RE: Water Right 36-08219

Dear Mr. & Mrs. Ciocca:

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

L. GLEN SAXTON, Chief

RE: WATER RIGHT NO. 36-08219

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Well previously produced 2400 gpm, but has produced 1800 gpm since 1 bowl was removed to reduce pumping costs (according to Mr. Peterson).
Old license shows 40 acres irrigated in the SE/SE Sec. 15, but this is impossible. About 2 acres are out for a high rock pile above the canal, & 1 acre is out for the county road. Recommend these acres be shifted to SE/SW Sec. 15 to agree with SRBA recommendation. Also, old licensed P/D is incorrect, SRBA has been notified.
System capacity at 3.75 cfs is a bit over 1"/acre, old license is for 0.9"/acre, which is normally plenty to run sprinklers. Purpose of permit was to pick up new acres, not to increase flow rate on old acres.

RE: PERMIT NO. P36-08219

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Application for Permit No. 36-08219

Dear Applicant(s):

On March 25, 1988 the Federal Energy Regulatory Commission (FERC) issued an order satisfying the last condition to make the Swan Falls Agreement effective. The Department is now prepared to proceed with the normal processing of your application.

This office will be advertising the application in the Gooding County Leader on 5/2 & 5/9/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

RE: SWAN FALLS PROCESSING

DATE: 2-23-90

=====

The applicant has returned the department's trust water questionnaire and claims that the acreage under the application was developed and irrigated since 1974. When the applicant made the filing, he also stted that the well under the application had been used since 1974. The application shows that only one year was requested for completion of works and beneficial use.

Review of the department's 1974 7.5 minute orthophoto does show all of the land under the application as irrigated at that time. The department's remote sensing report (data attached) has this same land classified as irrigated for 1986.

Based on the remote sensing and aerial photo data and the comemnts submitted by the applicant on the questionnaire and the original aplication form, there is sufficient evidence that the lands were irrigated prior to October of 1984. I recommend that this application be exempt from the review requirements of section 42-203C.

The application will be returned to the region for routine advertising and processing. Trust water conditions are not applicable in processing of this application.

RE: APPLICATION FOR PERMIT NO. 36-8219

Dear APPLICANT:

Due to the Swan Falls litigation, Department approval of the enclosed application may have been delayed. The Department is presently reviewing your application and may authorize the proposed development.

The purpose of this letter is to determine: (1) if you are still interested in developing the project, and (2) the extent of development, if any, that has already occurred under the application. Enclosed are two forms requesting information which will help the Department expedite the processing of the application.

If you have abandoned or have no interest in continuing with your plans for development of the project, please complete the enclosed withdrawal form and return it to the Department. If you request a withdrawal of the application and the application was not previously advertised, the department will refund your original filing fee.

If you wish to continue with your proposed development plans, or have completed all or a portion of the proposed development before October 1, 1984, then you must complete and return the enclosed questionnaire. You may use the questionnaire and enclosed application to make any comments &/or amendments concerning the application. Your completion of the questionnaire will expedite processing and help the department determine if the water diverted under the application is public water or trust water. Approved trust water applications may be subject to additional conditions.

Failure to return either of the above forms within thirty (30) days of the date of this letter is cause for the Department to void the application.
