NOT TO SCALE

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF TRANSFER NO.) 66087 IN THE NAME OF YOUNG &) YOUNG PARTNERSHIP) _____)	)	PRELIMINARY ORDER CORRECTING TRANSFER APPROVAL
---	---	---

This matter having come before the Department of Water Resources (Department) as a result of an application for transfer of water rights, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On May 14, 2002, the Department approved Application for Transfer No. 66087 (transfer) changing the place of use under Water Right No. 36-2058B and 59 other water rights diverted from the same points of diversion and used for irrigation of the same lands.
2. Water Right No. 36-2058B as described on pages 8, 9 and 10 of the transfer approval listed 40 points of diversion authorized under the water right. Department review revealed that the transfer approval erroneously listed several points of diversion due to a clerical error. The transfer approval referenced the same list of authorized points of diversion described under Water Right No. 36-2058B for all other rights involved in the transfer.

CONCLUSIONS OF LAW

1. The transfer approval should accurately describe each established water right as changed by the transfer pursuant to Section 42-222, *Idaho Code*.
2. The Department should correct the transfer approval to show the correct points of diversion authorized under Water Right No. 36-2058B and, by reference, all the other water rights involved in the transfer.

ORDER

IT IS HEREBY ORDERED that the authorized points of diversion listed on pages 8 and 9 of the transfer approval for Water Right No. 36-2058B are **CORRECTED** as shown on the amended pages 8 and 9 attached to this order. The correction to Water Right No.

MICROFILMED
MAY 21 2003

36-2058B will effectively correct the authorized points of diversion for all other rights involved in the transfer.

Dated this 9th day of May, 2003.

L. GLEN SAXTON
Administrator, Water Management Division

MICROFILMED

WATER RIGHT NO. 36-2058B
As Modified by Transfer No. 66087

In accordance with the approval of Transfer No. 66087, Water Right No. 36-2058B is now described as follows.

Right Holder: YOUNG & YOUNG PARTNERSHIP
 300A E 1600 N
 RUPERT ID 83350

Priority Date: 02/02/1948

Source: GROUND WATER

<u>BENEFICIAL USE</u>	<u>From</u> <u>To</u>	<u>Diversion Rate</u>	<u>Volume</u>
IRRIGATION	04/01 to 10/31	0.11 CFS	46.5 AF
		0.11 CFS	46.5 AF

LOCATION OF POINT(S) OF DIVERSION:

WATER RIGHT NO. 36-2058B
As Modified by Transfer No. 66087

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than January 26, 2001.
8. This right is limited to the irrigation of 12 acres within the place of use described above in a single irrigation season.
9. Rights 36-2058B, 36-2233D and 36-15366B when combined shall not exceed a total annual maximum diversion volume of 48.0 af at the field headgate and the irrigation of 12 acres.
10. Rights 36-2058B, 36-2233D, 36-15366B, 36-2075B, 36-8068B, 36-2653Q, 36-8069Q, 36-8778, 36-7021C and 36-8274B when combined shall not exceed a total diversion rate of 3.28 cfs and the irrigation of 210 acres.
10. The total instantaneous diversion of water from all points of diversion under this transfer shall not exceed 119.01 cfs, a total combined annual diversion volume of 34,296.0 af, and the irrigation of 8,574.0 acres.
11. Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

WATER RIGHT NO. 36-2075F
As Modified by Transfer No. 66087

In accordance with the approval of Transfer No. 66087, Water Right No. 36-2075F is now described as follows.

Right Holder: YOUNG & YOUNG PARTNERSHIP
300A E 1600 N
RUPERT ID 83350

Priority Date: 08/04/1948

Source: GROUND WATER

<u>BENEFICIAL USE</u>	<u>From</u>	<u>To</u>	<u>Diversion Rate</u>	<u>Volume</u>
IRRIGATION	04/01	to 10/31	0.16 CFS	41.6 AF
			0.16 CFS	41.6 AF

LOCATION OF POINT(S) OF DIVERSION: Same as Right 36-2058B as approved under this transfer

PLACE OF USE: Same as Right 36-2058B as approved under this transfer

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than January 26, 2001.
8. This right is limited to the irrigation of 10.4 acres within the place of use described above in a single irrigation season.
9. Rights 36-2075F and 36-8068F when combined shall not exceed a total annual maximum diversion volume of 52.0 af at the field headgate and the irrigation of 13 acres.

LOCATION OF POINT(S) OF DIVERSION: Same as Right 36-2058B as approved under this transfer

PLACE OF USE: Same as Right 36-2058B as approved under this transfer

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than January 2, 2002.
8. This right is limited to the irrigation of 253.5 acres within the place of use described above in a single irrigation season.
9. Rights 36-2591, 36-2653B and 36-8777 when combined shall not exceed a total annual maximum diversion volume of 1,014.0 af at the field headgate and the irrigation of 253.5 acres.

MICROFILMED

JUN 24 2002

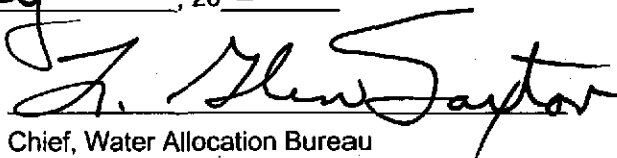

WATER RIGHT NO. 36-8777
As Modified by Transfer No. 66087

CONDITIONS OF APPROVAL

10. The total instantaneous diversion of water from all points of diversion under this transfer shall not exceed 119.01 cfs, a total combined annual diversion volume of 34,296.0 af, and the irrigation of 8,574.0 acres.
11. Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

MICROFILMED

JUN 24 2002

WATER RIGHT NO. 36-2653P
As Modified by Transfer No. 66087

In accordance with the approval of Transfer No. 66087, Water Right No. 36-2653P is now described as follows.

Right Holder: YOUNG & YOUNG PARTNERSHIP
300A E 1600 N
RUPERT ID 83350

Priority Date: 09/12/1966

Source: GROUND WATER

<u>BENEFICIAL USE</u>	<u>From</u> <u>To</u>	<u>Diversion Rate</u>	<u>Volume</u>
IRRIGATION	04/01 to 10/31	6.75 CFS	1,980.0 AF
		6.75 CFS	1,980.0 AF

LOCATION OF POINT(S) OF DIVERSION: Same as Right 36-2058B as approved under this transfer

PLACE OF USE: Same as Right 36-2058B as approved under this transfer

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
8. This right is limited to the irrigation of 495 acres within the place of use described above in a single irrigation season.
9. Rights 36-2653P and 36-8069P when combined shall not exceed a total annual maximum diversion volume of 2,228.0 af at the field headgate and the irrigation of 557 acres.

5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
8. This right is limited to the irrigation of 3.5 acres within the place of use described above in a single irrigation season.
9. Rights 36-2410B and 36-7580B when combined shall not exceed a total diversion rate of 0.09 cfs.

MICROFILMED

JUN 24 2002

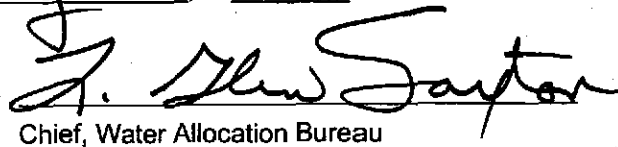

WATER RIGHT NO. 36-7580B
As Modified by Transfer No. 66087

CONDITIONS OF APPROVAL

10. The total instantaneous diversion of water from all points of diversion under this transfer shall not exceed 119.01 cfs, a total combined annual diversion volume of 34,296.0 af, and the irrigation of 8,574.0 acres.
11. Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
8. This right is limited to the irrigation of 7 acres within the place of use described above in a single irrigation season.
9. Rights 36-2653Q and 36-8069Q when combined shall not exceed a total annual maximum diversion volume of 28.0 af at the field headgate and the irrigation of 7 acres.

The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
8. This right is limited to the irrigation of 200 acres within the place of use described above in a single irrigation season.
9. Rights 36-2058C and 36-15366C when combined shall not exceed a total diversion rate of 6.62 cfs.

MICROFILMED

JUN 24 2002

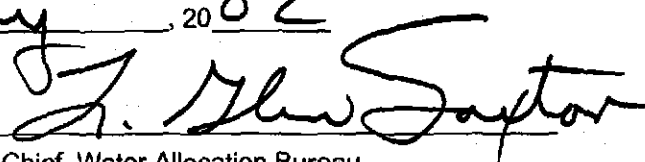

WATER RIGHT NO. 36-15366C
As Modified by Transfer No. 66087

CONDITIONS OF APPROVAL

10. The total instantaneous diversion of water from all points of diversion under this transfer shall not exceed 119.01 cfs, a total combined annual diversion volume of 34,296.0 af, and the irrigation of 8,574.0 acres.
11. Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Dated this 14th day of May, 2002

Chief, Water Allocation Bureau

MICROFILMED
JUN 24 2002

WATER RIGHT NO. 36-15366D
As Modified by Transfer No. 66087

In accordance with the approval of Transfer No. 66087, Water Right No. 36-15366D is now described as follows.

Right Holder: YOUNG & YOUNG PARTNERSHIP
300A E 1600 N
RUPERT ID 83350

Priority Date: 03/15/1958

Source: GROUND WATER

<u>BENEFICIAL USE</u>	<u>From</u> <u>To</u>	<u>Diversion Rate</u>	<u>Volume</u>
IRRIGATION	04/01 to 10/31	0.16 CFS	56.0 AF
		0.16 CFS	56.0 AF

LOCATION OF POINT(S) OF DIVERSION: Same as Right 36-2058B as approved under this transfer

PLACE OF USE: Same as Right 36-2058B as approved under this transfer

CONDITIONS OF APPROVAL

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
7. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
8. This right is limited to the irrigation of 14 acres within the place of use described above in a single irrigation season.
9. Rights 36-2058B, 36-2233D and 36-15366B when combined shall not exceed a total annual maximum diversion volume of 48.0 af at the field headgate and the irrigation of 12 acres.

MICROFILMED

JUN 24 2002

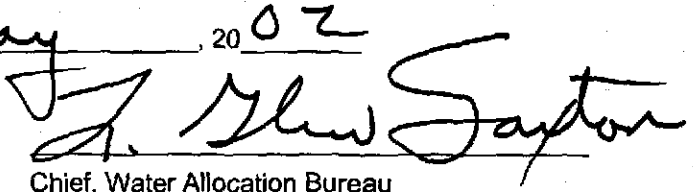

WATER RIGHT NO. 36-15366D
As Modified by Transfer No. 66087

CONDITIONS OF APPROVAL

10. Rights 36-2058D and 36-15366D when combined shall not exceed a total diversion rate of 0.36 cfs.
11. The total instantaneous diversion of water from all points of diversion under this transfer shall not exceed 119.01 cfs, a total combined annual diversion volume of 34,296.0 af, and the irrigation of 8,574.0 acres.
12. Use of water under this water right will be regulated by the watermaster of State Water District No. 130.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

CONDITIONS OF APPROVAL AND REMARKS

1. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
2. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
3. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
4. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
5. The right holder shall install a suitable measuring device at each point of diversion or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
6. The total instantaneous diversion of water from all points of diversion under Transfer No. 4829 shall not exceed 18.18 cfs, nor total combined annual volume of 5200.0 af.

Total number of acres irrigated: 131

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.

^{es}PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. P36-08404 Telephone No. 208-532-4405

2. Name(s) of Permit Holder(s): Young & Young, Partnership

3. **Post Office Address:** Rt 3 Box 3263 Rupert, ID 83350

4. Source of Water: ground

a. If ground water, well driller's name: Harry King Date drilled: fall 1988 into winter

b. Pump horsepower: 250 Pressure (psi): 70 Dynamic pumping level (ft.): 281

3. Extent of Use:

Domestic	(No. of households)	Irrigation	191	(No. of acres)
----------	---------------------	------------	-----	----------------

Stockwater	(No. and type of stock)	Other

6. Total rate and/or volume for which proof is submitted cfs 3.82 acre/foot

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? Yes ☒ No ☐ Installed? Yes ☒ No ☐

OR

Flow Measurement Port: Required? ☒ Yes ☐ No Installed? ☒ Yes ☐ No

8. Fee Enclosed: \$ 175.00 (See License Examination Fee Schedule)

9. Person to contact to accompany the Department representative during the field examination:

Steven D. Young

208 532-4487

Name _____

Telephone No.

7.4 gal/acre

To appropriate the public waters of the State of Idaho

1. Name of applicant Young & Young, Partnership Phone 532-4487
Post office address Rt. 3 Box 3263, Rupert, Idaho 83350
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is _____ $\frac{1}{4}$ of SW $\frac{1}{4}$ of NE $\frac{1}{4}$, Govt. Lot _____
Sec. 20 Township 7S Range 24E B.M. Minidoka County; additional
points of diversion if any: NW1/4SW1/4, Sec. 16; NW1/4NW1/4, Sec. 21; T7S, R24E
4. Water will be used for the following purposes:
Amount 3.82 for Irrigation purposes from 3/15 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 3.82 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. Groundwater wells, pumps and
delivery system to sprinkler system
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? _____
7. Time required for the completion of the works and application of the water to beneficial use is
1 years (minimum 1 year).

MICROFILMED

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

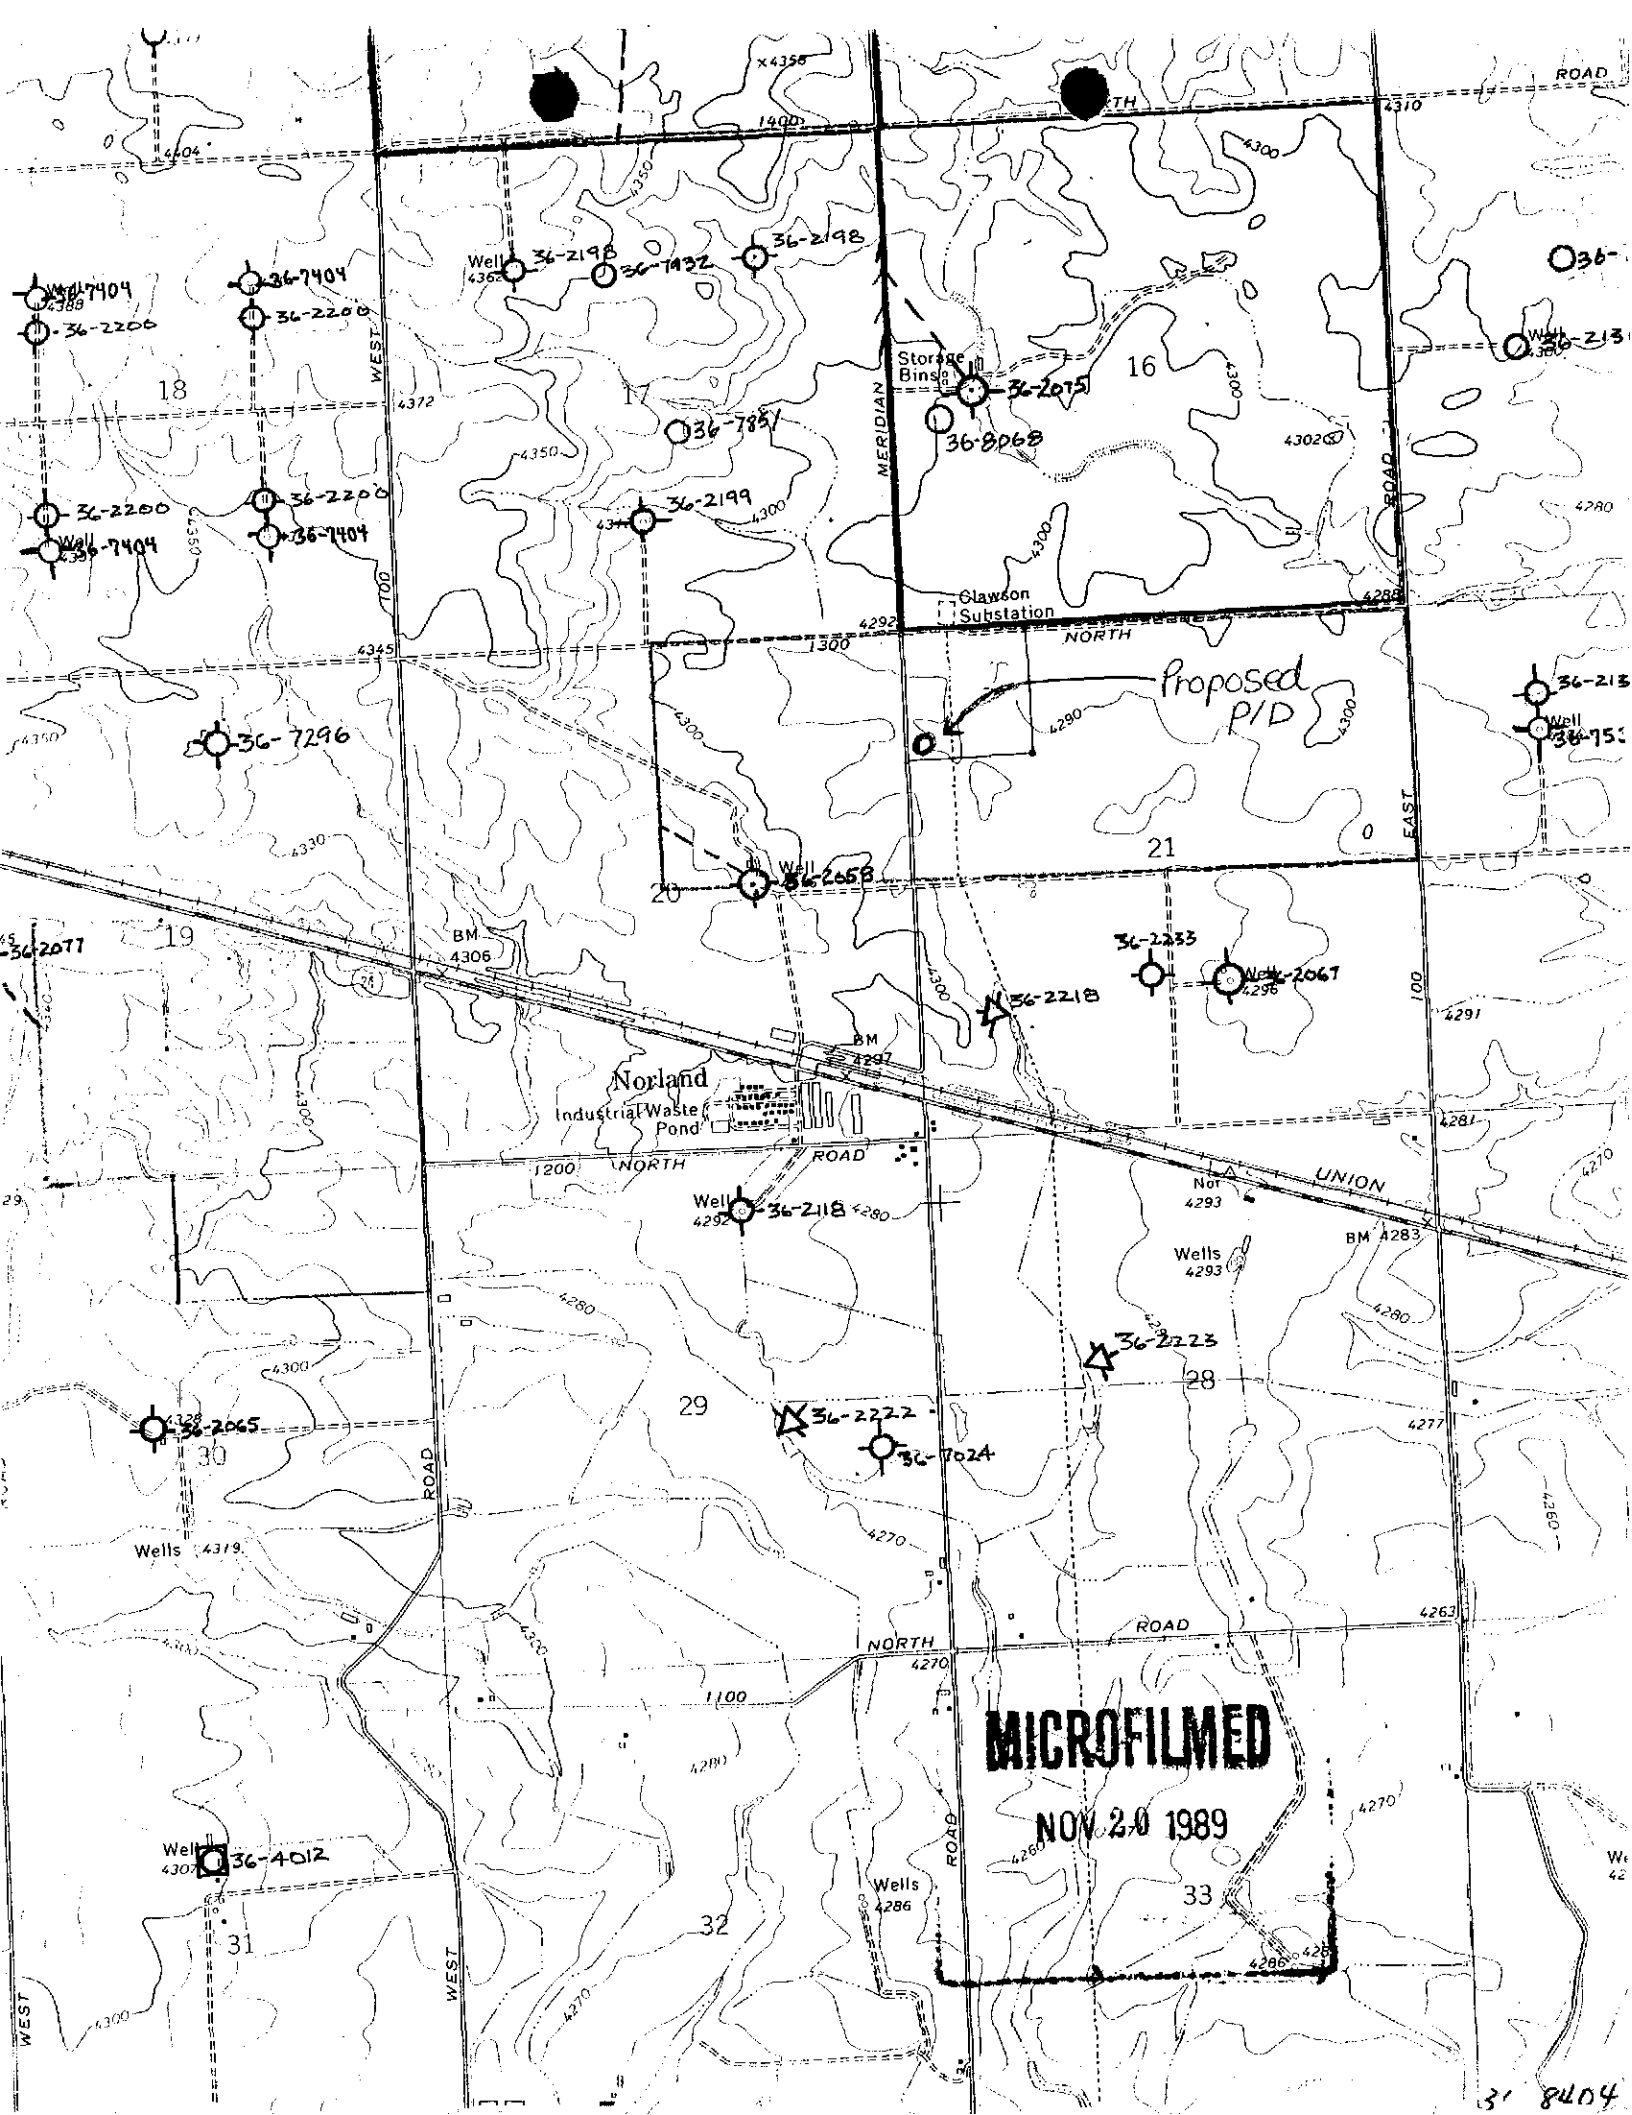

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

AUG 02 1998

MEMORANDUM

TO: Young & Young Water Right Files

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5167

DATE: May 6, 1998

Transfer 5167 changes and adds points of diversion, and creates an 8,574.0 acre permissible place of use. The applicant is combining multiple groundwater rights, wells & pivots in a single large interconnected system.

The rights involved have been previously transferred under Transfers 4829, 4830, 4831 and 4895, and additional rights recently purchased. 77 rights or parts of rights were on the original application. 30 of these rights, unencumbered by limiting conditions, have been combined by common priority into 12 new rights. 59 rights appear on the final approval document.

Region staff identified possible errors in a couple of the past approvals referring only to previous file information. I researched the rights and files in question and did not find supporting information to modify the previous approvals. I have attached an overlap of all the original rights, table of combined rights and a draft of rights for the final approval.

Recommended conditions include drilling permit requirements, annual measuring & reporting, irrigation overlap, permissible place of use, combined limits, trust water conditions (36-08251E), enlargement right condition where applicable and standard transfer conditions.

36-08404/36-15366C

Dear Right Holder:

The accompanying order is a "preliminary order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of this order. The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

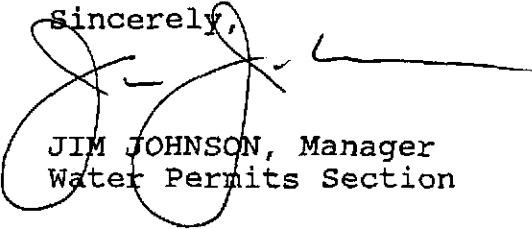

MICROFILMED

FEB 26 1967

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

JIM JOHNSON, Manager
Water Permits Section

RE: WATER RIGHT NO. 36-08404

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

If you do not concur with this information, please contact me as soon as possible.

Sincerely,

A handwritten signature in black ink, appearing to read 'JJ', with a long horizontal stroke extending to the right.

JIM JOHNSON
Water Rights Supervisor

☒ Photo of Diversion and System Attached
(required for all but single household domestic groundwater, and stockwater).

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Well #3 - this well was drilled in 1989. Well was in full operation at time of measurement. The system was irrigating the North 1/2 of sec 21 and used 8 wheel lines at one-quarter mile lengths; approximately 32 nozzles per line. There was also a pivot in operation on the east side. The pressure during operation was 60 psi. Neither well #2 or #1 were in operation at this time.

The place of use covered under this permit is generally irrigated from well #2 and so a measurement was also made from that well. This system was running 2 pivots (about 1200 ~~gpm~~ ^{gpm} each) and 4 wheel lines, 1/4 mile lengths; 2-1/4 mile handlines and

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
ULTRASONIC		POLYSONIC	TF-P	N7H5506	5m	

2. Measurements:

See the polysonic record printouts for measurements made on well #2 and well #3. In addition to the polysonic measurement on well #2, adjustment was made for 2 lines not in operation at 144 gpm per line. (32 birds @ 4.5 gpm [$7/8"$ @ 60 psi]) = 144 gpm
 #2 Well Capacity = 7.24 cfs. #3 Well Capacity = 4.68 cfs.

E. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

1. Measured Method:

averaged 2100 gpm or 4.68 cfs ✓

2. Alternate Method for Checking Purposes:

$$\text{THEORETICAL CALC.} = \frac{(8.8)(250)(0.79)}{(234) + (60 \times 2.31)} = \frac{1738}{372.6} = 4.66 \text{ cfs}$$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3) ; Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 131 \times 4 = 524$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 2.10 \times 214 \times 1.9835 = 891$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 524$$

2. Volume Calculations for Other Uses:

APR 11 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

- also used but were not in operation during measurement. The pressure was measured at 70 psi but normal operation is for 60 psi.

The place of use described herein is actually combined into a common (permissible) place of use with other rights (A36-15366, A36-2075, A36-2058, A36-22324, A36-9068). Steve Young told me his goal for rate of application of all his systems was 7 gpm per acre. In a total overview of this system he is irrigating 138.9 Acres with 21.78 cfs or 0.0157 cfs/Acre Rate. Recommendations made here are based on that target rate as shown by the total system.

Condition Code: R31

I. RECOMMENDATIONS

1. Recommended Amounts

NOTES ON MEASUREMENT OF YOUNG WELL #2

WELL: SESWNE 520 T075 R24E

BY: STEVE CLELLAND

DATE: 4-24-92 10AM

ACCOMPANIED BY: RICHARD YOUNG

In conversations with Steve Young about this well site, it appears that when the expansion in acres was accomplished in 1958 the motor was boosted up to a 300 HP.

We agreed to make this measurement to determine how much extra water was diverted in 1958. This amount would be claimed under the Adjudication claim A36-15366.

Steve Young made some nozzle/line calculations for his systems and the calculation for Well #1 in Section 16 was right on target at 9.8 cfs. The calculated rate for the well #3 in section 21 was also very accurate with the 4.68 measured. From this same method Steve Young calculated that this well in Section 20 should be delivering about 7.3 cfs. From the acreage developed I agreed this would match the existing information. The theoretical calculation on this well seemed too low for reasons unanswered; maybe more HP was being used than nameplate rating as in

APR 11 1994

the well in Section 16.

ON SITE:

Given the layout of this well system it was clear there is no "ideal" site for the polysonic hook up. The first site chosen was above the booster pumps, that was running. At 9:56 AM we were unable to obtain a clear reading or signal.

The second site chosen was just below the booster pumps. Again we recorded the error signal of an incomplete signal. We moved the transducer around the pipe and reset them. At this attempt we obtained a flashing 'R'. We waited 20 minutes and finally obtained the steady 'R'. The machine was zeroed and set to operate, the checks were run to confirm the measurement. Note the speed of sound check was over the 102% mark but no correction was attempted.

The amount being shown on the readout was to be expected. At this time of measurement there were 2 - Quarter mi lines not in operation due to CRP and mechanical problems. Because of this situation the pressure was operating at 70 psi and we calculated each line at 144 gpm.

CALCULATIONS

2 - 1/4 mi lines @ 32 Heads 9/44" nozzles @ 60 psi

32 Heads $\times$ 4.50 gpm = 144 gpm per line

APR 1 1994

MEASURED RATE BY POLYSONIC

AVERAGE FLOW = 2962 GPM

ADD IN NON OPERATING LINES 288 GPM

TOTAL = 3250 GPM

= 7.24 cfs

Well originally licensed
(36-2058)

for 5.60 cfs

INCREASED FLOW → 1.64 cfs

DUE TO INCREASE IN HP MOTOR

State of Idaho License and Certificate of Water Right

A36-02058
36-02058

Water License No. 20282

Amount 5.6 c.f.s.

Water District No.

Priority February 2, 1948

THIS IS TO CERTIFY that WILBERT H. MOLLER and LAWRENCE H. DUFFIN, Co-partners of Rupert, Idaho, (JAMES E. BRENNAN, Assignee), made application for a permit to appropriate the public waters of the State of Idaho, dated February 2, 1948; that Permit No. 20282 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 5.6 second feet, was issued thereunder on August 24, 1953, showing that said works were completed on the 13th day of March, 1953; and that on the 14th day of March, 1957, JAMES E. BRENNAN

of Filer, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well

a tributary of subterranean, for the purpose of Irrigation

, under Use Permit No. 20282 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

10 of Licenses at page 6132, on the 16th day of October, 1957;

The right hereby confirmed dates from February 2, 1948;

The Point of Diversion is located

in the SW 1/4 NE 1/4, Sec. 20, Tp. 7 S., R. 24 E., B. M. County Minidoka

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 5.6 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
7 S.	24 E.	21	NE 1/4 NE 1/4	26	40

GROUNDWATER MEASUREMENT REQUIREMENT ANALYSIS

FILE: 36-8404

DATE: 4-22-92

BY: SCC

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (H.P.) \times (EFF.)}{TDH}$

Q = CFS

H.P. = Total Brake Horsepower of pumping plant (including booster)

EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)

TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = depth to water in FEET from land surface to pumping water level

PSI = pumping pressure measured in psi near pump (if open discharge assume zero [0]) EST. @ 79% EFF. = 4.66 cfs

$$Q = \frac{(8.8) \left(\frac{250}{234} \right) (0.70)}{\left[\left(\frac{234}{60} \right) + (\dots \times 2.31) \right]} = \frac{1540}{372.6} = 4.13 \text{ cfs}$$

RE: TRANSFER #3478 (36-02075 & 36-08068)

DATE: MARCH 26, 1992

I HAVE BEEN REVIEWING THESE WATER RIGHT FILES IN PREPARATION FOR THE ADJUDICATION REPORT FOR BASIN 36. I WOULD LIKE TO BRING TWO ITEMS UP FOR RECONSIDERATION AND POSSIBLE CORRECTION.

1. IN PART 2, PAGE 4 OF 8, SECTION B.3. DESCRIPTION OF PORTION OF RIGHT BEING TRANSFERRED; THE PLACE OF USE IS CORRECT IN IDENTIFYING NO ACRES IN THE SWNE AND 6 ACRES IN THE SENE. HOWEVER, THE NEXT SECTION, C.3. DESCRIPTION OF UNCHANGED PORTION OF RIGHT; THE CORRESPONDING PLACES OF USE ARE REVERSED AND INCORRECT. IT SHOULD READ: SWNE 40 & SENE 33. THE TOTAL ACRES LISTED HERE ARE CORRECT AT 556 ACRES.

2. THE TRANSFER AS GIVEN APPEARS TO CREATE AN EXPANSION IN THE PLACE OF USE ACRES. I WILL TRY TO EXPLAIN HERE AND SEND YOU A COPY OF THE TRANSFER WITH MY NOTES ALSO.

THE LICENSE 36-02075 WAS FOR 490 ACRES IN 1953. IN 1982, A FIELD EXAM WAS COMPLETED AND FOUND THE PLACE OF USE TO BE LIMITED TO A TOTAL OF 620 ACRES. THIS INCLUDED A COMPLETE OVERLAP WITH 36-02075. THIS IS CONFIRMED BY THE FACT THAT THE 36-08068 PERMIT INCLUDED A REQUEST FOR 637 TOTAL ACRES. THE LICENSE EVEN LIMITS THE DIVERSION TO A VOLUME RATE FOR 620 ACRES.

THE TRANSFER SHOWS THE UNCHANGED PORTION OF 36-08068 TO BE 556 ACRES AND THE AMOUNT OF TRANSFERRED ACRES AVAILABLE AS 75 ACRES. $556 + 75 = 631$ ACRES NOW IRRIGATED. THE LICENSE EXAM IN 1982 CONFIRMS THE COMPLETE OVERLAP OF THE ORIGINAL LICENSED ACRES. WHEN THE SECOND RIGHT WAS DEVELOPED THE APPLICANT HAD TO HAVE MOVED THIS EXTRA 11 ACRES BACK INTO THE PLACE OF USE WITHIN THE 620 ACRES; IF THAT CAN BE SHOWN IN THIS TRANSFER - IF NOT, THE CHANGE DID OCCUR BY UN-RECORDED TRANSFER ANYWAY.

I DID NOT ADDRESS THE EFFECT THIS HAS ON THE DIVERSION RATES INVOLVED. THAT SHOULD BE A MATTER OF CALCULATIONS IF NEEDED.

I DO NOT KNOW WHAT CAN BE DONE AT THIS POINT BUT I AM LETTING YOU KNOW BEFORE THE RECORDS ARE CHANGED ON THE DATA BASE TO SHOW THIS TRANSFER.

RE: Permit Nos. 36-08251 & 36-08404

Dear Ms. Miller:

In April of this year we sent you an assignment on the above mentioned permits. (A copy of your letter acknowledging these assignments is enclosed for your use). Our legal department has asked that we have these assignments corrected to show ownership in both Northwest Farm Credit Services, ACA and Roy N. Young and Steven D. Young. I have enclosed new assignment forms doing this. Will you please replace the assignments we sent you previously with these new assignments and send me an acknowledgement?

If you have any questions concerning this matter, give me a call.

Sincerely,

Joan Kriegh
Admin. Assistant

PROOF DUE NOTICE

RE: PERMIT NO. 36-08404

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P36-08404

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Re: Application for Permit No. 36-08404

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the South Idaho Press on 4/6 & 4/13/89. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks. Please submit a list of partnership officers.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren O. Holmes, P.E.
Southern Region Manager

MEMORANDUM

TO: Loren Holmes, Southern Region
FROM: Gary Spackman *Gary*
DATE: March 13, 1989
RE: Young & Young application for permit to appropriate water:
Transfer no. 3478 proposing a partial transfer of place of
use and the addition of a point of diversion for water
rights no. 36-2075 & 36-8068.

Steve Young of Young & Young partnership filed a transfer with the Department in September, 1988. The transfer was sent to the state office in February, 1989. In reviewing the transfer, I discovered that a portion of the NW1/4 of Sec. 20 that Mr. Young intended to irrigate, and that apparently has been irrigated for several years, was not listed as a place of use under any existing water right. I told Mr. Young that we would be unable to approve the transfer in its fragmented form, and he visited Boise to discuss alternatives. We finally decided that the best alternative would be to file an application for permit. The reason an application for permit is attractive is that the land not listed as a place of use for a water right was irrigated prior to October 1, 1984.

For full exemption from Swan Falls processing, Mr. Young must have filed his application prior to July 1, 1985. The policy and implementation plan, however, states in paragraph 4, page 8:

Applications filed after July 1, 1985 to validate water use in the trust water area for projects which were developed prior to October 1, 1984 will also not be processed in sequence with other filings for trust water. The depletion caused by such projects is assumed to have already occurred and need not be counted against the 20,000 acres-yr limitation for the year in which the processing occurred, but all other public interest requirements of 42-203C, Idaho Code must be evaluated. (Emphasis added).

Mr. Young has submitted sufficient documentation to me to clearly establish beneficial use of the water prior to October 1, 1984. He has filed an application to appropriate water with the Department of Water Resources. His application should not be processed in sequence with other filings for trust water. In other words, legal notice of his application can be published immediately. I have attached a sample notice which should be used for all applications alleging water use prior to October 1, 1989.

36-08404

1984, but filed with the department after July 1, 1985. I had hoped to advertise the application on March 16 and 23, 1989. Because of time constraints, it appears now that it can't be advertised until April 6 and 13, 1989.

When the application is data entered, a special condition must be typed into remarks. It should say: This application seeks approval out of sequence because of pre-October 1, 1984 development. Every water right application which is processed out of sequence must contain this condition. Subscribers to the new water rights listings must be able to identify those filings which seek to be exempted from Swan Falls scrutiny.

A drilling permit has been issued for the use proposed by the transfer and application in this case. A copy of the drilling permit is enclosed. When you assign the application for permit a number, please inform the state office of the number so that the drilling permit can be crossed referenced.

* After other pre-requisite approvals have been obtained.

* Fee is \$10 for single family domestic. Other uses may be \$100, \$50 or \$10.

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. Diversion from the well drilled under this drilling permit is not authorized until the Department approves an application for permit to appropriate water or a transfer that authorizes use of water from the well.
9. The applicant, by accepting the drilling permit and commencing construction, acknowledges that he accepts all risk that the well may not ultimately be approved for use.

Dated this 7th day of March, 1989
