Re: Permit No. 36-08530 and 36-08481

Dear Permit Holder:

Returned are the Proofs of Beneficial Use form submitted to this office in connection with the above referenced permits. Unfortunately, they are unacceptable as filed. They indicate the total rate of diversion of water to be 0.08 cfs.

When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of 0.08 cfs is \$50. Note the back of the enclosed instruction sheet/fee schedule.

Since permit no 36-08481 has lapsed and is of no further force nor effect, you will need to return the original proof and the \$50 license exam fee as soon as possible. Since proof is not due on permit no. 36-08530 until September 1, 1993, you will need to return the original proof and \$50 license exam fee on or before that date.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08530

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

Re: Application for Permit No. 36-08530

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the North Side News on 6/6 & 6/13/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

MICROFILMED
