

Show 1/4 1/4, section, township, range and ditches. (the smallest subdivision represents 40 acres)

Hand-drawn map on grid paper showing a survey area. The map is labeled "Twp 9S R20E" at the top. It features a grid of 12x12 squares. A point is marked with a dot and labeled "40" and "20". An arrow points from the label "P/D" to this point. Other numbers are scattered around the point: "14" above, "38" to the left, "35" to the right, "40" to the right, "36" to the right, "35" to the right, "15" to the right, "35" to the right, "15" to the right. A circled number "13" is in the top right, and a circled number "24" is in the bottom right.

Scale: 2 inches equal 1 mile

Signed this 3rd day of Aug, 19 94.

BILL TO

NOTICE OF AMENDMENT TO A WATER PERMIT NO. 36-08559

Notice is hereby given that LAREE, G. K., MARK MUNSEE are the holders of Approved Permit No. 36-08559 with a priority date of 09/04/1990 authorizing the diversion of 3.20 cubic feet per second of water from groundwater within the NWNW, S24, T09S, R20E; Jerome County to be used for irrigation of 323 acres within NWSW, S1/2SW, S1/2SE, S13, T09S, R20E; N1/2NE, N1/2NW, S24, T09S, R20E; Jerome County.

This Application for Amendment proposes to change place of use. The permit holders have applied to the Department of Water Resources for an Amendment to the Permit, to be changed as follows:

Place of Use: 323 acres within NWSW, S1/2SW, S1/2SE, S13, T09S, R20E; S1/2NE, N1/2NW, N1/2SE, S24, T09S, R20E; Jerome County.

Any protest against approval of the amending of Permit No. 36-08559 as set forth above must be filed with the Director, Idaho Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before September 12, 1994. The protestant must also send a copy of the protest to the applicant.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in **mailing address** or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

IDWR Western Region, 2735 Airport Way, Boise, ID 83705-5082 (208) 334-2190

IDWR Southern Region, 222 Shoshone St. E., Twin Falls, ID 83301-6105 (208) 736-3031

Total number of acres irrigated: 93

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
5. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
6. The Director retains jurisdiction of the right issued to change, add or remove any requirement as determined to be appropriate.
7. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.

RECORDED

State of Idaho
Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 36-08559

CONDITIONS/REMARKS:

8. Right 36-07378 is also diverted through the point of diversion described above.
9. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
10. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
11. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 372.0 af for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 23rd

Department of Water Resources

Show 1/4 1/4, section, township, range and ditches. (the smallest subdivision represents 40 acres)

A hand-drawn map on a grid background. The top of the map is labeled "Twp 9S R20E". The map shows several land parcels with acreage values:

- A parcel of 14 acres is located in the upper left.
- A parcel of 38 acres is located below the 14-acre parcel.
- A parcel of 20 acres is located to the right of the 38-acre parcel.
- A parcel of 35 acres and 15 acres is located to the right of the 20-acre parcel.
- A parcel of 35 acres and 15 acres is located below the 35-acre and 15-acre parcel.

A well location is marked with a dot and labeled "P/D" with an arrow pointing to it. The well is located on the boundary between the 38-acre parcel and the 20-acre parcel. There are two circled numbers: "13" is circled above the 14-acre parcel, and "21" is circled below the 35-acre and 15-acre parcel.

Scale: 2 inches equal 1 mile

I hereby request approval of this change subject to the fact that no one will be injured by the change, and that the change will be made at my own risk.

Signed this 3rd day of Aug, 19 94.

OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO.)
36-08559 IN THE NAME OF LAREE)
MUNSEE, G.K. MUNSEE AND MARK)
MUNSEE)
_____)

ORDER

This matter having come before the Idaho Department of Water Resources (department), as a result of a response by the permit holder to an order issued by the department, the department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On November 9, 1994, the Director of the department issued an Order for Temporary Stay of Development and Notice of Formal Proceedings (order) in connection with certain permits within the Eastern Snake River Plain Aquifer for which proof of beneficial use of water has not been filed with the department.

2. On November 21, 1994, the holder of Permit No. 36-08559 (permit) filed a response to the order with the Director in connection with Order Condition 2.B.1) to show that the permit holder has a substantial investment in facilities to divert and beneficially use water authorized for diversion under the permit.

CONCLUSIONS OF LAW

1. The permit holder has provided sufficient evidence to demonstrate that substantial investment has been made in facilities to divert and beneficially use the water contemplated under the permit.

2. The Director should conditionally allow the permit holder to continue the development authorized by the permit.

ORDER

IT IS THEREFORE, HEREBY ORDERED that the permit holder is authorized to continue with development under terms of the existing permit further conditioned that the permit holder is not authorized to assign the permit to another party.

Dated this 15TH day of December, 1994.

R. KEITH HIGGINSON
Director

RECORDED

FEB 14 1995

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF APPROVED PERMITS)
FOR THE APPROPRIATION OF GROUND)
WATER FROM THE EASTERN SNAKE RIVER)
PLAIN AQUIFER FOR WHICH PROOF OF)
BENEFICIAL USE HAS NOT BEEN)
SUBMITTED AND IS NOT PAST DUE)

**ORDER FOR TEMPORARY
STAY OF DEVELOPMENT AND
NOTICE OF FORMAL PROCEEDINGS**

The Director of the Idaho Department of Water Resources (Director), having responsibility for the administration of the appropriation of the water of the state of Idaho, the protection of rights to the use of water within the state, the protection of the public interest in the waters of the state and the conservation of the water resources of the state enters the following Findings of Fact, Conclusions of Law and Order for temporary stay; and provides the following notice of formal proceedings:

FINDING OF FACTS

1. On May 15, 1992, the Director issued an order establishing a moratorium on the processing and approval of applications for permit to appropriate water from all surface and ground water sources upstream from the USGS Gauge on the Snake River near Weiser, Idaho. On April 30, 1993, the Director issued an Amended Moratorium Order covering the Eastern Snake River Plain Aquifer. The 1994 session of the Idaho Legislature enacted section 42-1806, Idaho Code, requiring that the moratorium relating to the the Eastern Snake River Plain area shall continue in effect until December 31, 1997.

2. The state of Idaho has experienced seven (7) recent years of drought conditions resulting in lowered ground water levels and decreased discharge from surface water sources. The Idaho Legislature has authorized a study to examine the implications of these changes and the relationships between surface and ground water resources. The study is expected to be completed in approximately two (2) years.

3. Delivery calls have been made by the holders of senior-priority surface and ground water rights against the holders of junior-priority ground water rights from the Eastern Snake Plain Aquifer which could result in the curtailment of diversion and use of water under junior-priority ground water rights including rights which might otherwise be developed under permits which are the subject of this order and notice

MINUTES
FEB 14 1995

CONCLUSIONS OF LAW

1. Section 42-1805, Idaho Code, provides in part as follows:

In addition to other duties prescribed by law, the director of the department of water resources shall have the following powers and duties:

...

(7) After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of minimum flow provisions of the state water plan.

2. Water Appropriation Rule 55.02. of the Department of Water Resources (IDAPA 37.03.08055.02) provides as follows:

02. PERMITS

a. To the extent a permit has not been developed, the director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Rule 55.01.

b. Notice of the director's action to cancel or modify permits shall be by:

i. Summary Order served by certified mail upon the affected permit holders in the designated area.

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area.

c. Objections to the director's action shall be considered under the department's adopted rules of procedure and applicable law.

3. Rule of Procedure 104 of the Department of Water Resources (IDAPA 37.01.01104) provides in part as follows:

Formal proceedings may be initiated by a document from the agency informing the party(ies) that the agency has reached an informal determination that will become final in the absence of further action by the person to whom the correspondence is addressed, provided that the document complies with the requirements of Rules 210 through 280.

4. Protection of prior rights to the diversion and use of surface and ground water of the Eastern Snake River Plain Aquifer

RECEIVED
FEB 14 1995

and the Snake River may require that the further development of water under existing undeveloped permits be suspended indefinitely to assure that the effects and conditions caused by drought, changes in irrigation practices and resulting aquifer recharge, and diversion and use of ground water from the aquifer under prior established water rights are properly evaluated.

5. Section 42-204, Idaho Code, provides in part as follows:

Every holder of a permit which shall be issued under the terms and conditions of an application filed hereafter appropriating twenty-five (25) cubic feet or less per second must, within one (1) year from the date upon which said permit issues from the office of the department of water resources, commence the excavation or construction of the works by which he intends to divert the water, and must prosecute the work diligently and uninterruptedly to completion, unless temporarily interrupted through no fault of the holder of such permit by circumstances, over which he has no control.

ORDER

IT IS THEREFORE, HEREBY ORDERED as follows:

1. The owners of all permits to appropriate ground water within the boundaries of the Eastern Snake Plain Aquifer, as that area is defined by Rule 50 of the rules for Conjunctive Management of Surface and Ground Water Resources (IDAPA 37.03.11), shall, effective immediately upon receipt of this order, temporarily stop further development under the permit until the Director authorizes further development.

2. The owners of all permits for appropriation of ground water within the boundaries of the Eastern Snake River Plain Aquifer shall on or before February 1, 1995, either:

A. File proof of beneficial use to cover the extent of diversion and beneficial use of water that has been accomplished prior to receipt of this order; or

B. File a response with the Director in this proceeding to satisfy the requirements of either subparagraph 1) or 2) below:

1) Document with supporting information that a "substantial investment" has been made, prior to receipt of this order, in facilities to divert and beneficially use water under the permit that merits the granting of additional time to complete all or part of the project. Substantial investment means an actual expenditure or written commitment for development of the project which meets the following requirements:

RECEIVED
FEB 14 1995

- a) The actual expenditure or written commitment for the diversion and related equipment must equal or exceed the amount of fifteen thousand dollars (\$15,000) or exceed twenty five (25) percent of the estimated cost of the system for diverting and beneficially using the water, whichever is less; and
- b) The actual expenditure or written commitment must have been made before receipt of this order.

2) Request an indefinite stay in the development period for the project, or any part of the project for which a substantial investment has not been made, until the conditions that resulted in this order have been alleviated if such should ever occur. Upon approval of any such stay, no further development is to occur until such time as the department has issued an extension of time setting a date for completion of the project.

3. Failure to submit either proof of beneficial use or a satisfactory response shall result in cancellation of the permit without further notice.

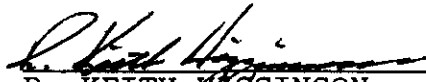

4. Before receiving approval for either additional time to complete a project under subparagraph 2.B.1) or a stay under subparagraph 2.B.2) above, the owner of the permit shall provide information to demonstrate compliance with the provisions of Sections 42-204, Idaho Code, with respect to commencing and diligently proceeding to develop the project authorized under the permit.

5. This order does not prevent the Director from reviewing continued development of a permit on a case-by-case basis if,

a. The Director determines that protection and furtherance of the public interest justifies continued development of a permit; or

b. The Director determines that continued development and use of water will have no effect on prior water rights because of its location, insignificant consumption of water or mitigation provided by the permit holder to offset injury to other rights.

Dated this 9TH day of NOVEMBER, 1994.

DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 36-08559

Name(s) of Permit Holder: LARÉE MUNSEE, G.K. MUNSEE and MARK MUNSEE

Mailing Address: 1511 Bitterroot Dr. Twin Falls, Idaho 83301

Date Proof is Due June 1, 1992 Telephone No. 208-734-7052

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Have supplemented water on 73 acres under Milner-Gooding Canal and have cleared brush, picked rocks and farmed 41 acres of new land. Have purchased the following irrigation equipment for this land: 4 hand lines @ \$600 2 wheel lines @ \$1500, pump \$1000, Approx. 3000 ft main line costing \$23,300
rock picking \$800 \$8000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

We need more time to clear brush, pick rocks and purchase irrigation equipment. The project will be expedited as time and resources allow. Due to the drought we will be using more of this water to supplement canal water

Permit holder(s) request an extension to June 1, 1996.

FEE: \$15.00

RE: WATER RIGHT NO. 36-08559

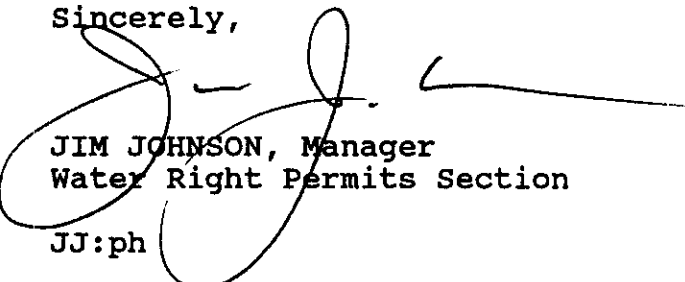

Dear Water Right Holders:

We acknowledge receipt of the correspondence changing the address of the above referenced water right. We have modified our computer records to reflect these changes in your address. We have also enclosed a report regarding your water right.

For water right no. 47-07501, we did not change the address since our records indicate an Assignment of Permit on August 14, 1986, giving this permit to Scott Kaster. For water rights no. 36-02654 and 36-07378 we did not change the records because the records indicate that the water rights belong to Larry Adams.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

AUG 25 1995

E. NARRATIVE/REMARKS/COMMENTS

Well, motor, pump, open discharge into pond, Canal water also goes into pond when extra is available. Of the 4 north fields, only the NE 1/4 7-acre field does not have ^{direct} access to canal water. The south 80 can only be watered from the pond. So the well is supplemental on 33.3 acres of the recommended P/U. Well is used to fill the pond. Booster pumps take water from the pond via mainlines to sprinklers. One booster supplies land north of the well, and a separate booster serves land SE of the well. Ground is mainly under wheel lines. All is sprinkled. The permitted land not recommended for licensing is either dry pasture or is served only with canal shares.

This well also serves Lic. 26-7378 via a mainline & booster pump off the line from the well to the pond. That line was valved off during the exam. Someone else owns that license now, although Mr. Munsee originally owned it.

Not to exceed 0.02 cfs/acre and 4.0 AFA/acre for all rights combined on this property.

Have conditions of permit approval been met? ☒ yes ☐ no

Microfilm
AUG 25 1995

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

$$2000 \text{ gpm} + 10\% = 2200 \text{ gpm} = 4.90 \text{ cfs} \quad \text{Allow } 93 \text{ ac} \times 0.02 \text{ cfs/ac} = 1.86 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 93 \times 4 = 372$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 789.5$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 372 \text{ AFA}$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	4-1	10-31	1.86	372
Totals:			1.86	372

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

WATER RIGHT LICENSE

License of Water Right No. 36-7378 Priority Sept. 12, 1973 Amount 2.72 cfs

THIS IS TO CERTIFY, that G. K. MUNSEE
of Twin Falls, Idaho, has complied with the terms and conditions of Permit
No. 36-7378 issued pursuant to Application for Permit dated September 12, 1973
and has submitted proof to the Department of Water Resources on June 29, 1976
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 3.68 cfs of water from a ground water source
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
irrigation	from <u>April 15</u> to <u>Oct. 1</u>	at <u>2.72</u> cfs and	<u>544 acre feet or</u>
	from _____ to _____	at _____ cfs and	<u>4.0 af per acre</u>
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 2.72 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
544 acre feet per year, said waters to be diverted within the NW¹4NW¹4 of Sec. 24,
Twp. 9 S, Rge. 20 E, B. M. in the County of Jerome

Description and location of place of use:

Twp.	Range	Sec.	NE ¹ 4				NW ¹ 4				SW ¹ 4				SE ¹ 4				Totals
			NE ¹ 4	NW ¹ 4	SW ¹ 4	SE ¹ 4	NE ¹ 4	NW ¹ 4	SW ¹ 4	SE ¹ 4	NE ¹ 4	NW ¹ 4	SW ¹ 4	SE ¹ 4	NE ¹ 4	NW ¹ 4	SW ¹ 4	SE ¹ 4	
9 S	20 E	24							34	34	34	34							136

Total number of acres irrigated 136

A measuring device of a type approved by this Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 24 day of
September, 19 76.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08559

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208) 736-3033.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Water Right No. 36-08559

This is in response to your Order for Temporary Stay of Development in connection with the above mentioned water right permit.

We feel we should be allowed to complete our development project under this permit. The well was drilled in 1973 at the following costs: \$5625 for drilling 16" well, \$7312 for well-pump and motor, \$2339 for booster pump and \$3200 for storage reservoir for a total of \$18,476.

This pump and well has been used continuously since 1973 pumping the 2.72 cfs already proved up on under permit no. 36-7378.

The permit No. 36-08559 is for the additional water that is being pumped from the well. Since 1990 when we filed on this water we have made the following expenditures: \$6735 for mainline pipe, \$6000 for handlines, \$1046 for hiring mechanical rock picker, \$2500 for fuel and hand labor to clear, pick rocks and work the land. Total for this is \$16,281.

Approximately 40 acres of new land has been irrigated. We have worked another 55 acres of new land and need to purchase additional irrigation equipment for this land which would consist of \$8750 for mainline, \$3750 for handlines and \$7600 for larger pump motor, panel, installing and etc.

All of these costs do not include any work done by ourselves or use of our machinery. We do have receipts for most of the costs. The amounts already spent are considerably more than 25% of the entire cost of the project.

We intend to complete this project in the spring of 1995. If you need more information please contact us.

Sincerely,

G. K. Munsee

SEP 1 1994

Department of Water Resource
Northern Region Office

NOTICE OF AMENDMENT TO A WATER PERMIT
NO. 36-08559

Notice is hereby given that LAREE, G. K., MARK MUNSEE are the holders of Approved Permit No. 36-08559 with a priority date of 09/04/1990 authorizing the diversion of 3.20 cubic feet per second of water from groundwater within the NWNW, S24, T09S, R20E; Jerome County to be used for irrigation of 323 acres within NWSW, S1/2SW, S1/2SE, S13, T09S, R20E; N1/2NE, N1/2NW, S24, T09S, R20E; Jerome County.

This Application for Amendment proposes to change place of use.

The permit holders have applied to the Department of Water Resources for an Amendment to the Permit, to be changed as follows:

Place of Use: 323 acres within NWSW, S1/2SW, S1/2SE, S13, T09S, R20E; S1/2NE, N1/2NW, N1/2SE, S24, T09S, R20E; Jerome County.

Any protest against approval of the amending of Permit No. 36-08559 as set forth above must be filed with the Director, Idaho Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before September 12, 1994. The protestant must also send a copy of the protest to the applicant.

Re: Application for Amendment, 36-08559

Dear Applicants:

The Department of Water Resources acknowledges receipt of your application for amendment of a permit.

This office has scheduled advertising the application in the North Side News on 8/24 & 8/31/94. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Mel Schulte

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved Date 4/29/90

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

Larry O. Halum MANAGER, SOUTHERN REGION
Signature of Authorized Department Representative Title

Receipt No. 5012454 Receipted by [Signature] Fee \$100.00 Date 6-28-90

EXTENSION OF DRILLING PERMIT

Extension approved by _____ Approval Date APPROVED

This extension is good for 60 days beyond the above extension approval date.

FEB 14 1995

RECEIVED

Drilling permit No. 26-90-5-064

JUN 29 1990

Water right No. _____

Department of Water Resources
Southern Region Office

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

U.R. Farms, Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

We want to get the well drilled now while a driller is available.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

Re: Permit No. 36-08559

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to June 1, 1996. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson

RE: PERMIT NO. 36-08559 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08559

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of

FROM: TIM LUKE

RE: APP. NO. 36-8559/RULE 4,5,3. INFORMATION

DATE: 5-16-91

The applicant has submitted the information required under Water Appropriation Rule 4,5,3. I have reviewed this information and find that it is complete and acceptable. I recommend further processing of the application.

Note: In submitting the additional information, the applicant has stated that the well, pump, electricity, and some lateral sprinkler lines are already in place. I suggest allowing one or perhaps two years at most for submitting proof.

Re: Application for Permit # 36-8559

Dear Mr. Luke:

Please find enclosed the information
you requested regarding Rule 4,5,3.

If anything additional is needed
let us know.

Sincerely,

G. K. Munsee

MICROFILMED

JUL 10 1991

Rule 4,5,3,1.

1. NA
2. A map is enclosed showing other wells
3. The type of irrigation system to be used is sprinkler. Our project should not affect any other user. The canal borders one side of the land, some dry deeded grazing land belonging to us one side. There will be no waste water using sprinkler irrigation to bother anyone. The power line is already in place on our own land.

Rule 4,5,3,2.

1. Regarding water demands and soil types, we have enclosed material from the Soil Conservation Service. A variety of crops will be grown including potatoes, beans, grain, hay and pasture.
2. The water supply is from a well drilled in 1973. The water we are filing on is extra water from the well that has not been filed on. The well is 16" in diameter and 450 feet deep with the water level at 235 feet. Well was producing 5.9 c.f.s. at last measurement.

Rule 4,5,3,3.

1. NA
2. NA

Rule 4,5,3,4,

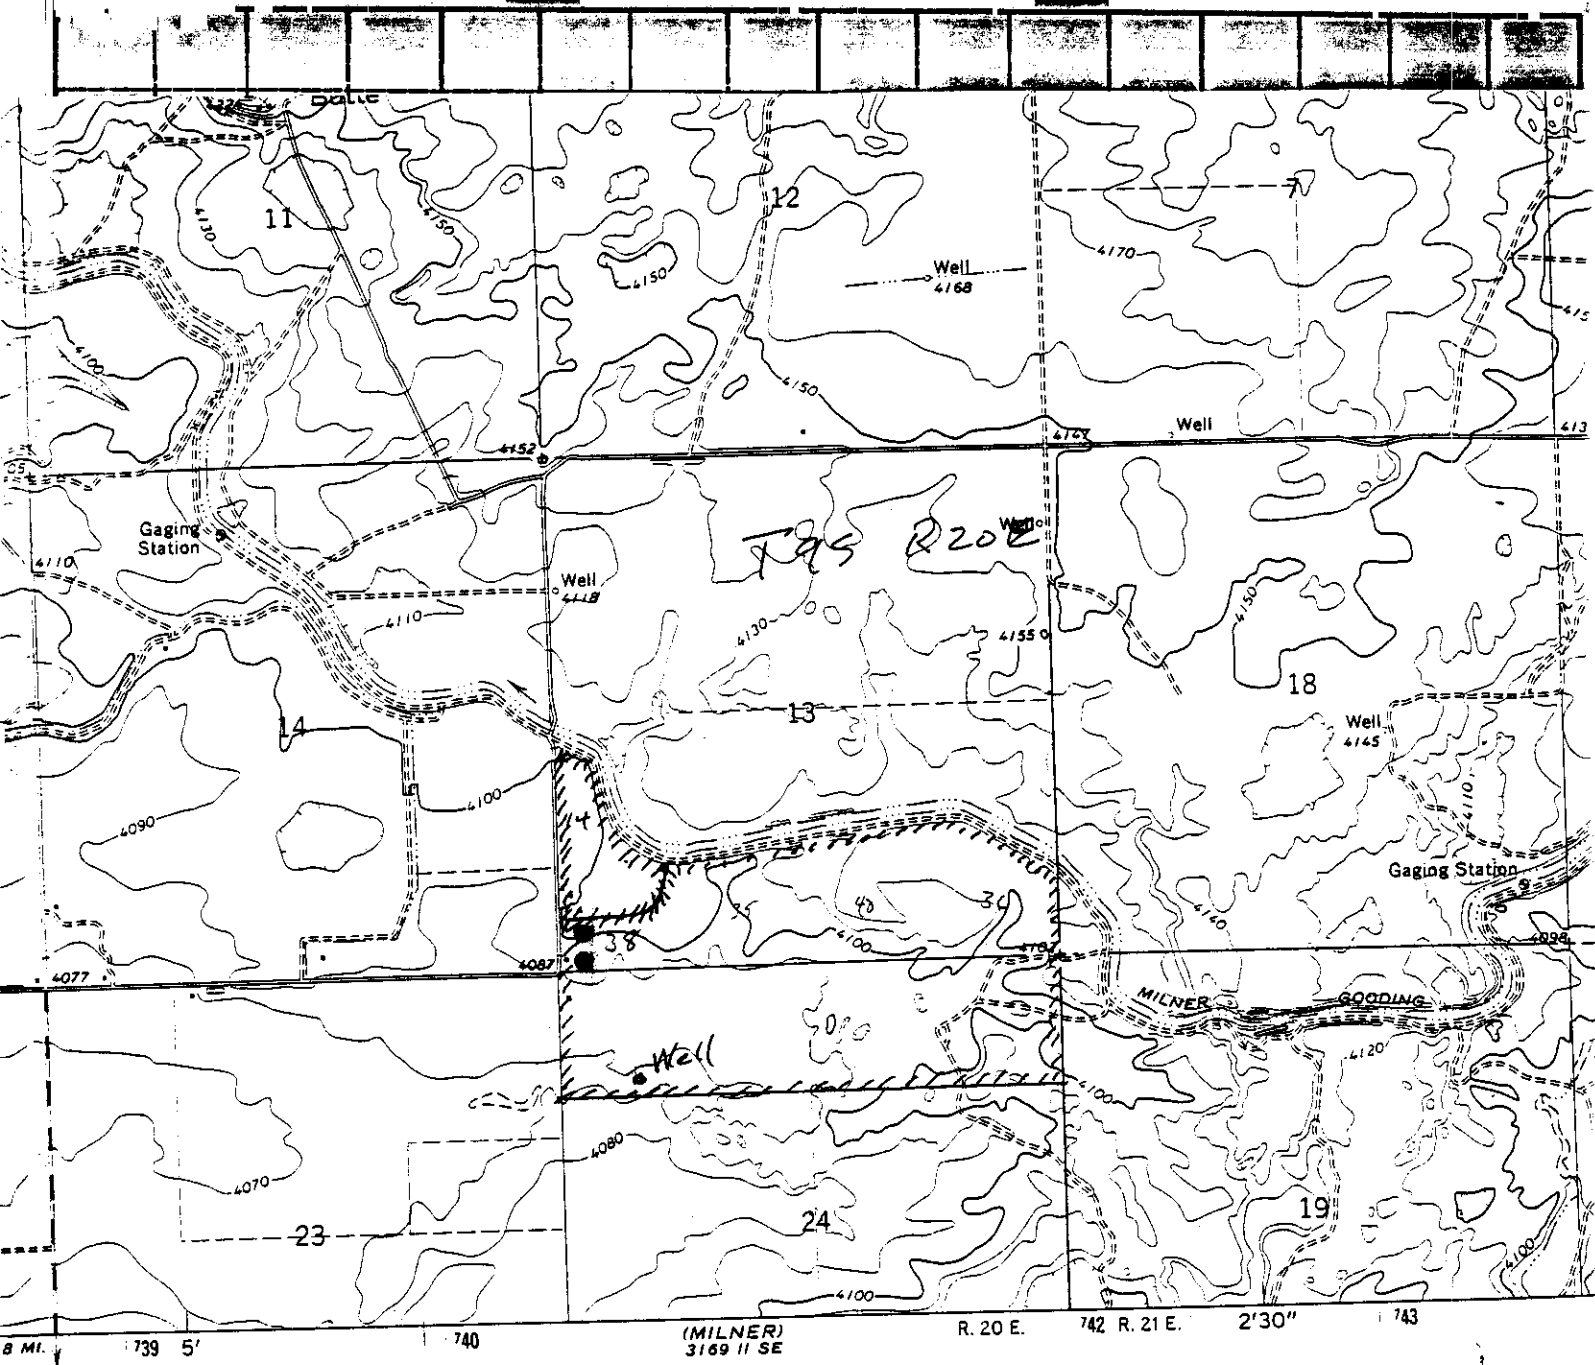

1. and 2. The well, pumps, electricity, mainline and some lateral line are already in place and paid for. Therefore, no financing is needed.

Rule 4,5,3,5.

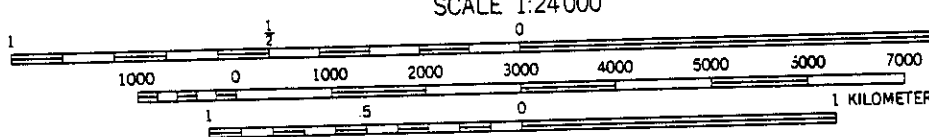

1. We do not believe our project would be of any interest to anyone except the canal company. Enclosed is a copy of a letter written to them asking for comments. A copy of our application has been sent to them.

NOT RECOMMENDED
 JUL 10 1991

M. 5, 1991

American Falls Reservoir Dist. #2
Box C
Shoshone, Idaho 83352

To Whom It May Concern:

We are in the process of filing for some additional waster in a well that is situated on our property in Jerome County, Sec. 24, Township 9S, Range 20 E.B.M.

Enclosed is a copy of the filing and a map of our proposed project. The land to be irrigated is within the marked area. Water from the well will be used to irrigate new land as well as supplement our canal water if the drought continues.

We believe that this project will in no way interfere with your operation of the canal system. There will be no waste water as the land will be sprinkled.

If you have any objections to, or would like to make any comments regarding this filing please send them to the Department of Water Resources, 1301 N. Orchard Street, Boise, Idaho 83706-2237.

Thank You,

G. K. Munsee

Re: Application for Permit No. 36-8559

Notice of Information Required by Water Appropriation Rule 4,5,3.

Dear Applicant:

The Department acknowledges receipt of the Trust Water Information Questionnaire for the above referenced application. On behalf of the Department, I wish to thank you for your cooperation in returning the questionnaire. The required advertising for this application will soon be completed. We also acknowledge the assignment of application from G.K. Munsee to G.K., Larec G., and Mark Munsee.

In the letter that accompanied the questionnaire, I informed you that you would need to submit additional information required by Water Appropriation Rule 4,5,3. if the undeveloped portion of the application exceeds 200 acres, or if the rate of diversion is more than 5.0 cfs. The returned questionnaire indicates that you wish to pursue completion of the irrigation project as proposed under your application. Although the project proposes diversion of only 3.2 cfs, review of the application indicates that you will be developing more than 200 acres. The filing therefore is subject to the additional information requirements of Rule 4,5,3. In particular, you must submit the information outlined in Rules 4,5,3,1. through 4,5,3,5 (copy attached). A guideline for assisting you with submittal of the additional information is also enclosed.

The information must be submitted within 30 days of the date of this notice. **Failure to submit the required information within the time period allowed may be cause for the Department to void the application.** The Department may grant an extension of time in which to submit the information upon request and a showing of good cause. Requests for extension of time must be in writing.

Please contact me at this office or call me directly at 327-7864 if you have any questions concerning the contents of this notice and/or the information requested under Rule 4,5.

Sincerely,

Tim Luke

Sr. Water Resource Spec.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 36-8559/Trust Water Processing

DATE: 4-29-91

The above application has come up for sequential trust water processing. The applicant returned the trust water questionnaire and states that the project represented by the application was not completed prior to October of 1984. Based on his response to question no. 3, it appears that the groundwater well may have been drilled in 1990 or 1989, but I found no drilling permit for either of these years under the applicant's name. Finally, the applicant has stated that the source is supplemental to surface water delivered through the Milner-Gooding Canal.

My review of a 1983 infrared aerial photo on file at the department shows that about 113 of the 323 acres under the application were irrigated in that year. I have also reviewed a 1976 black and white orthophoto. This latter photo is nearly identical to the 1983 photo. Based on review of the photos and response to the questionnaire, I conclude that no more than 113 acres under the application have been irrigated prior to October, 1984. The remaining 210 acres shall be counted as trust acreage.

Application No. 36-8559

INSTRUCTIONS: IF YOU ARE NOT INTERESTED IN HAVING THE APPLICATION PROCESSED, PLEASE COMPLETE AND RETURN THE ENCLOSED WITHDRAWAL FORM.

IF YOU WISH TO HAVE THE APPLICATION PROCESSED, PLEASE ANSWER THE FOLLOWING QUESTIONS AS THOROUGHLY AS POSSIBLE. FAILURE TO RETURN EITHER THE WITHDRAWAL FORM OR QUESTIONNAIRE IS CAUSE FOR THE DEPARTMENT TO VOID THE APPLICATION.

1a. Are you the current owner of the land or place of use described under this application? Yes ☒ No ☐

b. If you are not the property owner, please describe the arrangement enabling you to develop the proposed project.

2a. Has the source of water listed on this application been used to irrigate any of the land described under this same application prior to October 1, 1984? Yes ☐ No ☒

b. If yes, please describe the extent of development and number of acres irrigated. (Note: Uses developed after October, 1984 are considered trust water diversions and may be subject to certain conditions. You may be asked to verify uses established prior to October, 1984.)

3. If you answered NO to ques #2a, please state the number of acres you have irrigated with this source after October 1, 1984. 43 in 1990

4. If you have not irrigated lands under this application, please state the number of acres you plan to complete. 273 280

5. If the permit is a supplemental filing please identify other water rights which are used on the same land.

Milner-Gooding for 60 shares (5/8" per share)

Use the reverse side of this form if you wish to add any comments. You may mark changes on the enclosed application to designate any proposed amendments. (Note: Proposed changes which result in an expansion of use will not be considered by the department.)

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

RE: APPLICATION FOR PERMIT NO. _____

Dear APPLICANT:

Due to the Swan Falls litigation and subsequent backlog of pending applications, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.

Please be further advised that if any undeveloped portion of your proposed project is greater than 200 acres, or if the application proposes diversion of more than 5.0 cfs, the department will issue a notice requesting additional information as required by Water Appropriation Rule 4,5. (copy enclosed). In particular, rules 4,5,3. through 4,5,3,5. apply to your project if it is more than 200 acres. If necessary, the 4,5. information notice will be sent to you after you return the questionnaire.

RECEIVED
JUL 10 1991

Re: Application for permit No. 36-08559

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

Because your application proposes to appropriate water which has been identified as "trust water" in the Swan Falls agreement, it will be processed under rules and regulations for water appropriation that have been adopted as required by law.

Under the rules, applications will be processed at a rate which allows development of 20,000 acres per year. The oldest applications will be processed first, provided that applicants are willing and able to proceed.

For this reason, it is not possible to estimate at this time when action will be taken on your application.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
