ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 36-8266, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

   a. SUBJECT TO ALL PRIOR WATER RIGHTS.

   b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1990.

   c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

   d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

   A flow measurement port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

   Consumptive use of water under this permit shall not exceed 2.0 acre feet per day.

Re: Curtailment of Ground Water Use Under Water Right(s) 36-8266

Dear Water Right Holder:

The records of the Idaho Department of Water Resources ("Department") indicate that you own one or more water rights for the use of ground water within Water District 130 and the Thousand Springs Ground Water Management Area (GWMA). Department records do not indicate that out-of-priority diversion and use of water under your water right(s) is covered by either an approved mitigation plan or one of the stipulated agreements negotiated last year by the North Snake and Magic Valley Ground Water Districts and certain municipal and industrial water users.

Because of severe drought conditions persisting across the Upper Snake River Basin, the Thousand Springs GWMA was established last August. This allowed the Department to seek curtailment of relatively junior priority ground water diversions from the Eastern Snake Plain Aquifer ("ESPA") that further reduce the water supply available to senior priority water rights from springs and surface water tributary to the Snake River. The order designating the Thousand Springs GWMA identified an area within 10 kilometers from the Thousand Springs canyon wall north and east of the Snake River within which use of ground water rights having priority dates later in time than July 21, 1967, were determined by the Department to be injuring senior priority surface water rights. Within this area, curtailing ground water diversions will increase spring discharges tributary to the Snake River by an amount equal to 50 percent or more of the associated ground water depletions within 6 months of curtailment. This determination was made using the results from the Department's ESPA regional ground water flow model.

Curtailment orders were not issued last year to the holders of water rights for ground water in the area identified for curtailment because ground water districts and other entities representing the holders of the water rights entered into 2-year stipulated agreements with representatives of holders of affected senior rights from the interconnected springs and surface water tributary to the Snake River. These stipulated agreements provided for creation of a water district pursuant to Chapter 6, Title 42, Idaho Code, to enforce the terms of the agreements and curtail the diversion and use of water under junior priority water rights that the Department determines are injuring senior priority water rights, if the holders of the junior priority water rights are not represented by entities entering into the stipulated agreements or are not otherwise mitigating the injury.

On February 19, 2002, a Final Order was issued creating Water District 130 for the administration of rights to the use of ground water and springs discharging from the ESPA in the Thousand Springs area. The first annual Water District 130 meeting was held on April 23, 2002, at which a watermaster was elected and certain resolutions were adopted.

On March 27, 2002, the Department sent a letter to you and others within Water District 130 who had water rights that were not afforded the "safe harbor" provided by an approved mitigation plan or one of the stipulated agreements negotiated last year by either the ground water districts or a group of municipal and industrial users. That letter notified right holders that the Department, through Water District 130, might need to take action to curtail diversions not covered by a stipulated agreement or an approved mitigation plan where the Department has determined that such diversions are causing injury to senior priority water rights.

Unfortunately, drought conditions continue to persist across southern Idaho and the Snake River plain, and spring discharges in the Thousand Springs reach of the Snake River are similar or less than last year. Therefore, certain senior priority water rights that were calling for water last year are again not being satisfied during parts of this year. As described above, the Department, through use of its ESPA ground water model, has determined that unmitigated ground water pumping in the area of impact is causing injury to the holders of senior priority water rights from the Snake River. Consequently, in accordance with Idaho Code §§ 42-237a.g. and 42-607 it is necessary to seek curtailment of all junior priority ground water rights within the Thousand Springs impact area that are not covered by an approved mitigation plan or stipulated agreement.

Because the water right you hold is located in Water District 130 and the Thousand Springs GWMA impact area and is not covered by an approved mitigation plan or one of the stipulated agreements negotiated by either the ground water districts or the group of municipal and industrial water users, you are hereby notified that the watermaster for Water District 130 has been instructed to curtail diversion and use of ground water under your water right for the remainder of this irrigation season. The watermaster for Water District 130 will contact you after 14 days from the date of this letter to arrange for the curtailment of the diversion and use of ground water under your water right. The watermaster will allow you reasonable time to make adjustments or arrangements to minimize hardships caused by this action. Unless water supply conditions dramatically improve, I anticipate that curtailment will need to be extended for all of next year's irrigation season.

I regret that this action is necessary. You may want to consider joining one of the ground water districts that has signed a stipulated agreement as an alternative to having your use of ground water curtailed. Should you have questions about this matter, or if you believe your water right should be excluded from this action, please contact Cindy Yenter (Water District 130 Watermaster) by telephone at (208) 736-3033 or contact Tim Luke at the Department of Water Resources at the address above or by telephone at (208) 327-7864.

Sincerely,

Karl J. Dreher

RE: License No. 36-8266 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
APR 0 3 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) the petition for reconsideration is disposed of; or
> (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right Permit No. 36-08266

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

✓ **Point(s) of Diversion**

✓ **Place(s) of Use**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the $50.00 filing fee within 14 days.

If you have any questions, please call me at 208-327-7944.

Water Right Report 36-8523

5. 052 Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
6. 053 The Director retains jurisdiction over this right and may change, add, or remove any requirement as determined to be appropriate.

Remarks:

Comments:

1. jstanton 12/10/2001 Re-exam 36-8523
Comment: Both the pump curve and the system design call for 1.89-1.91 cfs; I am recommending the design flow of 1.89 cfs (well has failed, so could not be measured during the re-exam). Although the common mainline on this farm carries both canal water and ground water, the well has historically only served the pivot in the SE 1/4 Sec. 17; license should only cover the 115 acres under this pivot. Canal water has only been used in the west pivot & some wheel lines. An amendment of the permit is pending that would add a second well close to the existing well.

E. NARRATIVE/REMARKS/COMMENTS

The current system includes two wells; Well #1 was drilled in 1968 and has no well log available. A random check through well logs located in that same area as well as the depth of the other existing well, an approximate depth of 350 ft with a pumping level of 110 ft is estimated. Well # 2 was drilled 350 ft deep with a pumping level of 112 ft. The wells are interconnected and water is diverted to pressure 4 pressurized tanks.

The Stockwater component is in place and has traditionally, if only intermittently, been used for the watering of at least 3500 beef cattle. However since Mr Chugg is no longer involved with this operation, the stockwater usage has dropped significantly to under 1000 head of range cows that are stored there for wintering purposes.

water is diverted to one mobile home with some 1200 sq ft of irrigatible lawn along with 500 sq ft of lawn located at the office.

The Commercial component is addressed by water being diverted to 2 out-buildings used as truck repair shops and some misc. storage. Also, water is being used to wash-out truck trailers (see Volume Calculations for amounts) Other commercial considerations include one bathroom commode, and sink. Personnel include 4 full time employees, 2 part-time employees.

Although there are a few token cattle left on the place, the resemblence of a productive feed-lot is not what one would expect. The enterprise/Business being conducted on the site is that of Penn-Pacific/Farm Fresh Produce Trucking.

F. FLOW CALCULATIONS ____ Additional Computation Sheets Attached

Measured Method:

Theoretical only

Well #1 $\frac{8.8 \text{ X } 2 \text{ X } .70}{110 + 35 \text{ X } 2.31}$ = 0.06cfs

Well #2 $\frac{8.8 \text{ X } 2 \text{ X } .70}{112 + 35 \text{ X } 3.31}$ = 0.06cfs

0.12cfs total system capacity

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = _____

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = _____

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = _____

2. Volume Calculations for Other Uses:

Domestic allowance 0.04 cfs 1.2afa

Commercial **Employees = 400gpd**
Office Facilities = 400gpd
Truck Washing Facilities = 1000gpd
1800 gpd = 2afa

Stockwater **1000 hd X 12gpd X 365d/yr = $\frac{4380000}{325900}$ = 13.4afa**

This Permit is Approved. Date 7/90.

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.

2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.

3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.

5. Approval of this drilling permit does not authorize trespass on the land of another party.

6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

NOTICE OF AMENDMENT TO A WATER PERMIT

NO. 36-08266

Notice is hereby given that Herb &/or Mary Allen as representatives of the Ray Chugg Estate are the holders of Approved Permit No. 36-08266 authorizing the diversion of 0.83 cubic feet per second of water from groundwater in the SW1/4NW1/4, S20, T9S, R17E; County of Jerome, to be used for domestic use within NW1/4NW1/4, S20, T9S, R17E; Stockwater use within SW1/4NW1/4, SE1/4NW1/4, S20, T9S, R17E; Commercial use within SW1/4NW1/4, S20, T9S, R17E.

The permit holders have applied to the Department of Water Resources for an Amendment to the Permit, to add diversion point(s) and place(s) of use as follows:

Amount: No change

Re: Application for Amendment, 36-08266

Dear Mr. & Mrs. Allen:

The Department of Water Resources acknowledges receipt of your application for amendment of a permit.

This office will be advertising the application in the North Side News on 10/18 & 10/25/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineering Specialist

Re: Permit No. 36-8366

Returned is the proof of beneficial use form submitted to the Southern Regional office in Twin Falls on May 31, 1990. The proof of beneficial use form was submitted previously on April 25, 1990.

Along with the proof submittal, the department received a $100 filing fee. I have initiated the paper work to issue you a refund. It will take several weeks for this refund to come to you.

It appears that a change in ownership has occurred. Enclosed is an assignment form which when properly executed can convey the permit to the new permit holders.

If you have any questions, please contact me.

Sincerely,

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08266

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 36-08266

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

> 42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.
> (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.
