PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08568

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 36-08568

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

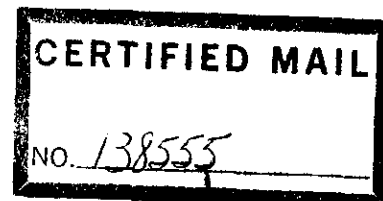

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08568

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of

MAY 31 1991

Idaho for the use and benefit of the people within the state.
Conditions pertaining to a term review, annual use fee and
jurisdiction of the permit are trust water conditions.

FROM: TIM LUKE

RE: APP. NO. 36-8568/Trust Water Processing

DATE: 3-22-91

This application was forwarded to the state office with other trust water applications and has been reviewed for sequential trust water processing. This application appears to have been filed in order to increase the rate of diversion for lands that have been licensed under groundwater right no. 36-2341. The application also adds some 40 acres which were not included on the existing licensed right.

The applicant has submitted a 1982 ASCS color aerial photo print which shows that all of the land under the application was irrigated in that year, including the 40 acres not included on the earlier license. It appears that all of the development may have been completed prior to 1984, but the application must still be classified as a trust water filing due to its post-1984 priority date. The acreage under the right shall not be counted as trust acreage since it was all irrigated with the same source prior to 1984.

The application may be processed immediately without contacting the applicant and requesting a returned trust water questionnaire.

Re: Application for Permit No. 36-08568

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

Because your application claims development prior to October 1, 1984, advertising and processing will occur at our State Office. Before we can forward your application, we need the following additional information: evidence of development prior to October 1, 1984 such as ASCS area photos predating 1984 with a signed statement from an ASCS agent or power bills predating October 1, 1984 for meter specifically servicing pump and/or any other convincing evidence.

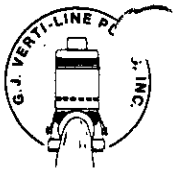

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg

14. Remarks:

CLAIM REPRESENTS AN EXPANSION OF THE ORIGINAL LIC. UNDER SEC. 42-1416 OF THE IDAHO CODE. PUMP SIZE WAS INCREASED TO 200 HP & 4 SPRINKLER LINES WERE ADDED IN SPRING OF 1974. THERE ARE NOW 12 SPRINKLER LINES IN THE SYSTEM. LAND DID NOT CHANGE WHEN THIS OCCURRED. LAND CLAIMED IS SLIGHTLY DIFFERENT THAN WHAT IS ON THE ORIGINAL LICENSE; CHANGE OCCURRED IN EARLY 1960'S TO BRING BETTER LAND UNDER THE SYSTEM & TO REMOVE ROCKY LAND. ACREAGE HAS NOT EXPANDED DUE TO THESE CHANGES.

15. Basis of Claim: BENEFICIAL USE
