RE: Licenses Nos. 36-7262 and 36-7263

Dear Mr. Gunning:

It has recently come to our attention that the two licenses described above have incorrect legal descriptions. The licenses show the water rights to be in Range 15 E., whereas we have verified that the land that you own is in range 16 E.

Since the applications were originally filed with the error in the range, we cannot see where the Department has erred in the licensing process. Therefore, the only means of correcting the error is via an Application for Transfer.

It appears that both licenses can be corrected on one transfer, which costs \$50. to file. For your convenience I have prepared the application. If the information appears to be correct please sign the fourth page before a notary and mail it with the \$50. filing fee to our Southern Regional Office in Twin Falls.

If you have any questions about this matter feel free to contact me at 334-4104.

Dear Mr. Gunning:

32-7261,
36-7262,

One of the conditions of approval of your water Permit No. 36-7263 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
