PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08351

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Dear Mr. and Mrs. Sybesma:

Re: Permit No. 36-8351

Over the last several months, I have discussed this permit with both you and Mr. Van Grouw. The purpose of this letter is clarify the status of the permit for you.

On May 31, 1989, the department sent Fredrick Tencate a proof due notice. The department did not receive a response to this notice, so the permit lapsed. A notice of lapsing was sent on August 18, 1989. On September 18, 1989, the department received an Assignment of Permit form conveying the permit to David and Carol Sybesma. On October 12, 1989, Jim Johnson acknowledged the assignment and requested either the proof of beneficial use form or a request for extension of time. In answer to that letter the department received the proof of beneficial use form along with a tax notice showing the property ownership to be in the name of Edward Van Grouw on November 3, 1989.

The department recognizes that the property belongs to Edward Van Grouw. The department also recognizes that the permit belongs to David and Carol Sybesma. The proof of beneficial use form was submitted by Edward Van Grouw with evidence to show that he owns the property. Yet, from my telephone conversation with Carol Sybesma, she and her husband own the commercial use developed by this permit. The department will assume that there is a friendly relation between the property owners and the permit holders and accept the proof of beneficial use form. In the future, the license will be issued in the name of David and Carol Sybesma.

Enclosed is a reinstatement order. Note that the priority has been advanced the period of time between the lapse notice and the assignment received date and the acknowledgement of assignment and the proof received date.

The next step is for the department to conduct a field examination of the system to review and to confirm the extent of beneficial use being made of the water. The examiner will attempt to contact you to schedule a convenient time to conduct the exam. Based upon the findings and recommendations of the examiner, a water right license will be issued.

If you have any questions, please contact this office.

RE: PROOF SUBMITTAL

Several months ago after the department sent the lapse notice, I talked with both the Van Grouws and the Sybesmas concerning assignment and proof of beneficial use submittal. Besides submitting the proof of beneficial use, the concern was whether or not the parties could get an assignment from TenCate in the short period of time left to submit proof.

Some facts concerning this filing are:

- The Van Grouws are parents of Carol Sybesma.
- The Van Grouws are leasing the property to David and Carol Sybesma.
- The Sybesmas have developed the uses described on the permit.

Although the permit holders are the Sybesmas, I accepted the proof of beneficial use form submitted by the Van Grouws. The Sybesmas are aware of the Van Grouws submitting the proof form and are interested in having the permit reinstated.

In addition, to further complicate things, from first review of this matter, it looks as if the proof needs to be submitted under 42-218a, which provides for the permit to be reinstated showing evidence that the use was developed during the construction period along with an advancement in priority to the date that proof is due. However, there was approximately a month's time when the file sat without response to the assignment. I don't believe we should consider this time of inactivity as delay when figuring the time for advancement.

This review process was not been discussed with Tim Luke before he sent the letter dated December 29, 1989.

The permit can be reinstated if proof is received within sixty days of the date the lapse notice was sent. The lapse notice was sent on August 18, 1989. The department received the assignment form on September 18, 1990 for a delay time of 31 days. The assignment was acknowledged on October 12, 1989 and the proof of beneficial use was received on November 3, 1989. The delay period is 22 days. Add 22 and 31 for a total of 51 days advancement to April 25, 1988 for a new priority date of June 15, 1988.

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on November 3, 1989. The permit lapsed on August 1, 1989 so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

The proof form and attached tax documents you submitted indicates that Edward and Jeannette Van Grouw are the present landowners associated with this water permit. The permit should be assigned to the present landowner of record. Enclosed with this letter is an assignment form which you should complete and return to the department.

Please feel free to contact this office if you have additional questions.

Sincerely,

TIM LUKE

Dear Mr. and Mrs. Sybesma:

We acknowledge receipt of the assignment of the above referenced permit to you. Please be advised, however, that this permit is currently in a lapsed state due to failure of the previous permit holder to submit a proof of beneficial use statement or a request for an extension of time prior to the proof due date of August 1, 1989.

Enclosed are copies of the proof due and lapse notices sent to the previous owner. Also enclosed is a proof of beneficial use form and an extension request form. If the system is complete, you need to submit the proof of beneficial use form; if the system is not yet complete, you need to submit the request for an extension of time. One of the two forms is needed by this office within 30 days so that the permit can be easily reinstated.

If you have any questions concerning this matter, please feel free to contact our office.

LAPSE NOTICE

RE: PERMIT NO. 36-08351

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated May 31, 1989.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 36-08351

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Re: Application for Permit No. 36-8351

Dear Mr. Tencate:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 36-8351. Please refer to this number in all further correspondence.

This office will be advertising the application in the Gooding County Leader on 5/18 & 5/25/88. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find Receipt No. S000132 in the amount of \$55.00 (\$30.00 for filing fee for application for permit, \$25.00 for adjudication filing fee).

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,
