The map is a survey plat showing two sections of land. Section 2 is at the top, and Section 11 is at the bottom. A river flows from the left towards the right, passing through both sections. In Section 2, there is a 'RESERVOIR' and a 'CLEAR LAKE'. Various buildings are marked, including a 'SCHOOL HOUSE', 'BARN', and several 'HOUSE's. The map is divided into numerous parcels, many of which are numbered (e.g., 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15). Bearings and distances are given for the boundaries of these parcels. For example, the top boundary of Section 2 is defined by bearings N 89° 25' W, N 89° 38' W, and N 89° 31' W, with distances of 40.10, 40.70, and 40.10 respectively. The river is labeled 'RIVER' and has a width of 1220.873 at one point. A red stamp in the bottom right corner reads 'MICROFILMED JUL 24 1992'.

RE: Water right number(s): 36 8370

Dear Water Right Holder(s):

The purpose of this letter is to notify you in advance that present drought conditions in Eastern Idaho may result in the flow of the Snake River falling below the minimum stream flow of 3,900 cubic feet per second ("cfs") established by the Swan Falls Agreement at the Murphy gage on the Snake River. Your water right bears a later priority date than July 1, 1985, the priority date for the minimum stream flow. As a result, if the flow falls below 3,900 cfs, the department will send you another letter advising you to cease diversion of water.

This notice is being provided so that you have advance warning to make arrangements to minimize impacts to growing crops or other loss that could occur if your water diversion is curtailed. Such arrangements may include temporary transfers as provided under Section 42-222A, Idaho Code, for areas declared a drought emergency. Declaration of a drought emergency can be initiated by petition of the Board of County Commissioners to the director of this department subject to approval by the Governor.

There are many variables that affect stream flows in the Snake River. Normally, the flows in the Snake River at Murphy gauge are lowest during June and July.

Information about your water right can be found on the department's website at the following address: <http://www.idwr.state.id.us/apps/ExtSearch/SearchWRAJ.asp>. Real time flow data for the Murphy gage can also be found at the following address: <http://www.idahopower.com/riversrec/waterlevels/streamflow/showgraph.cfm>

Thank you for your cooperation in this matter. If you have questions, please feel free to contact the department.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08370

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 36-08370

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
