Re: application for Permit No. 36-7521 and License No. 36-7274

Dear Mr. Hulet:

We are in receipt of your letter dated April 7, 1983, in which you inquired about the ability to use your existing well to irrigate lands which you may purchase from the Bureau of Land Management at a sale in March, 1984. To assist with the response to your question, I have enclosed copies of the above-referenced application for permit and license, to which you referred in your letter.

To understand how the water rights apply to irrigated lands, please take a look at water right license No. 36-7274. Note that the point of diversion is shown to be in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 23, Twp. 7 S, Rge. 14 E. The place of use is shown to be 50 acres within Sections 14 and 23, Twp. 7 S, Rge. 14 E. The water right license shows that the total rate of diversion of 0080 can be used to irrigate these lands.

Now take a look at application for permit No. 36-7521. Note that there are two points of diversion listed, the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 23, and the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, Twp. 7 S, Rge. 14 E. The place of use on the application is shown to be 160 acres in the W $\frac{1}{2}$ NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 24. You indicated in your letter a desire to have the ability to use your existing well to irrigate these lands. Since one of the points of diversion on the application is the tract where your well exists, in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 23, approval of the application will give you the right to use that well for the irrigation of these lands. However, if the application for permit is not approved, then even though your existing well has been licensed, it cannot be used on lands in Sec. 24, but may only be used on the 50 acres in Sections 14 and 23 where the license exists.

Reed Hulet
April 13, 1983
Page 2

The only way that you would be able to use a portion of license 36-7274 on the lands which you hope to acquire, would be if you cease to irrigate some of the lands shown under the existing license. Unless this irrigation is ceased, there is no means of conveying a portion of the existing license to the new lands. On the positive side however, it appears that application for permit No. 36-7521 is fully valid and the only reason that it would possibly not be approved if you were to acquire the land, would be the Swan Falls situation that you alluded to in your letter. Although it is very difficult to say what will happen regarding this issue, there may be some type of resolution by the date of the sale next March.

I hope this serves to provide some information regarding the use of the two water rights. If you wish to discuss this matter further, please feel free to call me at 334-4104.

Sincerely,

DAVID R. TUTHILL, JR., P.E.

Division of Water Resources

Idaho Dept of Water Resources

It was in your Twin Falls office yesterday with a question & they recommended I write the state office as they could not answer my question.

I filed on a desert entry several years ago. At that time I applied for a water right by means of a new drilled well for part of it and a right to apply some water from a right I already own on part of it. I received notice a few days ago that my desert entry was rejected in favor of selling the land. The sale date is listed as March 1984. I am an adjoining landowner & because of that I will have a preference right. If the price is such that I can meet the highest bid I can buy the land. I would like to retain the water application to apply water from my owned right in order to retain the application priority date & any other advantage it may (over)

possibly give me in view of the
present unsettled state of
water rights on the Snake
river plain area. The
man in the town hall office
gave me the number 36-7521
but, in thinking about it later
I wondered if this number
was the one concerning water
from my existing water right
or if it might possibly have
been the number on the ~~new~~
application for a new well.
both applications were applied
for at the same time & they may
even be both taken as one
application. At any rate, the
application for change of use of
my existing right is the one
I want to retain pending
sale of this land.

Sincerely Yours

Dear Mr. Hulet:

One of the conditions of approval of your water Permit No. 36-7274 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Hulet:

I am returning you Application for Permit to appropriate water because no filing fee was received with the application. The fee for your Application for Permit would be \$25.00.

If you will return the application together with the appropriate fee, we will begin processing the permit.

If we can be of any assistance, please feel free to contact us.

Dear Mr. Young:

On your Application for a Permit you claimed 60 acres irrigation with 1.2 c.f.s. On your Proof of Beneficial Use you claimed 67 acres to be irrigated. Before we can license you for the additional 7 acres, you must file a new Application for a Permit for the additional amount of water with a later priority. We can license you for the 60 acres with the amount of 1.2 c.f.s. with the earlier priority.

I'm sending you an Application filled out with the appropriate location. Would you please check the application for accuracy and sign the application and then send the form along with the appropriate filing fee of \$10.00 to our office.

Sincerely,

Gary Funderburg

Dear Mr. Nicholas:

Enclosed please find your Application for Permit along with your check # 92-312 in the amount of \$30.00.

There has been some mistake in the required application fee. There is a \$35.00 fee for 1.5 c.f.s. It will also be necessary to name the source of water supply. Also, we need a statement from you as to whether the lands are connected or are not connected by one system. If the lands are connected by 2 systems it will be necessary to file another application.

If you have any questions, please feel free to contact us.

Very truly yours,

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

" I hereby certify that the foregoing account is just and correct,
that the amount claimed is legally due, after allowing all just
credits, and that no part of the same has been paid."
