irrigation of 8 acres.

A review of the drilling permits issued in connection with these wells indicate that the permits were issued for domestic purposes only. As stated on the drilling permit form, domestic use only encompasses the irrigation of 1/2 acre. Since you are irrigating 8 acres under these permits, they should NOT have been issued as domestic permits. I have enclosed copies of both the drilling permits and well logs for your convenience.

Therefore, in order for the proof of beneficial use to be acceptable, you must upgrade at least one of the drilling permits to a non-domestic use. The cost for a non domestic drilling permit is \$200. Since you have already submitted \$35, you will need to submit an additional \$165 to upgrade the permit.

I will hold the proof of beneficial use and other subsequent information for an additional 30 days. Since the permit lapsed on April 1, 1993, it is of no further force nor effect. In order to reinstate the permit, you must submit the necessary \$165 additional fee within 30 days of the date of this mailing.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads 'Karen L. Gustafson'.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Amended

Date 8/27/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

State of Idaho
Department of Water Resources

DRILLING PERMIT

RECEIVED

APR 14 1988

(Authorizing Construction of a Well)*

Department of Water Resources

1. Applicant Kent Edwards

2. Address 213 E. 450 S., Jerome, ID 83338

☒ Well Owner ☐ Well Operator ☐ Other, specify _____

3. Water right permit no. _____; Injection well permit no. _____

4. Proposed well location NE 1/4 NW 1/4 SW 1/4, or Gov't lot No. _____,

Sec. 9, Twp. 9S, Rge. 17E, County Jerome,

Lot, block and subdivision _____

5. Proposed use of well: (Check all that apply)

☒ Domestic ☐ Stockwater ☐ Monitoring

☐ Irrigation ☐ Industrial ☐ Municipal

☐ Injection ☐ Other, Specify _____

6. Well construction information:

☒ New well ☐ Deepen ☐ Replace

Proposed surface diameter 6 Proposed depth 200

ACTION OF IDWR

☒ Approved☐ Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

Dated this 6 day of April, 1988.

LAPSE NOTICE

RE: PERMIT NO. 36-08628

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated January 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 36-08628

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08628

Dear Permit Holders:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 36-8628/Trust Water Processing

DATE: 3-23-92

The above application is a trust water filing which has been forwarded to the state office for final review and processing.

Since the application contains no remarks or reference concerning prior rights or other sources of water for the same use, I recommend counting all of the acreage under the filing as a new development and as trust acreage. All trust conditions are applicable.

Re: Application for Permit No. 36-08628

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the North Side News on 1/15 & 1/22/92. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
