WATER RIGHT LICENSE

WATER RIGHT NO. 36-07336

Priority: August 8, 1986

Maximum Diversion Rate: 0.88 CFS
Maximum Diversion Volume:[1] 348.0 AF

This is to certify, that GEOFFREY MARBLE
826 E. 100 S.
JEROME, ID 83338 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 22, 1973; and has submitted Proof of Beneficial Use on July 26, 1983. An examination indicates that the works have a diversion capacity of 1.870 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

BENEFICIAL USE	PERIOD OF USE	RATE OF DIVERSION	ANNUAL VOLUME
IRRIGATION	03/15 to 11/15	0.88 CFS	348.0 AF

LOCATION OF POINT(S) OF DIVERSION: SWSW , Sec. 21, Township 08S, Range 18E JEROME County

		28	NWNW	36				36

Total number of acres irrigated: 87

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.

WATER RIGHT LICENSE

WATER RIGHT NO. 36-07336

This license is issued pursuant to the provisions of Section 42-219, Idaho Code, Witness the seal and signature of the Director, affixed at Boise, this 21st day of MAY, 1991.

Acting for R. Keith Higginson, Director

FILED
MAY 31 1991

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 36-7336 IN THE NAME OF GEOFFREY MARBLE	ORDER OF REINSTATEMENT

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 36-7336 for issuance of a license, the Department finds, concludes and orders:

FINDINGS OF FACT

1. The Department approved Application for Permit No. 36-7336 to appropriate the public waters of the State of Idaho with a proposed priority of JULY 28, 1983.

2. On APRIL 17, 1986 the Department advised the permit holder that a license examination fee was required before an examination could be conducted to confirm the extent of use developed under the permit. The examination fee was due on JUNE 16, 1986.

3. The license examination fee was not paid within one year of the date, and the permit lapsed for failure to pay the license examination fee.

MICROFILMED
AUG 21 1989

4. The license examination fee was received on JUNE 27, 1989, 1106 day(s) late.

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the license examination fee is late, pursuant to the provisions of Section 42-217, Idaho Code.

2. The date of priority of Permit No. 36-7336 should be advanced 1106 day(s).

ORDER

IT IS HEREBY ORDERED that Permit to Appropriate Water No. 36-7336 is reinstated.

IT IS FURTHER ORDERED that the date of priority of Permit No. 36-7336 is advanced to AUGUST 08, 1986.

Dated this 24th day of July, 1989.

IN THE MATTER OF PERMIT NO. 36-7336 IN THE NAME OF GEOFFREY MARBLE	ORDER OF REINSTATEMENT

WHEREAS, on July 27, 1973, the Director of the Department of Water Resources issued Permit No. 36-7336 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before July 1, 1978; and,

WHEREAS, on April 28, 1978, the Department sent a proof due notice to the permit holder; and,

WHEREAS, on July 11, 1978, the Department sent a lapse notice to the permit holder since neither proof of beneficial use nor a request for extension of time had been received from the permit holder; and,

WHEREAS, on July 28, 1983, proof of beneficial use was submitted by the permit holder; and,

WHEREAS, amendments to Section 42-218A, Idaho Code, effective April 8, 1983, provide that the Director may reinstate a permit upon which proof has been submitted subsequent to the sixty day period after the notice of lapsing; and,

WHEREAS, permit holder has shown adequate cause that the permit can be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that permit No. 36-7336 be reinstated; and It Is Further ordered that the priority be advanced to July 28, 1983.

Dear Mr. & Mrs. Meeks:

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Dear Water Right Holder(s):

Enclosed is a draft copy of the license proposed to be issued on the above referenced water right. The draft reflects the actual use of water found by a representative of our department at the time of the field examination. Please review the draft and if you do not concur with the information or if you have any questions, let me know within 10 days.

The claim you filed on this right under the ongoing Snake River Basin Adjudication contains the same information that you listed on the original permit. Before the Department will issue a license reflecting the actual development occurring under this right, you should amend your claim to match the information on the proposed license. Enclosed for your signature is the Amended Claim form with the license information already listed.

Once I receive the signed amended claim, the water right license will be issued and your claim to this right will be included in the Director's Report summarizing the water uses in the Snake River Basin. (See the attached table for a summary of the water appropriation process.)

RE-36-7336. July 27-1989

Dear Sir,

I came into the office to file an adjudication claim and found that the permit for the irrigation of land which had been awarded me in a divorce settlement had lapsed due to failure to pay an examination fee. Apparently the notice to pay the fee had been sent to my ex husband as I had not received notice of lapse.

Proof of beneficial use and evidence of use prior to the original proof due date was submitted prior to the Feb 15 1984 order of reinstatement. I am therefore submitting the $125.00 licencing examination fee in order to complete licencing of this permit. I will obtain assignment of the permit from my ex husband if necessary.

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be on no further force nor effect on June 17, 1987, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 17, 1986.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 17, 1987, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

If you have questions, please contact any office of the Department.

Sincerely,

L. Glen Saxton

L. GLEN SAXTON, Chief

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

April 17, 1986 CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

RE: Permit No. 36-7336

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of an access port which, according to the proof card submitted by you, has not been installed. An access port must be installed prior to the time a field examination is made.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 734-2352 or in person at our office at 1841 Blue Lakes Blvd. N. Twin Falls, Idaho.

Dear Mr. Marble:

We acknowledge receipt of the statement of beneficial use postcard and the supporting documentation for reinstating the above referenced permit. Enclosed is a copy of the Order of Reinstatement. Please note that the priority date has been advanced to July 28, 1983.

Before a license can be issued, a field examination will be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you or a representative may show him the system.

If you have any questions regarding this matter, please contact this office or our Southern Regional Office at 734-3578.

Sincerely,

JIM JOHNSON

IMPORTANT NOTICE

SPRINKLER PIPES AND ELECTRIC POWER LINES

Dear Irrigation Customer:

Each year there are workers injured or killed when they contact electric power lines with metal sprinkler pipe.

We need your help in preventing these injuries or deaths.

Will you point out to your employees the danger of "up-ending" these pipes near power lines? Will you store your pipes away from power lines?

Idaho Power Company employees have placed adhesive-backed signs which read: "DANGER - HIGH VOLTAGE - Do Not Up-end Pipe Near Power Lines" at pumping installations and at other conspicuous locations. If you need more of these signs, please contact your local Idaho Power office.

There are other activities and/or equipment used in agriculture which can produce electrical contacts:

1. Well drilling under or too near power lines.
2. Portable loaders, conveyors, hay stacking equipment, metal ladders, etc.
3. Stacking hay or other produce under power lines.

Remember, "these electric wires are safe until someone becomes careless."

Impress on your employees the motto: "Look up and Live."

If we can be of service to you in any electrical problems or if there is an electrical accident, please contact your Idaho Power Company office.

Yours very truly,

A. G. Blair

Dear Mr. Marble:

We are now computing the amount of your irrigation use for the current season so that you may know the amount of your irrigation advance payment.

We have estimated the amount of your billing for the current season, based upon past use, less tax refund, to be $ 2,580.00. This, then, is the amount of your season advance and is required prior to the date you want service connected to your pumping installation.

It is our sincere desire to have service available when needed and it will be very helpful if you will notify us a week in advance of the day you wish to start pumping. This service contemplates one free connection and disconnection accomplished during normal business hours. In the event the customer requests a connection or disconnection that must be made at other than normal business hours, or an extra connection or disconnection, the cost of this extra service requested by the customer would be paid by him.

We appreciate that the spring season is a busy one for you and we will welcome every opportunity to be of help in connection with the use of our service.

Yours very truly,

CONVERSATION MEMORANDUM

DATE 10/27/83

FILE 36-7336

NAME OF PARTY Geoffrey Marble

EMPLOYEE Jim Johnson

RE: The above party came in to check on progress toward reinstatement of this permit.

Since I had just reviewed his file on 10/26/83, I discussed with him the information I felt he was lacking. He said that the Idaho Power employee in the Jerome office had told him that they did not have information on his pumping prior to 1978. I called the Idaho Power office in Boise and they informed me that the Jerome office should have the entire record; however, the Privacy Act prevented release of the records if the records were in someone else's name. Mr. Marble stated that he had leased the farm to other parties prior to 1978. This in part explained why the Jerome office had stopped recording the power records at 1978. However, the power company did supply records of 1981 and the power record shows that the power was billed to Wayne Zimmerman (see file). Mr. Marble is going to contact the Jerome Idaho Power office to see if he could obtain additional records prior to 1978.

PERMIT REVIEW FOR REINSTATEMENT

Conducted by Jim Johnson
10/25/83

Additional information received 10/3/83 is as follows:

1. Statement that water was used since 5/1974.
2. 100 acres irrigated prior to 7/1/1978.
3. Idaho Power receipt
   a) duplicate bill stub - no date
   b) Irrigation tax refund statement - 12/10/1976
4. Letter from Idaho Power 2/3/1976
5. Letter from Idaho Power no date

Analysis of above information

1. Permit holder has not provided evidence other than personal statement that water was used since 1974.
2. Permit holder states that only 100 acres were irrigated prior to 7/1/1978 - permit shows 160 acres. Field exam, if permit is reinstated, should probably limit acres found to 100 acres.
3. Idaho Power Receipt (A) Account No. on receipt (1958 85301) does not match account no. given on Meter History Information dated 7/26/83.

   Idaho Power Receipt (B) also has account no. that does not match as described above.
4. Letter from Idaho Power does not show relationship to this permit.
5. Same as above for Idaho Power letter with no date

Conclusion

1. The permit holder has not provided supporting documents which confirm water use started prior to 7/1/1978.
2. Reason given for not sending proof of beneficial use when requested appears to be acceptable as the proof due letter was returned as unclaimed.

RE: Permit No. 36-7336

Dear Mr. Marble:

The department has received your proof of beneficial use postcard in connection with the above referenced permit on July 28, 1983.

Pursuant to the provisions of Section 42-218a, Idaho Code, the permit may be reinstated provided you can show:

a) Evidence that you put the water to beneficial use before the beneficial use due date of July 1, 1978.

b) Reasonable cause for filing the proof to beneficial use postcard late.

The aerial photo you provided, showing the lands being irrigated, does not have a date when the photo was taken and the meter history information with supplemental sheet does not show that water was pumped prior to 1978. Therefore, we must request that you provide additional information before we take action to reinstate your permit.

Please answer the following questions:

1) When was the water identified in permit No. 36-7336 first applied to the lands also identified in said permit? May 1974

2) How many acres identified in the permit were irrigated prior to July 1, 1978? 100 Ac. approx.

3) Are there any other sources of water used on this land? None

3a) If yes, name the source(s) and how long it has been used to irrigate said land. N/A

4) Can you provide additional proof that land was irrigated prior to July 1, 1978 if requested? inclosed

4a) If yes, what additional proof can you provide? - Ad. Pwr. receipts

Please provide a brief narrative on the history of development of water identified in said permit including dates when well was drilled and when pump and motor were purchased, the number of acres irrigated and date when irrigation system was completed.

Also, please explain the circumstances for not returning the proof to beneficial use statement sent to you in our April 28, 1978 correspondence.

We will withhold any further action on this permit until October 30, 1983. If we can be of any assistance or if you have questions on this matter, please let us know.

Sincerely,

Jim Johnson

Dear Mr. Marble:

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, Permit No. 36-7336 has lapsed since you have not notified us that you have completed the project by the date required on your permit. You were provided forms for that purpose in our notice to you dated April 28, 1978.

Your permit cannot be reinstated unless you submit the proof of beneficial use affidavit, enclosed, or show other reasonable cause why the permit should be reinstated within 60 days from the date of this lapse notice.

Dear Mr. Marble:

One of the conditions of approval of your water Permit No. 36-7336 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Marble:

Please be advised that your application for permit has been processed. However, since your application is filed in connection with a desert land entry with the Bureau of Land Management, the Department of Water Administration will take no further action until such time as we receive evidence in writing that this land has been classified as suitable for desert entry.

Please contact us if we may be of further assistance.

Very truly yours,

Dear Mr. Haynes:

In regard to Water Permit Application No. 36-7336 the Shoshone District has not received any desert land application covering the S½SE¼ of Section 21, T. 8 S., R. 18 E. B.M. Because of the classification of these lands which segregates them from appropriation under the agricultural lands, no desert land application will be accepted. Not until the classification is reviewed and the lands reclassified can they be filed on.

Accordingly, it would appear that that portion of the water permit application which involves national resource lands, formerly called public lands, is premature and should not be granted.

Sincerely,

Donald H. Sweep

Dear Mr. Marble:

In reviewing your application for permit, we find that you have listed the point of diversion as being located on government property. Therefore, before final action can be taken in connection with this application, we will require evidence of your authority for right-of-way across government property. A copy of the easement would be sufficient.

If we can be of further assistance, please contact us.
