

A hand-drawn geological map on a grid. The map features a fault line (F.F.) running vertically, labeled 'N' at the bottom. To the left of the fault, there is a road labeled 'R 25E' and a point labeled 'P.D.'. A vertical line segment is labeled 'T 8 S'. The number '34' is written near the road. The map is drawn on a grid with solid and dashed lines.

That no one will be injured by such change, and that such change will be made at permit holders own risk.

Dear Mr. Bailey:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.
