Mr. Oscar Anderson, Sec.
1000 Springs Water Users
Hagerman, ID 83332

Dear Mr. Anderson:

This is to acknowledge receipt of your protest to issuance of permits pursuant to the above referenced applications. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

Bob Haynes
District Engineer

WATER RIGHT LICENSE

License of Water Right No. 36-7303 Priority Mar. 16, 1973 Amount 1.11 cfs

THIS IS TO CERTIFY, that John Townsend or Winford Parks
of Hagerman, Idaho, has complied with the terms and conditions of Permit
No. 36-7303 issued pursuant to Application for Permit dated March 16, 1973,
and has submitted proof to the Department of Water Resources on May 26, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.11 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrig.</u>	<u>from Mar. 15 to Nov. 15</u>	<u>at 1.11 cfs</u>	<u>and 320 acre feet</u>
	<u>from _____ to _____</u>	<u>at _____ cfs</u>	<u>and _____</u>
	<u>from _____ to _____</u>	<u>at _____ cfs</u>	<u>and _____</u>

(both dates inclusive)

Subject, however, to the condition that no more than 1.11 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
320 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29,

A measuring device of a type approved by this Department shall be maintained
as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

MEMORANDUM DECISION

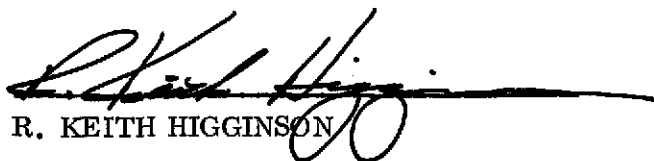

Each of the above numbered applications was filed for a permit to appropriate water from wells to be constructed in Gooding County, Idaho, for irrigation purposes. Such wells are to be located in an area above the outlets of the Thousand Springs, which are in the Snake River canyon south and west of Wendell, Idaho. Each of the applications was protested by the Thousand Springs Water Users Association.

A conference and hearing concerning the protests was scheduled and held at Gooding, Idaho, on April 25, 1973. As a result of the conference, it became apparent that the protestants had no specific information as to the claimed effect of the development of the proposed wells upon the flow of the springs from which they obtain water for their water rights. They were concerned with the continuing development of wells utilizing the Snake River aquifer system and it was their contention that the flow of the springs had decreased in recent years partially because of such development. They stipulated that their protests be considered withdrawn and that the department could act on the applications based upon information available to them.

Each of the applications propose development of wells which would obtain water from the Snake Plain aquifer which contains considerable water in storage and in transit from the recharge to the discharge area. This office has no information which would lead it to conclude that the development of the wells, as proposed, would cause interference with other established water rights.

IT IS, THEREFORE, ORDERED and applications for Permit No.'s 37-7205, 36-7303, 36-7304, 36-7307, and 36-7310 are each hereby APPROVED, subject to all prior rights, particularly those rights of the protestants. In the event that it can later be shown that any of the wells developed under these permits directly interferes with the flow of water from any spring and deprives any prior water user of water to which he is entitled, the applicant may be required to cease operation to protect prior right holders.

DATED this 18 day of May, 1973.

John Townsend or Winford Parks
Route #1
Hagerman, ID 83332

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 36-7303 on July 15, 1976, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 1.11 cfs Source: groundwater

The maximum quantity diverted shall not exceed 320 acre feet per
year.

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, Twp. 7S, Rge. 14E, B. M.

Beneficial use: Irrigation of 80 acres within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29,
Twp. 7S, Rge. 14E, B. M.

Priority date established: March 16, 1973

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Sincerely,

AN GROVER

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Twin Falls.

Gentlemen:

One of the conditions of approval of your water Permit No. 36-7303 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JUNE 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

NOTICE OF CONFERENCE
AND/OR HEARING

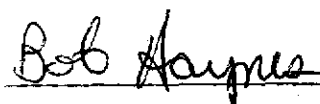

On February 16, 1973, John Townsend or Winford Parks filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. On March 13, 1973, the Department received a protest against approval of said application from 1000 Springs Water Users.

The Department has set the matter of protest for conference and/or hearing for Wednesday, April 25, 1973, at 10:00 a.m., in the Gooding County Courthouse, Gooding, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party desiring the taking of stenographic notes by a qualified court reporter must request such in writing at least five (5) days before the date set for hearing and must submit to the director the name of a qualified reporter who is available on the date set for hearing. The party requesting the reporter shall bear the expense of the reporter's attendance fees. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this twenty-sixth day of March, 1973.

Dept. of Water Administration
Pocatello, Idaho.

Gentlemen:

The 1/4 of this 1/4 Section for point of diversion has been corrected as the amended applications as filled out in the office last Monday, March 12 were assign are reverse.

Our well for domestic use is on the west forty along the main road. The power for irrigation pumps will come in the east side of property and may be beneficial to locate pumps on the east forty.

We hope to have them correct if we are re-advertising them.

Very truly yours,
Sylvia Townsend

RE: Application No. 36-7303 - John Townsend or Winford Parks

Mr. John Townsend
Route 1
Hagerman, ID 83332

Dear Mr. Townsend:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 36-7303. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

36 7303

Mr. Oscar Anderson, Sec.
1000 Springs Water Users
Hagerman, ID 83332

Dear Mr. Anderson:

This is to acknowledge receipt of your protest to issuance of permits pursuant to the above referenced applications. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

Bob Haynes

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."
