INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.

2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.

3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.

4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.

5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

   Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.

8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Water Rights 36-07109/36-07292/36-08264

Dear Water Right Holder(s):

The Department is in receipt of the correspondence changing ownership of the above referenced decreed water right to you. We have modified our records to reflect this change in ownership and a computer generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager

SUBJECT: ???? ON AJ CLAIMS AND WATER RIGHT LICENSES
phone call (X) walk-in (.)

He called and was confused about how his claims were recommended in the Director's Report. Said that the numbers that were combined in the "Remarks" didn't match the numbers of the Licenses he had. Did some research and two of the numbers he had (36-08468 and 36-08417) are Permits with the proof due in 1990, therefore not required to be filed in the adjudication. The other License he questioned was 36-08264 which was licensed under France, Inc. Said this was his brother and he bought the property from him some years back. He also questioned why he didn't have a License for 36-11090? Told him that was a Beneficial Use claim, not based on a License. Seemed to have his questions answered but intended to do a little more research to try and determine which well went with which License and would call me back if he had any more questions...

RE: Snake River Basin Adjudication (SRBA)
Notices of Claim #36-07292, 36-07109 and 47-07069

Dear Claimant:

The letter sent to you earlier today contained a couple of errors. Water right 47-07069 was entered in the subject line as 36-07069 instead of 47-07069. This right was renumbered to 36-08264 and recommended in the SRBA under that number. Secondly, our records reflect Circle 4 Cattle Co. Inc. as current owner; therefore, it is not necessary to submit the SF3 sent to you in our earlier letter.

We apologize for our error and any confusion it may have caused you. Please contact me if you have any questions.

Sincerely,

RE: Reduction in acres irrigated & history of # of cattle watered.

DATE 4/15/92

NAME OF PARTY
Reed Crozier, Manager of Circle 4 Cattle Co.
324-2277

Mr. Crozier returned my call and we discussed the history of the # of cattle watered. Regarding the original well he indicated it originally served 1 house & no more than 40 head of cattle. Regarding the lic 36-7109 & 36-7292 he indicated that the reduction in irrigated acres occured around 1981 to that which is presently watered. At that time they went from irrigation of 30 acres to irrigation of 16 acres and they increased watering of cattle from 2000 to 6000 cattle in the feed lot.

Volume for 4000 range = 4000 X 0.0134 = 53.6 Afa
Volume for 16 acres = 16 X 4 = 64.0 Afa
∴ Applies change in nature of use OK.

RE: Clarification of Adj claims 36-07109, 36-07292, 36-08264 + 36-110

Mr. Crozier explained that Well #2 (on the enclosed, enlarged aereal photo map of the property) is the original well and, together with permit 36-08417, serves 2 homes in the SE, SW, SW ~~and~~ (LT 4) and 5 homes and other buildings in the SE, SW of Sec 31, T8S, R16E. It is interconnected with Wells #3 + #4 for stock water. Well #1 is the irrigation well to irrigate 14 ac of posture but it can also be connected to the system of Wells 2, 3, + 4 for an emergency water supply to the feed lot pens and the houses and buildings.

Wells 3, and 4 are the main source of water for the feed lot pens in the NE¼, SW¼, the NW¼ SW¼, the SE¼ SW¼, and the NW¼ SE¼ of Sec. 31, T8S, R16E. These pens can accomodate up to 10,000 head of feeder cattle.

There are only 14 acres of irrigated land on the property covered by these claims. This has been claimed under 36-07109 with a 1969 priority. Sixteen of the 30 acres of formerly irrigated lands under that license are now occupied by the feed lot operations. The 14 acres licensed by 36-07292 For irrigation are now irrigated under 36-07109 and the diverted water is used as part of the stockwater supply.

RE: Amendment of Claims

We discussed the water rights as related to the adjudication claims A36-07109, A36-07292, and A36-08264 and the need to amend the claims so that they reflect the actual, present uses of the Water right Licenses. This is because the 3 wells are presently interconnected to jointly supply water for the Domestic and stock uses, and the irrigation well can also be used for these uses in an emergency.

Mr. France stated the Horse power ratings on the pumps for the 3 wells was

Well #2 - 7.5 HP (Original Well) in pit
Well #3 - 5 HP (Stockwater Well) Submersible
Well #4 - 15 HP (Stockwater Well) Submersible
Well #1 - 20 HP (Irrigation Well)

Mr. France signed the 3 amended claims A36-07109, A36-07292, + A36-08264 and told me he would mail his notarized Statement to use as evidence of priority for claim A36-11090

Dear Sirs:

One of the conditions of approval of your water Permit No. 36-7292 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
