NOTICE OF PROPOSED CHANGE TO WATER RIGHTS

Notice is hereby given that an Application for Transfer has been filed with the Idaho Department of Water Resources for changes to water rights within Minidoka County:

ARLEN &/OR MARY LEE BUERKLE, 343 S 300 W; HEYBURN ID 83336 filed Application No. 69723 on 3/1/02 for diversion of 0.09 cfs from ground water. The purpose of the transfer is to change a 1.5-acre portion of irrigation right 36-8519 to commercial use from an existing well for a proposed RV park located approximately one-half mile Northeast of the juncture of Interstate 84 and Highway 24 between Heyburn and Rupert.

For specific details regarding the application(s), please contact IDWR Southern Regional Office at 208-736-3033 or visit **www.idwr.state.id.us** with detail provided under "New Water Right Applications". Protests may be submitted based on the criteria of Sec 42-222, Idaho Code. Protests against approval must be filed with IDWR, Southern Region, 1341 Fillmore St.-Suite 200; Twin Falls, ID 83301 with a protest fee of $25.00 for each application on or before March 29, 2002. The protestant must also send a copy of the protest to the applicant.

Karl J. Dreher, Director
Published in the South Idaho Press on March 11 and 18, 2002.

	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
10S 23E 11				X													

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code if the existing well needs to be modified or replaced.

2. Use of water under this approval shall comply with applicable water quality standards of the Department of Environmental Quality.

3. Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

MICROFILMED
APR 2 3 2002

WATER RIGHT NO. 36-8519
As Modified by Transfer No. 69723

CONDITIONS OF APPROVAL

4. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.

5. Irrigation use under this right is authorized only in connection with a domestic use.

6. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.

7. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

8. Commercial use is for a recreational vehicle park and camp.

9. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

WATER RIGHT LICENSE

WATER RIGHT NO. 36-08519

Priority: April 10, 1990 Maximum Diversion Rate: 0.09 CFS
Maximum Diversion Volume: 12.0 AF

This is to certify, that ARLEN BUERKLE
RT 1 BOX 1065
HEYBURN ID 83336 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 10, 1990; and has submitted Proof of Beneficial Use on August 21, 1990. An examination indicates that the works have a diversion capacity of .090 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

BENEFICIAL USE	PERIOD OF USE	RATE OF DIVERSION	ANNUAL VOLUME
IRRIGATION	04/01 to 10/31	0.09 CFS	12.0 AF

LOCATION OF POINT(S) OF DIVERSION: SENE , Sec. 11, Township 10S, Range 23E
MINIDOKA County

PLACE OF USE: IRRIGATION

TWN	RGE	SEC		ACRES	ACRES	ACRES	TOTAL
10S	23E	11	SENE	3			3

Total number of acres irrigated: 3

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Irrigation use under this right is authorized only in connection with a domestic use.
6. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 15th day of January, 1994.

APR 28 2004
Department of Water Resources

Dear Water Right Holders:

Thank you for calling recently and telling us your address has been changed. Unfortunately, we cannot change a water right holder's address without their signature.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary **and list any other water rights you may have** before returning this letter by April 12, 2004. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Thank You

Sincerely,

Sally Sherman

RE: Transfer No.: 69723 - Water Right 36-8519 - Transfer Approval Notice

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7940.

Sincerely,

Pamela S. Skaggs

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
APR 2 3 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) the petition for reconsideration is disposed of; or
> (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMO

FROM: Allen Merritt DATE: April 4, 2002

TO: Transfer File No. T69723

In the name of: Buerkle

Water Right(s): 36-8519

SUBJECT: **Review and Recommendation**

This transfer proposes to change the nature of use of a portion of an irrigation right to uses associated with an RV Park. The park is to be built on the land presently irrigated. The remaining irrigation portion will continue to irrigate land around the park. The proposal is to use the existing irrigation well for both the irrigation and commercial uses. DEQ was notified of the proposal. It is unknown if DEQ will require the well to be modified since it will qualify as a public water supply system.

The transfer was processed without protest.

There are no issues of forfeiture, expansion, etc. The conversion from irrigation to commercial was based on consumptive use of irrigation.

Recommendation

I recommend that this transfer be approved subject to the following conditions:

WATER RIGHT NO. 36 8519

106 Use of water under this approval shall comply with applicable water quality standards of the Department of Environmental Quality.

046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code if the existing well needs to be modified or replaced.

R04 Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

T18 Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.

W61 The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.

MICROFILMED
APR 23 2002

T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

RE: Application for **Transfer No. 69723**, Water Right No. 36-8519

Dear Applicants:

The Department of Water Resources acknowledges receipt of your application. Please refer to the number in all correspondence regarding the above referenced application.

This office has scheduled advertising the application in the **South Idaho Press for 3/11 and 3/18/02.** The advertisement will be published for two weeks, and **a period of ten calendar days following the second publication will be allowed for the submittal of protests. (March 29, 2002)**

If an application is protested, the applicant will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

State Office personnel will conduct a complete review prior to final processing of the application and will notify the applicant of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Mary A. Baldwin
Administrative Assistant

February 25, 2002

Minidoka County
Community Development
PO Box 368
Rupert, Idaho 83350-474

We, Arlen and MaryLee Buerkle, do respectfully submit this narrative statement for your consideration:

REASONS FOR REQUESTING A SPECIAL USE PERMIT ARE:
Our property borders Interstate 84 on the south side. This improvement would bring travelers and RV's off of the freeway into our community. It would be a contribution to our local economy.

To provide a service which is needed for the people who choose one of the many styles of 'camping out' and also the people who choose to do their vacation and summer traveling in some type of 'Recreational Vehicle'.

The 'convenience and comfort' we want to provide for these people will encourage them to lengthen their stay in our area and take the time for sight seeing, shopping and enjoying some of the many things our area has to offer and in return it will contribute to our local economy

We are going to be retiring soon and would like to get established in something that we will enjoy doing and that will supplement our retirement income, at the same time will be contributing to our community, even though it is seasonal.
Arlen has lived in Minidoka County all his life, , 58 years and I have lived her since I was 5yrs. old, 59 years. This is where we want to retire.

MICROFILMED

We have lived at this address and owned this property for 25 years.

If we can instill a 'desire', the people will find a reason to come back to our area. That is what we want to extend to our visitors, 'a place to park that is easy access, relaxing, comfortable and safe .We want this RV village to be a place that will be warm and 'welcoming' to families. If we accomplish this then we have also instilled the 'desire' and they will come back again.

A DETAILED DESCRIPTION OF THE SPECIAL USE PERMIT:
There will be 16-18 pull thru parking spaces on our south side between out domestic property and the Interstate.
These spaces will be for the 'Big Rigs' over 35' long that have something in tow that they do not want to unhook.

There will be 11-15 shorter spaces in the west property. These will be for pull campers, load campers, short motor homes.

There will be 4-6 sleep cabins as well a nice grassy area for tent campers on the north property

There will be one entrance road . That will be on the south side, east end after they have been registered
There will be one exit, north side, east end.

On the south side of the exit road in the east end area, there will be restroom and shower facilities, regular and handicapped. In the same facility there will be a laundry area.

The entire RV village will have landscaping,picnic tables, free standing b-bque units. There will be a designated pet area and also a play area for the children.
There will be ample lighting so we can accommodate everyone in the RV village.

MICROFILMED

As we become more and more established we will add more comforts and conveniences as we are made aware of the need.

IMPACTS OF THE SPECIAL USE PERMIT:
We feel there would be very little impact, if any at all.
The improvements are going to be pleasant to look at, they will be well groomed at all times and nothing less than clean and organized.

Guest will register and check out so we will know where and who is in the village at all times
It will be an asset to our community, our city, as well as the population in general.

The Rv village will have it's own holding tanks, it's own water supply and electricity will be Riverside Electric. There will be no impact on city or county utilities.

There will large refuse containers located in easy access areas. This will encourage a 'NO LITTER' policy.

There should be no impact on the East, West or North sides of us. It is all farm ground and there are no close neighbors.

We will create an environment here that will bring the family, the retirees and the people that just want to have a 'camping out' experience.

As you can see from reviewing our plans, we have given this a lot of thought. We want to do everything as right as possible so we can offer the accommodations, accessibility, comfort and convenience that will bring people back to our area for their summer vacations and travels.

MICROFILMED

We hope this statement is to your satisfaction and we have supplied the information that you need.

Thank you very much for your time and consideration.

Sincerely,

Arlen Buerkle

Change of Address

Dear Water Right Holders:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right(s) can be sent only to the address on your water right(s) or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary **and list any other water rights you may have** before returning this letter by February 12, 2001. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally Sherman

System Description (continued)

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

This system consists of a mainline that runs west from the P/D & then branches off N & S (forming a T formation). This (T) is in solid set and has a total of 9 sprinklers on it. Also, two handlines run east off this mainline. Each handline has 11 sprinklers. Normal operation includes operating 11 sprinklers at one time. The discharge pressure was taken from the owner's gauge and was found to be 40psi. The lift was 8 feet and was approximated from the owner, an area estimate, & the well log.

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Pitot Tube						
4 Psi Gauge						

2. **Measurements:**

The sprinklers were Raibird and had a nozzle diameter of 9/64".
Using the pitot tube & psi gauge, the average pressure at the nozzles was 40psi.
Using the table in app A of field exam handbook, Nozzle discharge ≈ 3.74 gpm
3.74 gpm x 11 sprinklers = 41.14 gpm = $\frac{41.14 \text{ gpm}}{448.8 \text{ gpm}}$ = .092 cfs

E. FLOW CALCULATIONS

This P/D supplies water to 3 acres of pasture grass for 18 head of cattle. The owner also has an adjudication claim for domestic use under A36-13917 and an adjudication claim for stockwater under A36-13918. My recommendation is to license this P/D for 3 acres under the beneficial amounts described in Section I of this report. Also, the owner has MID shares but no access to canal system.

I. RECOMMENDATIONS

A[illegible]ON OF DEPARTMENT OF WATER RESOU[illegible]S

This Permit is Approved. Date 4/19/90.

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.

2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.

3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.

5. Approval of this drilling permit does not authorize trespass on the land of another party.

6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08519

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P36-08519

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED
JUL 30 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Application for Permit No. 36-08519

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the South Idaho Press on 6/7 & 6/14/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent

This Permit is Approved. Date 4/19/90.

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.

2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.

3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.

5. Approval of this drilling permit does not authorize trespass on the land of another party.

6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Drilling permit No. 36-90-S-037

Water right No. 36-08519

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Arlen E. or Marylee Buerkle, Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

FARM ground Surrounding our 5 acres has been Sold. All ditches That we got water Through From minidoka Irrigation have been Torn out and The new owners are planting potatoes and putting in sprinklers. We can no longer get water From The minidoka Irrigation Canal. We need a well now So we can also Sprinkle.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

To Whomever,

The reason the Check Signature is different than applicant:

This is the new owner, they removed all ditches so it is not their obligation to put in a well and sprinklers for use.

Thanks so much for your help.
