OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE)
FLOW MEASUREMENT PORT OR)
MEASURING DEVICE CONDITION)
OF APPROVAL FOR PERMIT NO.)
36-08333.)

ORDER

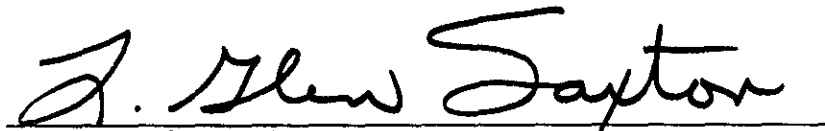

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install a flow measurement port or other device to facilitate the measurement and determination of the rate of diversion by the department; and

WHEREAS, the department has determined that the rate of diversion for certain ground water uses can be estimated by the department without the use of an installed flow measurement port; and,

WHEREAS, the department has determined that the rate of flow for the above captioned permit can be estimated without the use of a flow measurement port;

IT IS THEREFORE, HEREBY ORDERED that the condition of approval requiring the installation of a flow measurement port or other device for the above captioned permit is WAIVED. The department retains the jurisdiction to require the condition be reinstated in the future upon a finding of need by the department.

Dated this 15th day of February, 1994.

AMENDMENT OF APPLICATION FOR PERMIT

Department of Water Resources

To change the point of diversion, place of use or nature of use on an applicant to appropriate the public waters of the State of Idaho.

Applicant: SHIRLEY E. HESS Phone: 837-6383

Address: 2722 RITCHIE ROAD - HAGERMAN, ID 83332

I am the owner and holder of Application No. 36-8333 and request that the permit be amended and/or changed as follows:

1. Point of diversion: (Springs must be identified to the nearest 10 acre tract.)

1/4 SW 1/4 NE 1/4, Section 20, Twp. 7S, Rge. 14E, B.M. County of _____
(10 acre) (40 acre) (160 acre)

Other point(s) of diversion: _____

2. Water use (irrigation, domestic, stockwater, etc.), amount, and period of use under the permit:

Amount 3.66 cfs for IRRIGATION purposes from MAR 15 to NOV 15 (inclusive)
(cfs or af) (Water Use) (Begin Month) (End Month)

Amount _____ for _____ purposes from _____ to _____ (inclusive)
(cfs or af) (Water Use) (Begin Month) (End Month)

Amount _____ for _____ purposes from _____ to _____ (inclusive)
(cfs or af) (Water Use) (Begin Month) (End Month)

Amount _____ for _____ purposes from _____ to _____ (inclusive)
(cfs or af) (Water Use) (Begin Month) (End Month)

3. Place of use or land to be irrigated:

TWP	RGE	SEC	NE				NW				SW				SE				TOTAL
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
7S	14E	20		40	40	40	40	35	38	0	30								183

4. a. Who owns the property at the point of diversion? RONNIE D. SMITH + CHARLENE M. SMITH

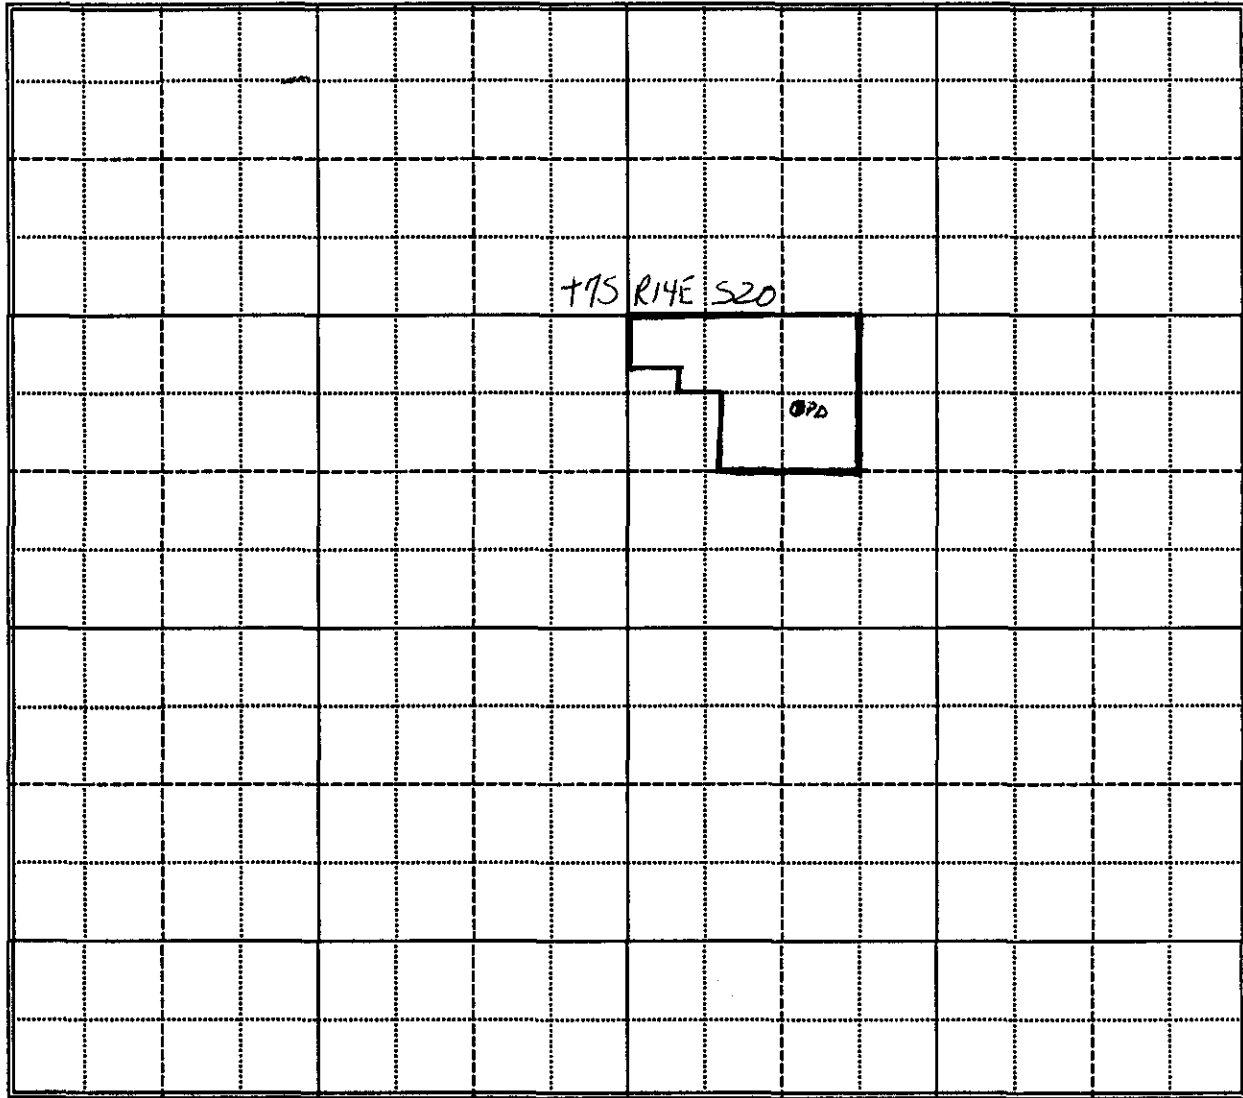

b. Who owns the land to be irrigated or the place of use? RONNIE D. SMITH + CHARLENE M. SMITH

c. If the property is owned by another party, please describe the arrangement allowing you to file on this

property: PROPERTY WAS SOLD WITH PROVISION FOR FINAL PAYMENT

ONLY IF/WHEN/AFTER PERMIT 36-8333 IS GRANTED.

Complete the following map by showing where the point of diversion and place of use are located as proposed by amendment. (Scale: 1 block = 4 acres)

I hereby request approval of this change subject to the fact that no one will be injured by this change, and the change will be made at my own risk.

M E M O R A N D U M

Date: February 14, 1994
From: Julie L. Yarbrough
To: File No. 36-08333
Subject: Assignment

Spoke to Ron Smith today regarding the assignment of permit no. 36-08333. He feels that some document filed at the escrow company by the permit holder Shirley Hess should have assigned the permit to him. He owns the property now and Shirley Hess meant to assign the permit to him but did not file the necessary paperwork with us. He'll try to contact the permit holder to get an assignment, if not he'll send us a copy of his deed to the property along with an assignment of some sort filed at the escrow company. In the mean time we will accept the proof.

Hagerman, ID 83332

RE: Permit No. 36-08333

Dear Permit Holder:

On January 31, 1994, the Department received the proof of beneficial use form and fee for the above referenced permit. I note, however, that the permit is in the name of Shirley E. Hess.

Before the department can take action on the permit, the permit needs to be in some way associated with you. Enclosed is an assignment, which when completed by the permit holder or representative of the permit holder, will convey the permit to you. If, however, it is impossible to acquire an assignment, there are other options which are not as desirable, but effective.

The department can accept the proof and fee if you can demonstrate that you have possessory interest in the land. This can be accomplished by providing the department with a copy of the tax record or a copy of your warranty deed and/or sales contract. By submitting such document(s), the department can allow you to take action to maintain the permit, but not necessarily as documentation for conveying ownership of the permit.

In order to protect your priority date, it will be necessary for you to submit this documentation within 30 days of the date of this mailing. I realize this can be confusing, so if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Water Right Permit No. 36-08333

Dear Permit Holder:

Enclosed are the forms needed to file proof of beneficial use on water right permit no. 36-08333. The forms were originally sent by certified mail on November 30, 1993, to the name and address listed on the permit, but they were returned undelivered by the postal service.

It has come to our attention that the water right holder may no longer own the property the water right pertains to. If the former property owner would like to assign the water right to you, please have them complete the enclosed Assignment Application for Permit.

Please read the original enclosed letter, complete the necessary forms and return them to this office on or before the proof due date of February 1, 1994. The department can only accept the proof due notice from you if the former property owner has assigned you the water right.

If you have any questions or I can be of any assistance, please do not hesitate to call.

Sincerely,

A handwritten signature in cursive script that reads 'Julie L. Yarbrough'.

PROOF DUE NOTICE

RE: PERMIT NO. 36-08333

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

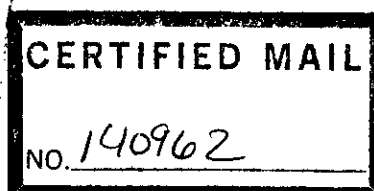

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: PERMIT NO. 36-08333

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of

RECEIVED

INSTRUCTIONS: IF YOU ARE NOT INTERESTED IN HAVING THE APPLICATION PROCESSED, PLEASE COMPLETE AND RETURN THE ENCLOSED WITHDRAWAL FORM.

IF YOU WISH TO HAVE THE APPLICATION PROCESSED, PLEASE ANSWER THE FOLLOWING QUESTIONS AS THOROUGHLY AS POSSIBLE. FAILURE TO RETURN EITHER THE WITHDRAWAL FORM OR QUESTIONNAIRE IS CAUSE FOR THE DEPARTMENT TO VOID THE APPLICATION.

1a. Are you the current owner of the land or place of use described under this application? Yes _____ No X

b. If you are not the property owner, please describe the arrangement enabling you to develop the proposed project.

SOLD WITH PROVISION FOR FINAL PAYMENT AFTER GRANTING PERMIT. I WILL ASSIGN PERMIT AFTER FINAL PAYMENT.

2a. Has the source of water listed on this application been used to irrigate any of the land described under this same application prior to October 1, 1984? Yes X No _____

b. If yes, please describe the extent of development and number of acres irrigated. (Note: Uses developed after October, 1984 are considered trust water diversions and may be subject to certain conditions. You may be asked to verify uses established prior to October, 1984.)

LATE HUSBAND USED WATER FROM THIS SOURCE IN LATE 60'S OR EARLY 70'S - HOWEVER, I WAS UNABLE TO SUBMIT SUFFICIENT PROOF OF THIS USE AND RELINQUISHED MY HUSBAND'S CLAIM AND REFILED APPLICATION 36-8333, IN OUR NAME.

3. If you answered NO to ques #2a, please state the number of acres you have irrigated with this source after October 1, 1984. 0

4. If you have not irrigated lands under this application, please state the number of acres you plan to complete. 183

5. If the permit is a supplemental filing please identify other water rights which are used on the same land.

Use the reverse side of this form if you wish to add any comments. You may mark changes on the enclosed application to designate any proposed amendments. (Note: Proposed changes which result in an expansion of use will not be considered by the department.)

I hereby assert that the responses provided above are true to the best of my knowledge. I understand that any willful misrepresentations may result in voiding of the application.

RE: APPLICATION FOR PERMIT NO. 36-8333

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

1. If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

2. If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.

Please be further advised that if any undeveloped portion of your proposed project is greater than 200 acres, the department will issue a notice requesting additional information as required by Water Appropriation Rule 4,5. (copy enclosed). In particular, rules 4,5,3. through 4,5,3,5. apply to your project if it is more than 200 acres. If necessary, the rule 4,5. information notice will be sent to you after you return the questionnaire.

RE: Lapsed Permit No. 36-2649

Shirley E. Hess
2722 Ritchie Rd.
Hagerman, ID 83332

Dear Ms. Hess:

This office is in receipt of the proof form and examination fee which you recently submitted to our Southern Regional office for the above referenced water right permit. Our regional office has also forwarded your letter and attached documentation dated August 12, 1988. In that letter, you specifically requested that certain portions of Permit No. 36-8333 (dated 8/25/87) be amended. These amendments will be handled by the regional office.

In regards to Permit No. 36-2649, this permit was originally approved by the Department in April of 1966. The due date for proof of beneficial use under this permit was April 22, 1971. Since the proof was never submitted, the permit lapsed. On August 26, 1988, the Department received the proof form and examination fee. After reviewing all of the pertinent information, we believe that you are seeking to reinstate this lapsed permit.

Pursuant to Section 42-218a, Idaho Code (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

The authorized permit period for 36-2649 was April 22, 1966 to April 22, 1971. Evidence showing beneficial use during the authorized period would include the type of documentation which you submitted with your letter of August 12, 1988. This particular

RECEIVED

MAR 05 1991

36-8333

Page 2

documentation does not clearly provide evidence that beneficial use occurred during the authorized permit period. The aerial photo from 1969 indicates that there was no beneficial use in this or previous years. The enlarged aerial photograph which you identified as "C" is dated 1977 and therefore is insufficient evidence of any use during the authorized period. Photograph "B" is undated and is additionally insufficient at this time. This photo appears to perhaps be an enlargement of Photograph "C".

Before the Department can further consider reinstatement of this permit, you must submit additional information to show the extent of use of water for irrigation purposes.

Sincerely,

A handwritten signature in dark ink, appearing to read "Tim Luke", written in a cursive style.

TIM LUKE
Sr. Water Right Agent

ATTENTION: Lonan Holmes

Dear Mr. Holmes:

IN REGARD TO: My Application for Permit to appropriate the public water of the State of Idaho, dated August 25, 1987, no identification number yet assigned:

a. Please amend the application TO 310 acres FROM 320 acres as I have since sold 10 acres (the $W\frac{1}{4}$ of the $SE\frac{1}{4}$ of the $NW\frac{1}{4}$ of Section 20 Township 7 South Range 14 East in Gooding County, Idaho) showing 30 acres in the $SE\frac{1}{4}$ of the $NW\frac{1}{4}$ rather than 40 acres to be irrigated. All other acreages in "9. Description of place of use:" are to remain the same. See attached enclosure "1."

b. Concerning "10. Describe any other water rights used for the same purposes as described above. Claim 36-4176 has been relinquished - use was never developed." Yes, I did relinquish this claim to a water right as Mr. Philip H. Hess (my now deceased husband) was confused about the date of priority when he filed this claim. HOWEVER, he did tell me that he used this well for ninety to one hundred days to bring up alfalfa, Siberian wheatgrass, orchard grass, and fescue grass. I am enclosing enlargements of aerial photographs: the first identified as "A" taken on May 10, 1969 showing no developed irrigation system so far as I can ascertain; photograph "B", no date available, shows irrigation lines in place. Both enlargements were made from aerial photographs now at the Soil Conservation Service office in Gooding, Idaho and are accompanied by an affidavit which so states. Photograph "C" is an enlargement of an aerial photograph taken in 1977 which is now in the possession of the Agricultural Stabilization and Conservation Service office, also in Gooding, which to my eye conclusively shows lines of irrigation pipe and reflects development. Photograph "C" is also accompanied by an affidavit.

Three more affidavits also are included here: one from Mr. Eugene Walker, who drilled this well in 1966; one from Mr. Gerhard Luttmer, a neighbor, who observed the Lonimer diesel engine near the well as he considered a similar application of diesel power for his own irrigation power supply; and one from Mrs. Canner Peterson, also a neighbor, who had many occasions to cross this property.

c. On the sheet marked "2" are photocopies of two pages of a small notebook which I recently found. These notes are in my husband's handwriting. I have highlighted an entry dated February 5, 1967 concerning planting of 320 acres and an entry dated October 29, 1972 concerning the need for more Siberian wheatgrass seed on "the Miller ranch."

Enclosure "3" is a copy of the Declaration of Trust for Personal Property by which the Claim to a Water Right would have passed from my deceased husband to me - had the date of priority been correct. Mr. J. G. Stanton of your office found this error when I consulted with him about having this claim changed into my name to reflect the current ownership.

d. I am also enclosing copies of Deeds as there have been so many changes since my husband first purchased this ranch from the Millen's in 1965: C. Ralph Millen and Violet E. Millen to Philip H. Hess and Emma Hess; Power of Attorney from Emma Hess to Philip H. Hess; Philip H. Hess and Emma Hess to Gem State Ranches, Inc., an Idaho Corporation; Gem State Ranches an Idaho Corporation to Phillip H. Hess, a single man; Gem State Ranches, Inc., an Idaho Corporation to Philip H. Hess, a single man (I recorded to show correct spelling); Philip H. Hess to Philip H. Hess, Trustee for Shirley E. Hess, together with a Declaration of Trust for 315 acres; Philip H. Hess to Philip H. Hess, Trustee for Shirley E. Hess, together with a Declaration of Trust for 5 acres; Philip H. Hess, Trustee for Shirley E. Hess, to Shirley E. Hess, his wife, as her sole and separate property, 315 acres; and Philip H. Hess, Trustee for Shirley E. Hess, to Shirley E. Hess, his wife, as her sole and separate property, 5 acres.

e. For your convenience in reviewing, copies of the Application for Permit, numbered #36-2649; Claim to a Water Right, #36-4176, dated February 22, 1983; your letter, signed by Jim Johnson, dated September 10, 1987, regarding the relinquishing of claim numbers 36-4176 and 36-4177; and my Application for Permit, dated August 25, 1987; are enclosed.

f. Finally, a copy of the advertisement of the "Phil Hess Estate Sale" on which is listed the Lormier diesel referred to by Mr. Lutter, miscellaneous switch boxes, and the damaged aluminum sprinkler pipe (we had previously sold all the undamaged pipe.)

I would like to point out that, in 1971 when you mailed Mr. Hess information and/or forms on filing the Proof of Beneficial Use to his previous California address and which was returned to you as not forwardable and is now being retained in your files, that title was held under "Gem State Ranches, Inc., an Idaho Corporation". Gem State Ranches, Inc. held title from December 24, 1968 to December 7, 1977. Did your office make any attempt/s to determine a possible change in ownership? or acquire a possible new owner's address?

I would like it noted that on page 2 of Claim to a Water Right, number 36-4176, under "8. Remarks" it reads: "System was developed for these lands & also additional lands to the east under an old permit that apparently lapsed. These lands were split from the other lands & other wells in 1977." I believe that this notation should have been a part of the application for Permit rather than Mr. Stanton's notation under "Remarks: Well was drilled in 1966 but never put to use." I hereby request that it be so changed on my above request for an amended Application for Permit.

MAR 05 1991

It had been my husband's and my intention that Mr. Sonny Sonnichsen, now deceased also, grow potatoes on this 320 acres. Mr. Sonnichsen had, prior to my meeting and marrying Mr. Hess, purchased the pump which was in the well and with which Mr. Hess started the pasture grasses to which I above referred. We three had expected Mr. Sonnichsen to use this same pump with the Lonimer diesel engine here; again, during the coming years he expected to lease the 320 acres. My husband had told me that he and Mr. Sonnichsen removed the pump from the well themselves; certainly I have no doubt that my husband had the knowledge, experience, and access to the necessary equipment to do so. However, I did attempt to locate any local pump business which might have sold him the pump, set the pump, tested the pump, or removed the pump - but without success.

I request that this added information and documentation be added to my file and taken into consideration at any review. I realize that it is lengthy and bulky - but, I feel, necessary under the circumstances. I look forward to an expedient granting of my amended Application for Permit.

Yours truly,

Shirley E. Hess

Re: Application for Permit No. 36-8333

Dear Ms. Hess:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 36-8333. Please refer to this number in all further correspondence.

Because your application proposes to appropriate water which has been identified as "trust water" in the Swan Falls agreement, it will be processed under rules and regulations for water appropriation that have been adopted as required by law.

Under the rules, applications will be processed at a rate which allows development of 20,000 acres per year. The oldest applications will be processed first, provided that applicants are willing and able to proceed.

For this reason, it is not possible to estimate at this time when action will be taken on your application.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Loren O. Holmes, P. E.
Southern Region Supervisor
