AMENDED

WATER RIGHT NO. 36-08407

Priority: January 19, 1989

Maximum Diversion Rate:

0.08 CFS

Maximum Diversion Volume:

12.6 AF

This is to certify, that DEAN L HENDRICKSON
ALMEDA HENDRICKSON

461 S 300 W

JEROME ID 83338

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 19, 1989; and has submitted Proof of Beneficial Use on August 22, 1989. An examination indicates that the works have a diversion capacity of 0.080 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 10/31	0.08 CFS	12.0 AF
DOMESTIC	01/01 to 12/31	0.02 CFS	0.6 AF
	Totals	0.08 CFS	12.6 AF

LOCATION OF POINT(S) OF DIVERSION:

NESE , Sec. 9, Township 09S, Range 16E
JEROME County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
09S	16E	9	NESE	3		3

Total number of acres irrigated: 3

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Irrigation use under this right is authorized only in connection with a domestic use.

MEMORANDUM

DATE: May 9, 1996

TO: File 36-08407

FROM: Shelley W. Keen ^{SWK}

RE: Request by right holder for review of place of use

License 36-08407 was issued 4/2/96 for 1.9 acres of irrigation in accordance with the recommendation of the field examiner. I was contacted 4/9/96 by Dean Hendrickson, the right holder, who told me he feels the license should have been issued for 3 acres of irrigation. On 5/8/96 Mr. Hendrickson submitted additional information, including a signed statement from previous owners of the permit, to support his position, which is that a 1.1 acre field excluded by the examiner was not irrigated at the time of the examination only because it was being reseeded and improved. Today I called IDWR field examiner Jim Stanton to discuss the matter. Jim looked at 1987 infrared photography (NAPP) which he says indicates some irrigation occurring on the 1.1 acre field at that time. Given the additional information, Jim said he does not feel strongly that the right should be limited to 1.9 acres. I recommend that the License 36-08407 be amended to show 3 acres of irrigation.

Attn: Shelley W. Keen
Water Rights Supervisor

Re: No. 36-08407

Dear Mr. Keen:

Pursuant to our telephone conversation wherein I protested the issuance of the above Water Right permitting irrigation of 1.9 acres and stated that it should have been issued for three (3) acres, I am enclosing an affidavit from the prior owners verifying the historical watering of three acres, a scale diagram and some photographs of the property.

I was home the day the Inspector from the Twin Falls Water Resources Office was here. I explained that I was not watering the southwest pasture consisting of just over 1 acre during the 1995 season because it needed to be re-seeded and I wanted to improve the irrigation system before doing the re-seeding. I have improved and changed the irrigation system and am making preparation for re-seeding at this time.

Since the permit is issued based on historical use, I respectfully request that you reconsider this license and re-issue it for the full 3 acres in accord with the original application. All land but the arena will be watered this year as it has always been done in the past excepting only the 1995 season.

Respectfully yours,

Dean L. Hendrickson

Dean L. Hendrickson

Jerome, Idaho 83338

JUN 27 1996

WATER USAGE AFFIDAVIT

We the undersigned, Kenneth and Christina Alexander, depose and say:

We were the owners and occupants of a five (5) acre tract and home located at 461 South 300 West, Jerome, Idaho, from January, 1991 until it was sold to Dean and Almeda Hendrickson in January, 1994:

During our occupancy of three years the property was irrigated from the domestic well: it was all watered from this source excepting only the southeast portion designated as a riding arena consisting of approximately one acre: the other four acres included house, detached garage, pump house, loafing shed and corrals, lawn, garden and pasture: this resulted in watering just over three (3) acres for pasture from the domestic well:

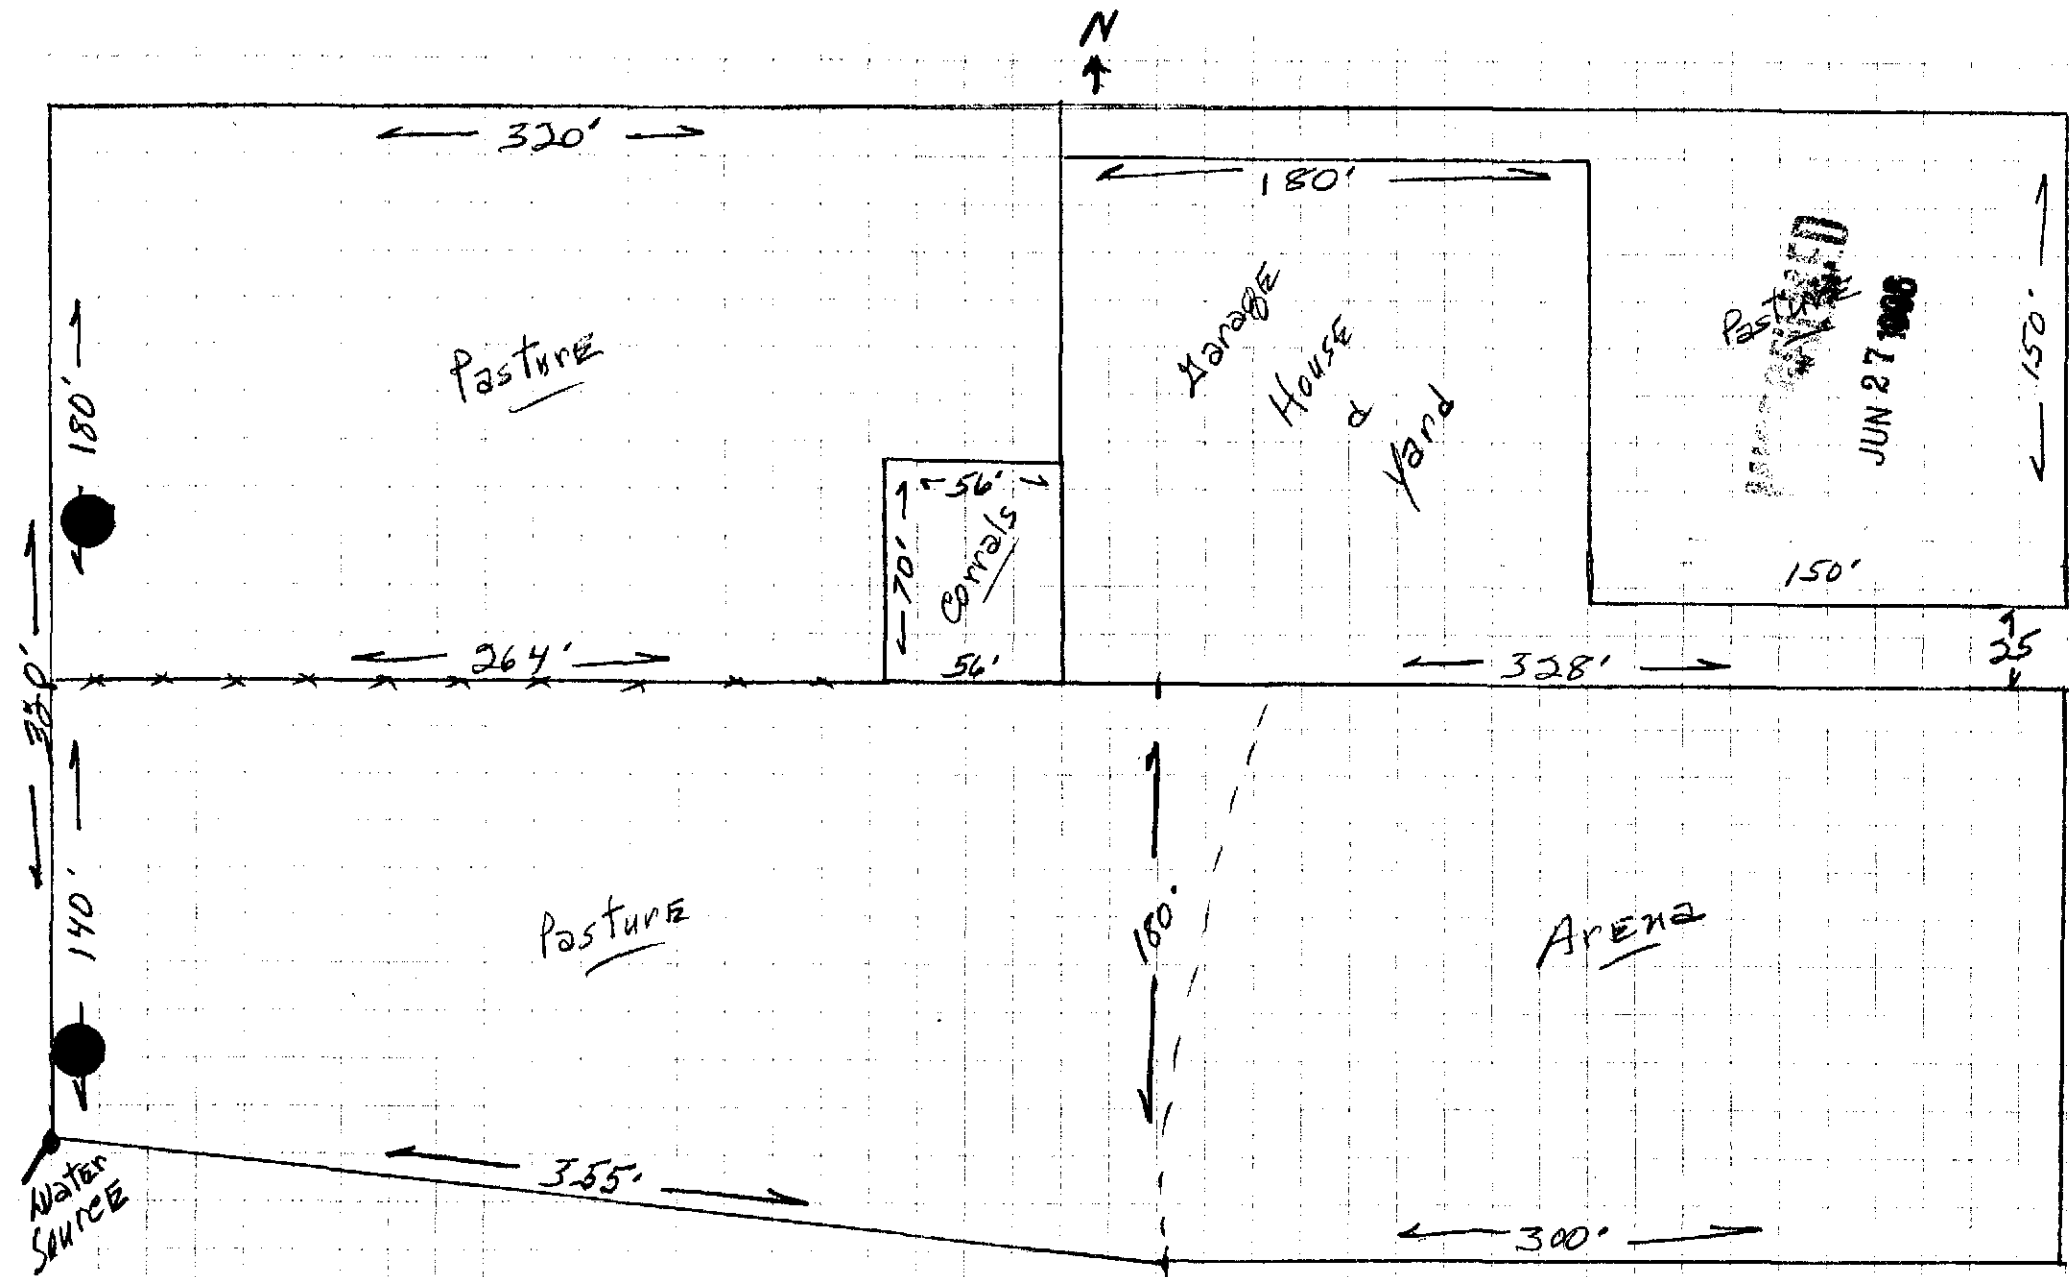

The application to water three (3) acres from the domestic well was for the area actually being watered during the three years of our occupancy.

Signed: Kenny L. Alexander

Signed: Christina Alexander

Date: 4-26-96

FROM: Shelley W. Keen *SWK*

RE: Phone call from Dean Hendrickson regarding the POU description

This morning I returned a call to Dean Hendrickson, holder of right 36-08407, at 208-324-6737. Mr. Hendrickson wondered why his license was issued for 1.9 acres of irrigation when the permit had authorized the development of 3 acres. I read to Mr. Hendrickson the findings of the field examiner. He agreed, except that he said that in the years before 1995 the owners had irrigated more than 1.9 acres. Mr. Hendrickson said that he did not irrigate some of the pasture area in 1995 because he intended to redesign the delivery system to that area. Mr. Hendrickson said the right to irrigate 3 acres is important to him because he has no physical access to surface water, even though two shares come with the property. I told Mr. Hendrickson that I am willing to review any affidavits or other information he can supply to demonstrate the historical irrigation of 3 acres from groundwater on his parcel.

DATE: March 27, 1996
TO: File No. 36-08407
FROM: Cindy Zimmerman
SUBJECT: Review of Beneficial Use Field Report

=====

The following adjustments were made on the field report to:

1. Rate of diversion.
 - a. Irrigation.
 - i. measured = (#nozzles x gpm) ÷ 448.83
= [7 x (5/32" @ 44psi) ÷ 448.83
= (7 x 4.85) ÷ 448.83
= 33.95 ÷ 448.83
= 0.08 cfs (irrigation system capacity).
 - ii. IDWR standards = acres x cfs/acre
= 1.9 x 0.03
= 0.06 cfs (maximum allowable).
 - b. Domestic, 1 home, in-house use = 0.02 cfs.
 - c. Maximum rate of diversion = a.ii. + b
= 0.06 + 0.02
= 0.08 cfs.

APR 29 1996

E. NARRATIVE/REMARKS/COMMENTS

This is a rewrite of the original exam done exactly five years ago by Gary Funderburg. Original exam was incomplete, so I re-visited the property to get photos, etc.

System consists of a well & pump, pressure tank, pipelines to 14 pop-up sprinklers on lawn, 6 Rainbirds in front pasture, 7 Rainbirds on back pasture. Home.

This is a 5-acre parcel. The south half of the property is all pasture. About an acre of the south pasture was irrigated at one time, but is no longer watered from the well. About 1/2 acre of pasture is east of the home and lawn, and about 1 1/2 acres is west of it. Total irrigation (pasture & lawn) covers 1.9 acres. The present owner told me that the system was poorly designed by the original owner, so he plans to upgrade the system by adding more sprinklers. This would not increase the pumping rate, but would allow for better coverage of the existing pasture.

Have conditions of permit approval been met? ☒ yes ☐ no

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P36-08407

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Application for Permit No. 36-08407

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the North Side News on 4/19 & 4/26/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
