Dear Mr. Bennett:

Re: Permit No. 36-7854

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, Permit No. 36-7854 has lapsed. This office did not receive either an acceptable notice that you have completed the project (proof of beneficial use) by the date required on your permit or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated May 31, 1984.

Your permit cannot be reinstated unless you submit the statement of beneficial use postcard or submit an extension of time request showing reasonable cause for delay. Either the completed postcard or the extension request must be received by this office within sixty days of the date of this lapse notice or the permit will no longer be of any force or effect.

A statement of beneficial use postcard and a request for extension of time form are again enclosed for your use. Please note that a fee of \$15.00 must accompany an extension of time request and that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT)

NO. 36-7854 IN THE NAME OF)

ROBERT MEYERS)

ORDER OF REINSTATEMENT

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On July 19, 1979, the Director of the Department of Water Resources issued Permit No. 36-7854 in the name of Joe Bennett (later assigned to Robert Meyers) with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before August 1, 1984.

2. On May 31, 1984, the Department sent a proof due notice to the permit holders.

3. On September 17, 1984, the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

4. On February 16, 1990, Proof of Beneficial Use was received by the Department from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly

MICROFILMED

MAY 23 1990

establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. Evidence includes: a 1977 ASCS aerial photo (date given by Mike May, Gooding Co. office) showing irrigation of the permitted lands with a center pivot sprinkler system; and power service records from Idaho Power Company confirming that service was established to the permit holders for an irrigation pump prior to the proof due date.

7. The permit holders have stated that personal family and financial problems caused them to overlook submitting proof of beneficial use at the time proof was originally due.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 37-7854 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to February 16, 1990.

Before a license can be issued, a field examination will be made by a representative of this Department. Enclosed is an Order of Reinstatement. Please note that the priority date has been advanced to February 16, 1990.

The permit lapsed because Joe left our family and moved off the farm. I was not aware of the deadline or that information was needed to file our water rights.

It was very difficult to take complete responsibility of my children find outside employment and someone to run the farm, all during this period of time. Since these things were foremost on my mind I did not think about our water permit until notice came out for all water users to refile. At this point I went into the Dept. of Water Resources office and have been trying to compile the necessary information for reinstatement.

Dear Mr. Meyers,

Please find enclosed copies of our use for pump #0768 100 HP irrigation pump. I was able to find the use for this pump from 1982 through 1989. If you notice there was two account numbers, 1757-002457- and 2057-002457. Between 1985 and 1986 we re-routed alot of our accouts so the first two numbers changed but it is still the same pump. The last number may have changed but that is the tennant number and will change if different customers run it.

I hope that this will help you in showing beneficial use of power.

Very truly yours,

Julie

RE: Permit No. 36-7854

Robert J. Meyers
Rt. 3, Box 6654
Twin Falls, ID 83301

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on February 16, 1990. The permit lapsed August 1, 1984, so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

- a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.
- b) Reasonable cause why the proof of beneficial use was filed late.

The aerial photograph which you submitted with the proof statement is acceptable evidence for reinstating the permit. However, you must still submit a statement which provides reasonable cause as to why proof was filed late.

In addition to providing the statement required above, you must also have the present permit holder of record, Mr. Joe Bennett, assign the permit to you. The permit cannot be reinstated unless the enclosed assignment form is completed and returned to the department.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely,

TIM LUKE

DATE 2-16-1990

TO File

SUBJECT Reinstatement of Permit 36-07854

This permit lapsed due to failure of permittee to file timely proof of beneficial use. The permit belonged to Joe Bennett. Proof of beneficial use was not filed due to his divorce and other family and financial problems during the permit period. Marsha Bennett got the land from the divorce, and later sold it to Robert Meyers. The land has been farmed since 1975. The paperwork problem was recently discovered, so Mr. Meyers is now requesting reinstatement of the permit.

Dear Mr. Bennett:

Re: Permit No. 36-7854

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-219a of the Idaho Code, Permit No. 36-7854 has lapsed. This office did not receive either an acceptable notice that you have completed the project (proof of beneficial use) by the date required on your permit or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated May 31, 1934.

Your permit cannot be reinstated unless you submit the statement of beneficial use postcard or submit an extension of time request showing reasonable cause for delay. Either the completed postcard or the extension request must be received by this office within sixty days of the date of this lapse notice or the permit will no longer be of any force or effect.

A statement of beneficial use postcard and a request for extension of time form are again enclosed for your use. Please note that a fee of \$15.00 must accompany an extension of time request and that only one extension of time may be granted unless the project has not been completed and a necessary approval by a government agency or by the State Engineer.

Dear Mr. Bennett:

RE: Permit No. 36-7854

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please note the special condition requiring you to install an access port or other device to provide for the installation of measuring equipment by the Department. Enclosed are specifications for the installation of the access port, as well as a list of measuring device options.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

DAVID R. TUTHILL, JR.
Supervisor, Water Allocations Section
