WATER RIGHT LICENSE

WATER RIGHT NO. 36-08615

Priority: October 30, 1991 Maximum Diversion Rate: 0.05 CFS

This is to certify, that JACQUELINE MC CLURE
RICHARD MC CLURE

437 A GOLF COURSE RD
JEROME ID 83338

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 30, 1991; and has submitted Proof of Beneficial Use on March 17, 1993. An examination indicates that the works have a diversion capacity of 0.120 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
-----------------------	----------------------	--------------------------	----------------------

IRRIGATION	04/01 to 10/31	0.05 CFS	
------------	----------------	----------	--

LOCATION OF POINT(S) OF DIVERSION: SENE, Sec. 12, Township 09S, Range 16E
JEROME County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
09S	16E	12	SENE	1.5		1.5

Total number of acres irrigated: 1.5

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights, to the extent they are available, in conjunction with groundwater diverted pursuant to this right.
5. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
6. This right when combined with all other rights shall provide no more than .03 cfs per acre nor exceed a combined annual diversion volume of 6.0 af for the lands above.
7. Right 36-15254 is also diverted through the point of diversion described above.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. B 10 E, and said application is hereby B 10 E.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Narrative Attachment

A 5 Hp submersible pump located near the northwest corner of the property discharges water to 3 small pressure tanks in a small well house about 20 feet from the well. From the well house water diverts to a single domestic use, a hydrant for a stock tank and to a pressurized underground mainline system that services a sprinkler system for irrigation. Nelson yard sprinklers with various nozzle diameters are used. There are canal shares allocated to the same place-of-use. Domestic permit 36-15254 overlaps the point of diversion for this permit.

It was found that about 3.4 acres of land was being irrigated from the ground water source. One-half acre is allowed under the domestic component of permit 36-15254 and 1.5 acres under this permit for a total irrigated acreage of 2 acres. Another permit is needed for the additional 1+ acres of land being irrigated.

At the time of the exam, a pressure gage at the pressure tanks registered 58 psi with 7 sprinklers operating.

GROUNDWATER MEASUREMENT REQUIREMENT ANALYSIS

FILE: 36-08615

DATE: 6-17-94

BY: Alan Hansten

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (\text{H.P.}) \times (\text{EFF.})}{\text{TDH}}$

Q = CFS

H.P. = Total Brake Horsepower of pumping plant (including booster)

EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)

TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = depth to water in FEET from land surface to pumping water level

PSI = pumping pressure measured in psi near pump
(if open discharge assume zero [0])

$Q = \frac{(8.8) \times (\dots 5 \dots) \times (0.70)}{[(\dots 121 \dots) + (\dots 6.5 \dots \times 2.31)]} = \dots 11 \text{ cfs}$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08615

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 36-08615

Dear Permit Holder:

Enclosed is a modified copy of the proof of beneficial use filed in connection with the above referenced permit. I have also enclosed a copy of the permit to appropriate water that you should have previously received in connection with this permit.

Please note that I have made changes to the proof of beneficial use so that it does not exceed the total rate of diversion or uses of water allowed on the permit. Once you have applied for the permit, you cannot add additional uses or increase your rate of diversion.

You should also be aware that you have filed adjudication claim no. A36-15254 that covers your domestic use.

The Department will continue with the analysis of the proof of beneficial use form and notify you as soon as the analysis is complete. In the mean time, if you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 36-08615

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08615

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Re: Application for Permit No. 36-08615

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the North Side News on 12/31/91 & 1/8/1992. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
