CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the Beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
6. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

TO: ALLEN MERRITT

FROM: DALLAS TRYON

DATE: NOVEMBER 27, 1995

SUBJECT: FOLLOW UP EXAM ON 36-08429

ON NOVEMBER 2, 1995 AND DURING AN APPOINTMENT SET UP WITH SCOTT HOWARD OF THE CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS, I CONDUCTED A FOLLOW-UP FIELD EXAM USING INFORMATION GIVEN BY BRIAN BLOCK IN 1994.

I FOUND INFORMATION THAT VALIDATED THE PROOF OF BENEFICIAL USE AND SUPPORTS THE CHURCHES APPROVED PERMIT TO DIVERT 0.12CFS VOLUME RATE.

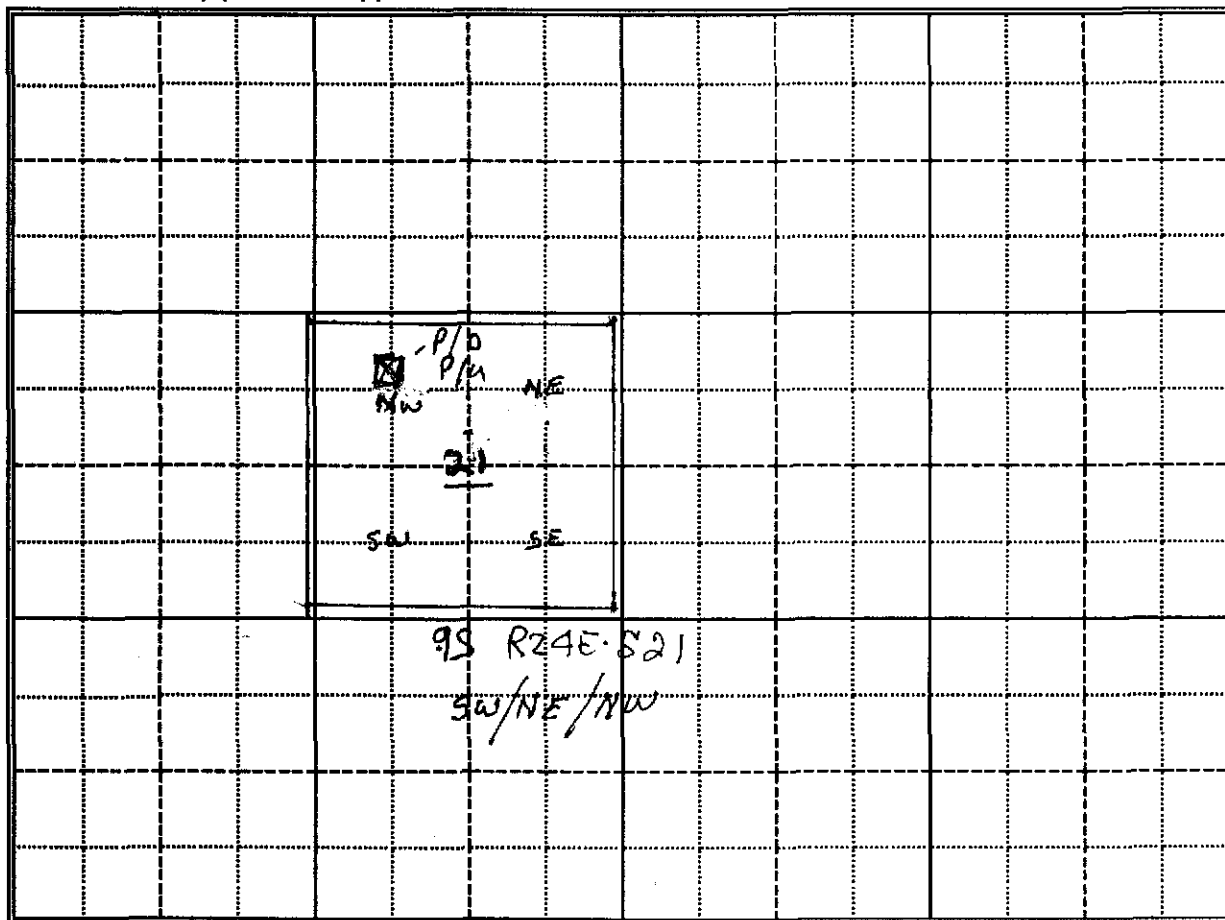

WHILE CONDUCTING THE FIELD EXAM, AND IN TALKING WITH THE PERSON WHO ACCOMPANIED ME, I FOUND THAT THE CHURCH HAD INDEED SWITCHED THE MEETING HOUSE DIVERTING WORKS OVER TO CITY WATER. THE IRRIGATION WAS BEING DIVERTED BY THE WELL. IT NOW SEEMS THAT THERE IS BENEFICIAL USE FROM THE WATER FOUND AT THE POINT OF DIVERSION. ALSO, THERE IS AN EXISTING SAND-POINT WELL AT THE POINT OF DIVERSION, BUT IS NO LONGER IN USE AND IS NOT ELECTRICALLY HOOKED-UP. THIS WELL HAS NOT BEEN ABANDONED.

E. NARRATIVE/REMARKS/COMMENTS

The Church Meeting House Has been switched over to City of Rupert water, and only the irrigation is done from the existing well.

This system consists of a six inch well drilled 185 ft deep with a dynamic pumping level of 75ft. (there were no available well logs for this particular well, and information comes from several well depths and dynamic pumping levels located in wells in the immediate vicinity). The 6" well diverts water via a 2 hp submersible pump to a Irritrol Dual 36 that is regulated to two separate cycles 36 heads per watering by a electronic sprinkler system. PSI information is located on the fact sheet.

Also, there is a sand-point well located at the point of diversion but is not hooked up to any diverting works nor is hooked up to any electricity.

The irrigation component has been addressed by the Approved Permit to service 5 acres. However, Actual measurements indicate that only 4 acres are actually under irrigation.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08429

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of

IF YOU WISH TO HAVE THE APPLICATION PROCESSED, PLEASE ANSWER THE FOLLOWING QUESTIONS AS THOROUGHLY AS POSSIBLE. FAILURE TO RETURN EITHER THE WITHDRAWAL FORM OR QUESTIONNAIRE IS CAUSE FOR THE DEPARTMENT TO VOID THE APPLICATION.

1a. Are you the current owner of the land or place of use described under this application? Yes y No

b. If you are not the property owner, please describe the arrangement enabling you to develop the proposed project.

2a. Has the source of water listed on this application been used to irrigate any of the land described under this same application prior to October 1, 1984? Yes No y

b. If yes, please describe the extent of development and number of acres irrigated. (Note: Uses developed after October, 1984 are considered trust water diversions and may be subject to certain conditions. You may be asked to verify uses established prior to October, 1984.)

3. If you answered NO to ques #2a, please state the number of acres you have irrigated with this source after October 1, 1984. 5

4. If you have not irrigated lands under this application, please state the number of acres you plan to complete.

5. If the permit is a supplemental filing please identify other water rights which are used on the same land.

Use the reverse side of this form if you wish to add any comments. You may mark changes on the enclosed application to designate any proposed amendments. (Note: Proposed changes which result in an expansion of use will not be considered by the department.)

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

RE: APPLICATION FOR PERMIT NO. _____

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.

Please be further advised that if any undeveloped portion of your proposed project is greater than 200 acres, or if the application proposes diversion of more than 5.0 cfs, the department will issue a notice requesting additional information as required by Water Appropriation Rule 4,5. (copy enclosed). In particular, rules 4,5,3. through 4,5,3,5. apply to your project if it is more than 200 acres. If necessary, the rule 4,5. information notice will be sent to you after you return the questionnaire.

Re: Applications for Permit Nos. 36-08428 thru 36-08431

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned the above referenced identification numbers. Please refer to these numbers in all further correspondence.

This office will be advertising the applications in the South Idaho Press on 9/7 & 9/14/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested you will be sent a copy of the protest. The protests must be resolved before the applications are approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
