County of Gooding)

JUN 19 1989

Department of Water Resources
Southern Region Office

Patty Nance G. manager
being first duly sworn,
deposes and says that she is the printer (publisher) of the Gooding
County Leader, a newspaper published every week in Gooding, County
of Gooding, State of Idaho, that said newspaper has been continuous-
ly and uninterruptedly published for a period of seventy-eight consecu-
tive weeks prior to the first publication of the annexed notice, and is
a newspaper qualified to publish legal notices as provided by act of
the 1919 session of the legislature of the State of Idaho, known as
House Bill 145; that the annexed advertisement was published once

each week for 2x consecutive issues in said newspaper
proper and not in a supplement; that the date of the first publication
of said advertisement was on the 7 day of June
19 89, and the date of the last publication was on the 14
day of June, 19 89.

Patty Nance

RE: WATER RIGHT NO. 36-08424

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RECEIVED

APR 14 1999

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

APR 14 1997

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: WATER RIGHT NO. 36-08424

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the point(s) of diversion and place(s) of use developed are in locations other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the point(s) of diversion and place(s) of use and other information as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen".

E. NARRATIVE/REMARKS/COMMENTS

The water for this permit is drawn from two wells. The first well is the trailer house well located in the SE 1/4 - SW 1/4 - NW 1/4 of section 34 township 07S - range 13E and the second well is the ranch house well located in the NW 1/4 - SW 1/4 - NW 1/4 of section 34 - township 07S - range 13E. The ranch house well was used prior to the permit as an unrecorded domestic use. I am recommending that all present uses be combined into this one domestic license.

The water from the trailer house well is drawn out of the well and travels northwest ~~to~~ approximately 100 feet to the trailer house. At the trailer house the water is used for in-house use for a family of six people. The lawn for the trailer house is irrigated by the irrigation system from the hunt ditch. There is very little if any outside use of water at the trailer house. After the water leaves the trailer house it continues to travel north in an underground pipe for 1/8 mile and then turns due west and travels approximately 1/16 of a mile to house G in the ranch house complex (see attached maps for location). At house G the water is co-mingled with the ranch house well and distributed to the rest of the ranch house complex. The water from the ranch house well is drawn from the well and then travels in an underground pipe approximately 200 ft to house G where it co-mingles with the trailer house well.

Once the water co-mingles at house G it is distributed to the other houses and the shop for use. There is .49 acres of lawn in the ranch house complex that is irrigated (see attached sheet). The owners try only to use the water from the ranch house well to irrigate with because of a high Sulphur content (both wells can be regulated at house G). The rest of the water use consists of a bathroom in the shop that is used year round by 3 people. The residential use of the hunting clubs owners/members in the seven house complex is generally only 32 days a year during hunting season. The manager tries to maintain a maximum of 25 people a day during the 32 day hunting season. There are a few (approximately 5) of the clubs owner/members that utilize the ranch complex during the summer, but these members rarely use the complex facilities more than one day/summer. During the rest of the year the ranch house facilities remain empty.

Have the conditions of permit approval been met? X yes no

RECOMMENDATIONS:

I recommend that this permit be licensed under the following conditions:

1. That it is licensed for .08 cfs diversion rate and 1.3 afa volume.
2. That this permit cover all of the trailer house and ranch complex uses to have all of the uses for groundwater under one license.

GROUNDWATER MEASUREMENT REQUIREMENT ANALYSIS

FILE: 36-08424
DATE: 2-18-47
BY: Daniel A. Melan

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (H.P.) \times (EFF.)}{TDH}$

Q = CFS
H.P. = Total Brake Horsepower of pumping plant (including booster)
EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)
TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]
LIFT = depth to water in FEET from land surface to pumping water level
PSI = pumping pressure measured in psi near pump (if open discharge assume zero [0])

$$Q = \frac{(8.8) (2.4) (0.70)}{[(.40 \text{ FT}) + (.72 \times 2.31)]} = \frac{12.32}{2.0632} = .06 \text{ CFS}$$

RE: PERMIT NO. 36-08424

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P36-08424

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Application for Permit No. 36-08424

Dear Mr. Hitchcock:

The Department of Water Resources acknowledges receipt of the water right application for permit on behalf of your client, Buckeye Farms Inc.. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Gooding County Leader on 6/7 & 6/14/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks. Please see attached list for additional information requirement.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineer

ADDITIONAL INFORMATION REQUIREMENTS
FOR APPLICATIONS IN THE NAME OF A CORPORATION,
COMPANY, OR PARTNERSHIP

In reviewing the application for compliance with the requirements of the Department's Rules and Regulations for Water Appropriations, we have determined that the following information is required to make the Application complete for processing.

- 1) If the Application is filed in the name of a corporation, the names and addresses of its directors and officers shall be provided. If the application is filed by or in behalf of a partnership or joint venture, the application shall provide the names and addresses of all partners and shall designate the managing partner, if any. (Rule 3,3,2,1)

Because the required information does not appear in the legal notice, we are proceeding with advertising of your Application. If the required information is received within ten days of the second publication date, no additional delay should be incurred in processing.

Application for Permit

Dear Allen:

Please find enclosed an Application for Permit for our previously submitted SRBA claim for this well serving three households. The fees for this usage were computed and filed timely in the Gooding County notice period that closed September 1, 1988. At that time, the applicant submitted its first payment based on the Department's extended payment plan, a copy of which is enclosed for your reference.

As the applicant has already advanced \$5.00 for a domestic filing in the SRBA for this usage, I am enclosing \$30.00 for the fee to accompany this revised usage and will expect to hear from you regarding a better way to handle the money question.

Very truly yours,

FRANCIS G. HITCHCOCK
