**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF LAPSED PERMIT)
NO. 36-08345 IN THE NAME OF)
VEENSTRA DAIRY II, DBA CANYON)
VIEW DAIRY)
_____)

REINSTATEMENT ORDER

This matter having come before the Idaho Department of Water Resources ("Department"), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On May 18, 1988, the Department issued Permit No. 36-08345 to Veenstra Dairy II ("permit holder") authorizing the diversion of 1.00 cubic feet per second ("cfs") of groundwater to be used for stockwater and commercial (dairy) purposes, within NWSENW Section 5, T08S, R014E, Gooding County, B.M. A condition of permit approval required the permit holder to submit proof of beneficial use of water ("proof") to the Department on or before June 1, 1989.

2. On March 31, 1989, by certified mail, the Department notified the permit holder that proof of beneficial use was due and instructed the permit holder of the steps to be taken to submit the proof or an extension of time request.

3. On June 7, 1989, the Department sent the permit holder a lapse notice, since the Department had not received an acceptable proof or extension of time request.

4. On April 9, 2001, the permit holder submitted a complete proof form and the required license examination fee to the Department. The permit holder also submitted evidence to show that water has been applied to beneficial use during the authorized development period and has shown sufficient cause why the beneficial use was not timely submitted.

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, provides as follows:

MICROFILMED

APR 25 2001

That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to clearly establish the extent of beneficial use made during the time authorized by the permit and any extensions of time previously approved. Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

2. The permit holder has provided sufficient information and reasonable cause for the Department to reinstate the permit by submitting a Well Driller's Report, Invoice of Eaton Drilling & Pump Service, showing pump installation date, and Affidavit of Larry Nielson, President, Eaton Drilling & Pump Service, Inc.; Affidavit of Jim Keyes, Argus Electric stating personal knowledge of electrical connection for pump for well used for the dairy; and Affidavit of Frank Veenstra, observing the use of the well in October 1988 in support of the proof of beneficial use.

3. The Department should reinstate the permit with the priority advanced to the date that proof and the license examination fee were received.

ORDER

IT IS HEREBY ORDERED, that Permit No. 36-08345 in the name of Veenstra Dairy, dba Canyon View Dairy is **REINSTATED** with the priority advanced to **April 9, 2001**.

Dated this 17th day of April, 2001.

APPLICATION FOR PERMIT

Ident. No. 36-8345

To appropriate the public waters of the State of Idaho

1. Name of applicant Veenstra Dairy II Phone 837-6573
Post office address Rt. 1, Box 276 A Hagerman, ID 83332
2. Source of water supply Groundwater which is a tributary of 2 points
3. Location of point of diversion is NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of NW $\frac{1}{4}$, Govt. Lot _____
Sec. 5 Township 8S Range 14E B.M. Gooding County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
- Amount .45 for stockwater purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum) (Dairy)
- Amount 1.00 for commercial purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 1.00 cubic feet per second and/or (b) _____ acre feet per annum
6. Proposed diverting works:
- a. Description of ditches, flumes, pumps, headgates, etc. 2 wells, pumps (1 existing & 1 new well)
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
- c. Proposed well diameter is 6 inches; proposed depth of well is 105 feet.
- d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
1 years (minimum, 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. _____
- b. Stockwatering; list number and kind of livestock. 700 dairy cows
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. _____
- e. Other; describe fully. Commercial-Dairy washing cows & barn flushing

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 36-8345, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before
June 1, 19 89.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.

Witness my hand this 18th day of May, 1988.

RE: Change of Ownership for Water Right Permit 36-8345

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right permit to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

for

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 36-08345

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating the permit since proof and the license examination fee were submitted more than 60 days after the lapse notice was issued. Please note that the priority date has been advanced to **April 9, 2001**, as provided in Section 42-218a(2), Idaho Code.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

Sincerely,

Deborah J. Gibson

Department of Water Resources

Statement of why beneficial use was not reported:

At the time of purchase we were under the assumption that all water right forms and other related items were taken care of at the time of purchase. Until this time we were never aware that anything else was needed. We would at this time like to request a reinstatement for beneficial use form.

The above letter was written to Julie Yarbrough in 1998 in response to a lapse letter that we received. In doing research I discovered that we still were not reinstated. when we built our dairy we did not have legal counsel and were not aware of all the paper work required. A dairy permit cannot be issued without water so again by fault of our own we assumed that everything was in line. At this time we would like to request another reinstatement for beneficial use form.

To Whom It May Concern:

Department of Water Resources

Under the 1978 Pasteurized Milk Ordinance all dairy farms in the State of Idaho were required to have a potable water supply in order to ship milk for human consumption. Tests were required to be conducted on each Grade A dairy farm at least once in every three years. All test results would require a negative test for coliform bacteria. An initial test would have been required in order to obtain a Grade A license.

Regarding Health District Grade A dairy farm inspection and testing results; all these records were purged from Idaho Department of Agriculture files in 1999. Department records for all Grade A facilities were initiated on July 1, 1991. We have records from that date to present in our database.

Sincerely,

Marv Patten, Chief
Bureau of Dairying

LAPSE NOTICE

RE: PERMIT NO. 36-08345

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated March 31, 1989.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

RE: PERMIT NO. 36-08345 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08345

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct you attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since

you must take further action to develop this permit. Also enclosed for your convenience is the statement of beneficial use that must be submitted when your project is completed.

Sincerely,

Gary Spackman
Supervisor, Water Allocation Section

ACTION OF IDWR

(☒) Approved () Denied

36-85-1-CCS

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

Re: Application for Permit No. 36-8345

Dear Mr. Veenstra:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 36-8345. Please refer to this number in all further correspondence. We also acknowledge receipt of the accompanying Well Drilling Permit which will be approved simultaneously as the application for permit.

This office will be advertising the application in the Gooding County Leader on 3/16 & 3/23/88. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren O. Holmes, P.E.
Southern Region Manager

Re: 36-8345, 36-8346

Gentlemen:

Enclosed you will find 2 legal notices which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billings to this office before APRIL 4, 1988.

Yours truly,

Mary A. Baldwin
