CONDITIONS OF APPROVAL

- Domestic use is for 4 homes and does not include lawn, garden, landscape, or other types of irrigation.
- The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
- Commercial use is for a dairy.
- Right 36-07304B is also diverted through the points of diversion described above.
- Rights 36-07304B and 36-08608 when combined shall not exceed a total diversion rate of 0.86 cfs.
- The dairy operation authorized under this approval shall comply with applicable county zoning and use ordinances.
- This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
- The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted for irrigation purposes under this right and shall only divert groundwater under this right for irrigation purposes when water from the appurtenant surface water rights cannot be delivered to the right holder.
- If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

PLAIN AQUIFER FOR WHICH PROOF OF)
BENEFICIAL USE HAS NOT BEEN)
SUBMITTED AND IS NOT PAST DUE)

**ORDER FOR TEMPORARY
STAY OF DEVELOPMENT AND
NOTICE OF FORMAL PROCEEDINGS**

The Director of the Idaho Department of Water Resources (Director), having responsibility for the administration of the appropriation of the water of the state of Idaho, the protection of rights to the use of water within the state, the protection of the public interest in the waters of the state and the conservation of the water resources of the state enters the following Findings of Fact, Conclusions of Law and Order for temporary stay; and provides the following notice of formal proceedings:

FINDING OF FACTS

1. On May 15, 1992, the Director issued an order establishing a moratorium on the processing and approval of applications for permit to appropriate water from all surface and ground water sources upstream from the USGS Gauge on the Snake River near Weiser, Idaho. On April 30, 1993, the Director issued an Amended Moratorium Order covering the Eastern Snake River Plain Aquifer. The 1994 session of the Idaho Legislature enacted section 42-1806, Idaho Code, requiring that the moratorium relating to the the Eastern Snake River Plain area shall continue in effect until December 31, 1997.

2. The state of Idaho has experienced seven (7) recent years of drought conditions resulting in lowered ground water levels and decreased discharge from surface water sources. The Idaho Legislature has authorized a study to examine the implications of these changes and the relationships between surface and ground water resources. The study is expected to be completed in approximately two (2) years.

3. Delivery calls have been made by the holders of senior-priority surface and ground water rights against the holders of junior-priority ground water rights from the Eastern Snake Plain Aquifer which could result in the curtailment of diversion and use of water under junior-priority ground water rights including rights which might otherwise be developed under permits which are the subject of this order and notice.

RECEIVED

MAR 23 1995

CONCLUSIONS OF LAW

1. Section 42-1805, Idaho Code, provides in part as follows:

In addition to other duties prescribed by law, the director of the department of water resources shall have the following powers and duties:

...

(7) After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of minimum flow provisions of the state water plan.

2. Water Appropriation Rule 55.02. of the Department of Water Resources (IDAPA 37.03.08055.02) provides as follows:

02. PERMITS

a. To the extent a permit has not been developed, the director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Rule 55.01.

b. Notice of the director's action to cancel or modify permits shall be by:

i. Summary Order served by certified mail upon the affected permit holders in the designated area.

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area.

c. Objections to the director's action shall be considered under the department's adopted rules of procedure and applicable law.

3. Rule of Procedure 104 of the Department of Water Resources (IDAPA 37.01.01104) provides in part as follows:

Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280.

4. Protection of prior rights to the diversion and use of surface and ground water of the Eastern Snake River Plain Aquifer

MAR 23 1995

and the Snake River may require that the further development of water under existing undeveloped permits be suspended indefinitely to assure that the effects and conditions caused by drought, changes in irrigation practices and resulting aquifer recharge, and diversion and use of ground water from the aquifer under prior established water rights are properly evaluated.

5. Section 42-204, Idaho Code, provides in part as follows:

Every holder of a permit which shall be issued under the terms and conditions of an application filed hereafter appropriating twenty-five (25) cubic feet or less per second must, within one (1) year from the date upon which said permit issues from the office of the department of water resources, commence the excavation or construction of the works by which he intends to divert the water, and must prosecute the work diligently and uninterruptedly to completion, unless temporarily interrupted through no fault of the holder of such permit by circumstances, over which he has no control.

ORDER

IT IS THEREFORE, HEREBY ORDERED as follows:

1. The owners of all permits to appropriate ground water within the boundaries of the Eastern Snake Plain Aquifer, as that area is defined by Rule 50 of the rules for Conjunctive Management of Surface and Ground Water Resources (IDAPA 37.03.11), shall, effective immediately upon receipt of this order, temporarily stop further development under the permit until the Director authorizes further development.

2. The owners of all permits for appropriation of ground water within the boundaries of the Eastern Snake River Plain Aquifer shall on or before February 1, 1995, either:

A. File proof of beneficial use to cover the extent of diversion and beneficial use of water that has been accomplished prior to receipt of this order; or

B. File a response with the Director in this proceeding to satisfy the requirements of either subparagraph 1) or 2) below:

1) Document with supporting information that a "substantial investment" has been made, prior to receipt of this order, in facilities to divert and beneficially use water under the permit that merits the granting of additional time to complete all or part of the project. Substantial investment means an actual expenditure or written commitment for development of the project which meets the following requirements:

- a) The actual expenditure or written commitment for the diversion and related equipment must equal or exceed the amount of fifteen thousand dollars (\$15,000) or exceed twenty five (25) percent of the estimated cost of the system for diverting and beneficially using the water, whichever is less; and
- b) The actual expenditure or written commitment must have been made before receipt of this order.

2) Request an indefinite stay in the development period for the project, or any part of the project for which a substantial investment has not been made, until the conditions that resulted in this order have been alleviated if such should ever occur. Upon approval of any such stay, no further development is to occur until such time as the department has issued an extension of time setting a date for completion of the project.

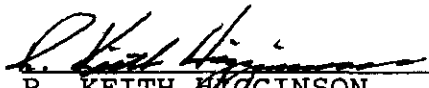

3. Failure to submit either proof of beneficial use or a satisfactory response shall result in cancellation of the permit without further notice.

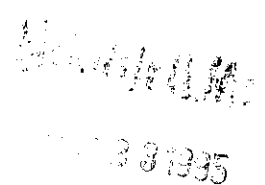

4. Before receiving approval for either additional time to complete a project under subparagraph 2.B.1) or a stay under subparagraph 2.B.2) above, the owner of the permit shall provide information to demonstrate compliance with the provisions of Sections 42-204, Idaho Code, with respect to commencing and diligently proceeding to develop the project authorized under the permit.

5. This order does not prevent the Director from reviewing continued development of a permit on a case-by-case basis if,

- a. The Director determines that protection and furtherance of the public interest justifies continued development of a permit; or
- b. The Director determines that continued development and use of water will have no effect on prior water rights because of its location, insignificant consumption of water or mitigation provided by the permit holder to offset injury to other rights.

Dated this 9TH day of NOVEMBER, 1994.

Permit To Appropriate Water

NO. 36-08608

Proposed Priority: September 3, 1991 Maximum Diversion Rate: 1.46 CFS
This is to certify, that CHINO VALLEY EXCHANGE INC

PO BOX 669
CHINO CA 91708

has applied for a permit to appropriate water from: GROUNDWATER
and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	04/01 to 10/31	0.04 CFS
STOCKWATER	01/01 to 12/31	1.16 CFS
COMMERCIAL	01/01 to 12/31	0.20 CFS
DOMESTIC	01/01 to 12/31	0.10 CFS
Totals		1.46 CFS

LOCATION OF POINT(S) OF DIVERSION: NWNW , Sec. 24, Township 08S, Range 14E
GOODING County

<u>PLACE OF USE:</u>	<u>IRRIGATION</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
<u>TWN RGE SEC</u>					
08S 14E 24	NWNW 2				2
Total number of acres irrigated:					2

PLACE OF USE: STOCKWATER, same as IRRIGATION use

PLACE OF USE: COMMERCIAL, same as IRRIGATION use

PLACE OF USE: DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1995.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant CHINO VALLEY EXCHANGE, INC. Phone (714) 628-1276
Post office address P.O. Box 669, CHINO, CA 91708

2. Source of water supply Groundwater which is a tributary of _____

3. Location of point of diversion is NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of NW $\frac{1}{4}$, Govt. Lot _____
Sec. 24 Township 3S Range 14E B.M. Gooding County; additional
points of diversion if any: 2 wells

4. Water will be used for the following purposes:

Amount 0.10 for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 1.16 for Stockwater purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.20 for Commercial purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.04 for Irrigation purposes from 3/15 ⁴⁻¹ to 10-31 ^{11/15} BLM (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 1.46 cubic feet per second and/or (b) _____ acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Main and backup wells,
pumps, mainline to pressure tanks, lines to
troughs, hoses, bulk tank, barn ^{15,000 gallon}

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.

c. Proposed well diameter is 8" inches; proposed depth of well is 150' feet.

d. Is ground water with a temperature of greater than 90°F being sought? No

7. Time required for the completion of the works and application of the water to the proposed beneficial use is
3 years (minimum 1 year).

RE: License No. 36-8608 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

RE: License Recommendations

Date: August 28, 2002

.....

I was asked to finalize the review of this permit for licensing. I understand that there was a question in regard to the volume of water proposed to be licensed. In reviewing the licensing amendment that was previously submitted, along with information from the Water Measurement District, and our "dairies" worksheet, I found that the information is consistent with other dairies we have licensed in the past six months. I did, however, take the liberty of rounding the volume to a 3 digit amount, rather than what is shown on the amendment application. Based on the "draft" memorandum entitled "Water Use Quantification for Dairies, we now use the same volume for stockwater and commercial uses with the total not to exceed the amount for either separate use. I have also made this change to the proposed license and amendment received 4/28/2002.

IDAHO DEPARTMENT OF WATER RESOURCES
Water Right Report 36-7304B

Conditions of Approval:

1. 01M After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
2. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
3. T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
6. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

Remarks:

1. General The total instantaneous diversion of water from all points of diversion under Right No. 36-07304B shall not exceed 0.24 cfs, nor a total combined annual volume of 59.0 af. The total instantaneous diversion of water from all points of diversion under ~~Right No. 36-07304B~~ shall not exceed ~~1.04 cfs~~, nor total combined annual volume of ~~59.0 af~~. Commercial use is for dairy operation. Stockwater use under Right No. 36-07304B is for 750 dairy cattle. Two points of diversion are located within NWNW, S24, T08S, R14E.

RE: Water Right Permit 36-08608

Dear Permit Holder(s):

I previously forwarded to you an Application for Amendment so that you could amend your permit to depict your water right as it has actually been developed.

As of this date, I have not received the amendment. If I do not receive the amendment within 14 days, a Water Right License will be issued for less than could have been allowed. In case the amendment form I sent you have been misplaced, a new one is enclosed. Please note that the filing fee for the amendment is \$50.00.

If you have any questions regarding this matter, please call me at 208-327-5452

RE: Water Right Permit No. 36-08608

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 X Place(s) of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 327-5452.

Sincerely,

A handwritten signature in cursive script that reads 'Sharla Curtis'.

RE: Permit No. 36-8608

Gentlemen:

Permit 36-08608 is currently being reviewed for licensing. Since you received your permit, the Department has taken a position that it is necessary to clarify the place of use for land application of waste from dairies as part of the water right. We would like to give you the opportunity to include the description of the place of use for this waste water on your water right license. Please submit information, by 40-acre tract descriptions, that describes where the waste water is used and the ownership of the lands that this water is applied.

Enclosed, for your convenience, is a copy of a topographical map that you can use to identify these lands. Please mark on the map where your waste water is being applied. If land application is found to be in tracts not included on your permit, we will request that you amend your permit before licensing to include this information on the license. If the waste water is not land applied, please advise us by telephone, e-mail (scurtis@idwr.state.id.us) or a letter.

Please submit the requested information within the next 14 days so we can proceed with licensing your permit. If you have any questions, please feel free to contact me at (208) 327-5452.

Sincerely,

Sharla Curtis
Sr. Water Resource Agent

RE: WATER RIGHT NO. 36-08608

Dear Permit Holder(s):

I previously forwarded to you an Application for Amendment so that you could amend your permit to depict your water right as it has actually been developed.

As of this date, I have not received this amendment. If I do not receive the amendment within fourteen (14) days, a Water Right License will be issued for less than could have been allowed. In case the amendment form I sent you has been misplaced, a new one is enclosed. Please note that the filing fee for this amendment is \$50.00.

If you have any questions, please call me at (208) 327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen".

RE: WATER RIGHT NO. 36-08608

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return it with the \$50 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen

E. NARRATIVE/REMARKS/COMMENTS

This system consists of 2ea 8" wells drilled 146 ft deep and hooked up together. Water is diverted to 4 65 gal pressure tanks and to the diverting works located within the pump and electrical control area of the barn.

Water is diverted from the pressure tanks via 2" stainless pipe reduced to 1.5" galvanized and is diverted to the domestic component of this permit and services 4 homes.

Water is then diverted from the pressure tanks and used to irrigate 2 ac of lawn around dairy and domestic homes.

Stockwater is diverted from the pressure tanks to the outside corrals and is regulated by float-sensing switches on stock-tanks.

Water is diverted to the milk cooling system, and then is returned to a 5,000 gal holding tank located outside the barn and is kept in storage and re-cycled for the udder washing, and barn washing and flushing. A 25 hp booster pump aids in this function.

I contacted Larry Nielson of Eaton drilling for pump verification and found that two 15 hp are in place, the lift is 120 ft, and the system operates at 30 PSI.

Overlap in the form of X36-07304B is in place to add a diversion point, change the place of use and split the right into parts A & B should expansion of the dairy commence.

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

$$\frac{8.8 \times 30 \times .70}{120 + (30 \times 2.31)} = 0.98\text{cfs System Capacity}$$

G. VOLUME CALCULATIONS**1. Volume Calculations for Irrigation:**

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{2 \times 4 = 8\text{afa}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{0.98 \times 214 \times 1.9835 = 416\text{afa}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{8\text{afa}}$$

2. Volume Calculations for Other Uses:**Stockwater:**

$$\frac{1650 \text{ cows} \times 35\text{gpd/cow} \times 365 \text{ d/y}}{325900 \text{ g/af}} = 72.8\text{afa}$$

$$\frac{600 \text{ cows} \times 12 \text{ gpd/cow} \times 365 \text{ d/y}}{325900 \text{ g/af}} = 8.1\text{afa}$$

Commercial:

$$4.9\text{gpm/head} \times 138 \text{ heads} \times 7 \text{ Strings} \times 2 \text{ milkings/string} \times 7\text{min/per milking day} = 66268\text{gpd}$$

$$\frac{66268\text{gpd} \times 365\text{d/y}}{325900} = 74.2\text{afa}$$

H. RECOMMENDATIONS**1. Recommended Amounts**

Beneficial Use	Period of Use		Rate of Diversion		Annual Volume V (afa)
	From	To	Q (cfs)		
<u>Domestic</u>	<u>01-01</u>	<u>12-31</u>	<u>0.10cfs</u>	<u>2.4afa</u>	
<u>Irrigation</u>	<u>04-01</u>	<u>10-31</u>	<u>0.06cfs</u> *	<u>8.0afa</u>	
<u>Stockwater</u>	<u>01-01</u>	<u>12-31</u>	<u>0.98cfs</u>	<u>80.9afa</u>	*
<u>Commercial</u>	<u>01-01</u>	<u>12-31</u>	<u>0.20cfs</u> *	<u>74.2afa</u>	*
Totals:		<u>0.98cfs</u>	<u>165.5afa</u> *

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 36-08608

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in tWIn Falls, at (208) 736-3033.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 36-08608

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: RELATIONSHIP OF DECLINING SPRING FLOWS TO GROUNDWATER
DIVERSIONS IDENT.#A-36-10142

Dear Mr Higginson,

You have not responded to my letter to you dated May 6, 1993, nor has my letter been acknowledged....

Our source of water (i.e. the Curran Spring) has now slowed to little more than a "trickle" (Approximately 100 inches)....

Unless a dramatic increase takes place we will lose the 80 acres of potatoes now planted, plus the 45 acres of wheat.... We continue to hold the seed for an additional 80 acres of potatoes with little or no prospect of planting them....

I have made a number of attempts to persuade you that your Dept, is responsible for my dramatic economic loss by reason of your permitting deep wells to be drilled east of the Curran Spring, and in many cases allowing land owners to sell their canal rights for a double negative effect....

Your Dept, has permitted Eddy Southfield to drill seven wells at which four have 50 HP pumps installed. The other three will be installed. He is presently milking 7000 cows. Your Dept, has further permitted him to drill 3 more major wells, and milk an additional 3000 cows.... All of this incredible impact on this aquifer within the past year....

My adjudicated rights carry a priority date of October 09, 1884....

To add insult to injury the discharge from 7000 cows is contributing to the ecological damage to the area....

2/....
FEB 04 1994

2

There is no denying that Southfield's location approximately 3 miles south on West Point Road, off Wendell Road, directly impacts the Curran Spring....

In closing, if those wells east of us aren't cut back, my farmer Butch Morris and myself stand to lose in six figures this season alone, and my beautiful farm becomes virtually worthless....

Sincerely,

Roger C. Crandlemire

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08608

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before JANUARY 20, 1992.

Yours truly,

Mary Baldwin
Secretary/Office Coordinator

Re: Application for Permit No. 36-08608

Dear Mr. De Renzis:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Gooding County Leader on 12/31/91 & 1/8/1992. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent

Re: Application by Chino Valley Exchange, Inc

Dear Mr. Mc Minn:

Following your call on Sept. 8, I researched our recently issued drilling permits and find that construction of two wells has been permitted in the location you described.

Copies of the drilling permits and the associated water right application are enclosed. It is normal for the department to issue drilling permits in advance of water right approval where it appears that a water right will be granted and with the condition that the drilling permit does not constitute a water right.

The water right application has not yet been numbered or advertised. you may file a protest against granting of a water permit any time up to the final date given in the published notice of the application.

Whether protested or not, the following criteria must be considered in granting or denying the application:

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the proposed project?
- 5) Will the proposed use conflict with the local public interest?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

MAY 15 1992

Sincerely,

Loren O. Holmes, P. E.
Southern Region Manager

MEMORANDUM

DATE: 09-Sep-1991

FROM: Loren Holmes

TO: Norm Young via FAX

SUBJECT: Dale Mc Minn complaint about well drilling

I have, in fact, issued two drilling permits for the drilling that concerns Mr. Mc Minn.

Copies of the drilling permits and associated water right application are attached.

I have sent copies of all this material to Mr. Mc Minn.

Mr. Mc Minn had previously contacted this office wanting to protest any dairy construction near him. We told him our records were always open, but unless there was an unauthorized diversion or an application was filed, we had no authority to act.

The application wound up being made in the name of Chino Valley Exchange, which was not one of the names he wanted us to watch for.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT
Department of Water Resources
Southern Region Office

Chino Valley Exchange, Inc., Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

well driller is now available. Need water
also for construction 25AP.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

Dear Mr. DeRenzis,

We are returning the various applications and checks because of incomplete forms. Please fill out every blank that is applicable. Refer to the enclosed instructions for assistance. Be sure to include a separate amount for each proposed use, e.g. stockwater, commercial, domestic, irrigation.

Return the applications and fees to this office. We will process the drilling permits when the appropriation application is acceptable. Please be aware that approval to construct the wells is not authority to divert water - it is at your risk that diversion may not be approved.

Sincerely,

Douglas

To Whom It May Concern,

Enclosed are applications for (2) Well drilling permits and an application for appropriation of public waters. I would like to advise you that my corporation is filing for these permits on behalf of Edward and Carol Southfield. My corporation is involved in a tax - free exchange for the building of a dairy farm in Wendell, Idaho for which these applications are being filed. Upon completion of the dairy construction I will transfer title of all property and appropriate items along with the land and dairy buildings. I'm not sure if my corporation will need to file transfer forms with your office. Please contact me regarding this matter.

Sincerely,

Philip J. DeRenzis
