Dear Mr. Mason:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Field exam for Permit No. 36-7483

Vernon Mason submitted an app. for extension of time, however, he had already submitted proof as his proof due date was up July 1, 1979. Therefore, we denied his request for withdrawal of the proof and returned his extension application. We did tell him that we would wait to schedule a field examination of the system until sometime during next year's irrigation season.

Could you schedule the exam for sometime during that season? Thank.

Re: Permit No. 36-7483

Dear Mr. Mason:

In Section 42-204, IDAHO CODE, it states that an extension request can be processed only if it is received by the date set on the permit. Legislation has changed that so a request can be received within the 60-day reinstatement period past the completion date. However, both of these dates have passed, and therefore we cannot accept your extension request nor can we withdraw the previously submitted proof of beneficial use.

A field examination can be scheduled for later in the irrigation season for next year. We will contact you prior to this examination, in order that your system can be operating at full capacity.

If you have any questions, please contact us.

Dear Mr. Mason:

One of the conditions of approval of your water Permit No. 36-7483 was that evidence of the extent of development must be submitted to this office on or before July 1, 1979. If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.
