NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that State of Idaho, Fish and Game Department, P.O. Box 25, 600 South Walnut, Boise, Idaho has on June 5, 1972 submitted Application No. 36-7249 for a permit to appropriate 24.0 cubic feet per second of water from Riley Ck, tributary of Snake River by means of concrete dam and 60 inch steel pipeline within the NE 1/4 NE 1/4 Sec. 1, T. 8S, R. 13E, B.M., Gooding County to be used from Jan. 1 to Dec. 31 for Fish Culture within the N 1/2 NE 1/4 Sec. 1, T. 8S, R. 13E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before July 3, 1972.

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 36-7249 Priority June 5, 1972 Amount 24.00 cfs

THIS IS TO CERTIFY, that State of Idaho, FISH AND GAME DEPARTMENT
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 36-7249 issued pursuant to Application for Permit dated June 5, 1972,
and has submitted proof to the Department of Water Resources on June 13, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 85 cfs of water from Riley Creek,
tributary to Snake River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Fish Culture	from <u>January 1</u> to <u>December 31</u>	at <u>24.00</u> cfs and	<u>N/A</u>
	from _____	_____ cfs and	_____
	from _____	_____ cfs and	_____
	(both dates inclusive)		

Subject, however, to the condition that no more than 24.00 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
N/A acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, Twp. 8S,
Rge. 13E, B.M. in the County of Gooding

Description and location of place of use:

2. Source of water supply Riley Creek which is a tributary of Snake River
3. a. Location of point of diversion is N E 1/4 of N E 1/4 of Section 1 Township 8 South
Range 13 East B.M. --Gooding-- County; additional points of diversion if any: _____

b. If water is not consumed, it will be discharged into Riley Creek at a point in NW 1/4
of NE 1/4 of Section 1 Township 8 South Range 13 East B.M. Gooding County
4. Water will be used for the following purposes:
Amount 24.00 for Fish Culture purpose from January 1 to December 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 24.00 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. A concrete dam 12 feet in height.
Water elevation is regulated by inserting planks across the overflow spillway.
A 60 inch steel slide headgate regulates water flow into a steel pipeline
which is 65 inches by 40 inches in size and 700 feet in length.
and diversion
b. Height of storage dam 12 feet, active reservoir capacity 16.00 acre feet; total reservoir
capacity 20.00 acre feet, materials used in storage dam: Concrete
Period of year during which storage will occur January 1 to December 31 inclusive.
(Mo. Day) (Mo. Day)
c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 2 years.
b. Estimated construction cost is \$ 105,000.00.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: N 1/2 of NE 1/4 of Section 1 Township 8 South
Range 13 East B.M.
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.
(5) If water is to be used for other purposes describe: Fish culture

36 7249

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	

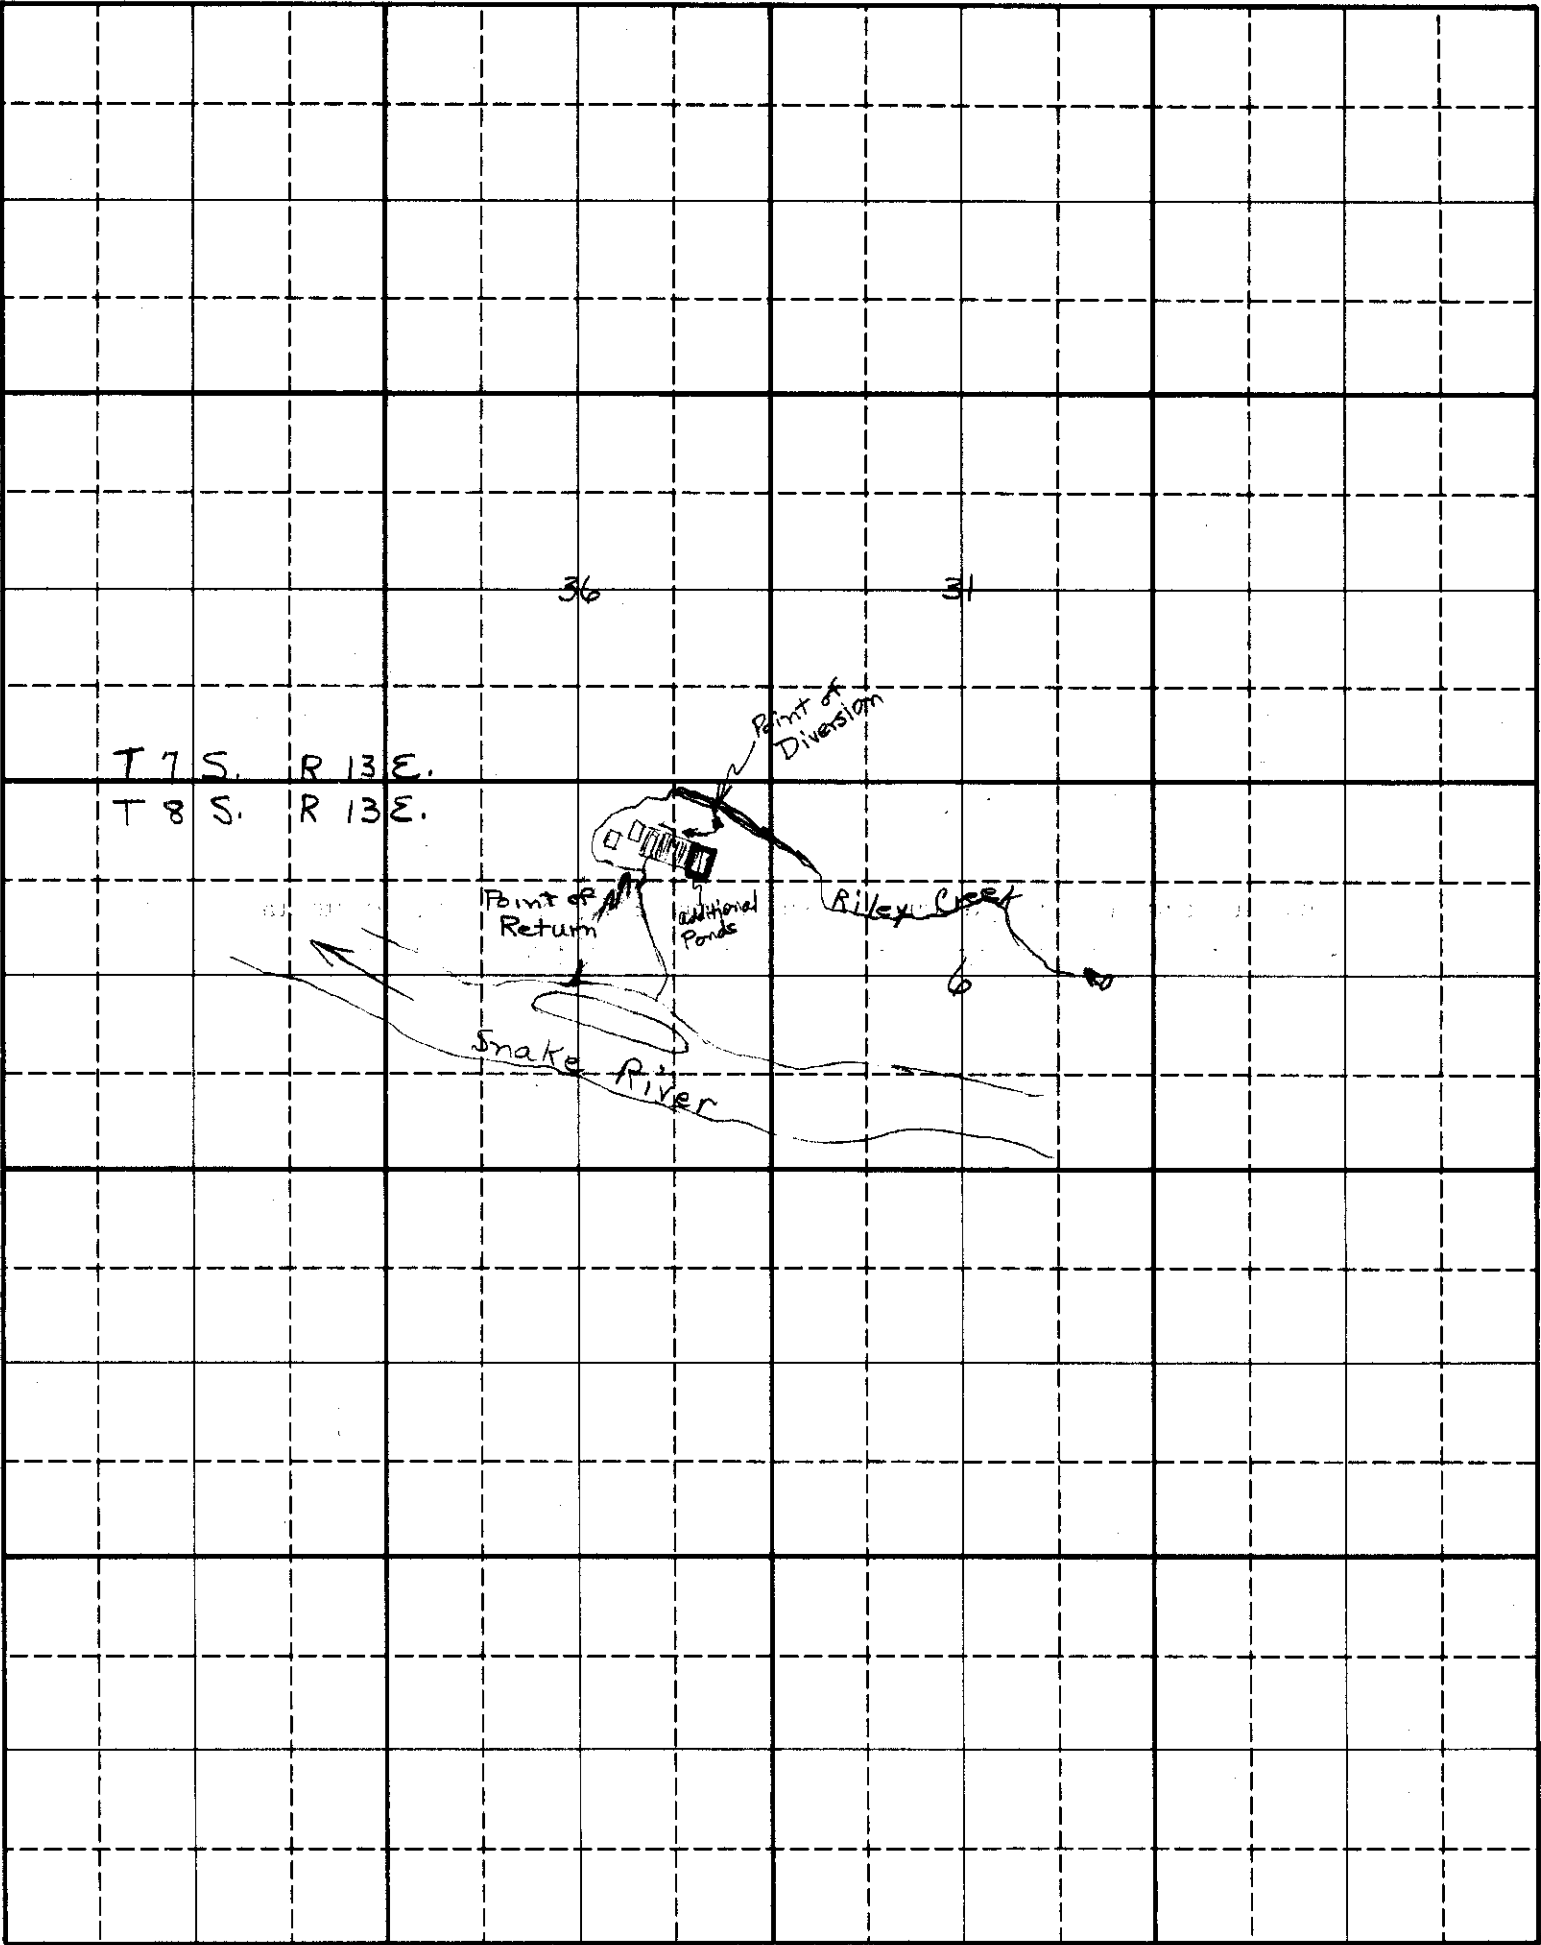

Total number of acres to be irrigated _____

c. Describe any other water rights used for the same purposes Permit #27158 in the amount of 45 cfs

9. a. Who owns the property at the point of diversion State of Idaho, Fish & Game Department
b. Who owns the land to be irrigated or place of use State of Idaho, Fish & Game Department
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks The diversion works presently exist and carries the water of permit #27158 in the amount of 45 cfs to its place of use. The existing diversions works are capable of carrying 75 cfs of water flow. The Department proposes to install additional rearing ponds and increase water diversion from Riley Creek by 24 cfs. The water will be applied to beneficial use in the operation of the new ponds and comingled with waters of existing permits held by the Department for use throughout the Department's Hagerman Fish Cultural complex.

Fish and Game Department
P. O. Box 25, 600 S. Walnut
Boise, Idaho 83707

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

We note that in reviewing this proof affidavit you indicate that you will install a measuring device as required by the conditions of approval of your permit. This measuring device must be installed by the time our examiner makes the exam, or your water rights cannot be confirmed by the issuance of a license.

If you have any questions concerning the field exam, please contact our Southern District Office at 1041 Blue Lakes Blvd., North, Twin Falls, Idaho.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Re: Permit No. 36-7249

State of Idaho, Fish & Game Dept.
600 S. Walnut, Box 25
Boise, Idaho 83707

Gentlemen:

One of the conditions of approval of your water Permit No. 36-7249 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. KEITH HIGGINSON
Director

Gentlemen:

Enclosed is a copy of your approved Application for Permit No. 36-7249. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Very truly yours,

BOBBY D. FLEENOR

Application, Water Permit
Riley Creek #36-7249
Hagerman Fish Hatchery

Mr. Bob Haynes, District Engineer
Department of Water Administration
Southern District
1041 Blue Lakes Boulevard North
Twin Falls, Idaho 83301

Dear Mr. Haynes:

Reference is made to your letter of June 8, 1972 therein requesting additional information on the Fish and Game Department's application to appropriate 24 cfs of the waters of Riley Creek for fish cultural purposes.

Enclosed is a set of plans on the additional hatchery rearing facilities planned for using the waters for which we are applying. Invitations to Bid for construction of facilities have been published and bids received will be opened on July 11, 1972 for letting of the construction contract. It is planned to have the ponds in operation on or before October 1, 1972.

The existing diversion pipeline is 5 feet in diameter. Water is carried in this pipe to an open headrace which is 6 feet 6 inches in width and 4 feet 4 inches in depth. The diversion from the open headrace to the rearing ponds are open gateways through which water flow is regulated by flashboard installation. The outlet pipes from each of the four rearing ponds are to be pipe arch culverts with span diameters of 22 inches and height diameters of 13 inches. These outflow waters are discharged from the pipes into an open headrace, the waters comingle with waters from the other existing ponds and are discharged into Riley Creek.

Each of the four ponds is designed for the stocking and rearing of 250,000 fingerling salmon. The annual planned production is 50,000 pounds of growth per year from each pond. This cycle will be repeated each year. Each pond is designed to operate with a flow of 6 cfs, the amount of water flow considered necessary by the Department's fish cultural personnel for efficient operation of the ponds.

36 7249

Mr. Bob Haynes
June 29, 1972
Page Two

In the matter of adequate measuring devices, the Department plans to install such devices prior to the onset of winter.

Sincerely,

IDAHO FISH AND GAME DEPARTMENT

Re: Application for Permit No. 36-7249

STATE OF IDAHO
Fish & Game Dept.
P. O. Box 25
Boise, Idaho 83707

Gentlemen:

In order to further consider your application for permit, we will require additional information not included with the above referenced application as follows:

1. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size of pipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water requested.
2. A justification, based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.
3. An estimated schedule of construction, giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices both at the point of diversion and the point of return of the water. These devices must be of a type approved by the Department; they can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

We would appreciate receiving this information on or before July 10, 1972. Thank you for your cooperation in this matter.

Sincerely,

Bob Haynes
Water Resource Inv. Adm.
Southern District

Re: Application No. 36-7249 - Fish and Game Dept.

Gooding County Leader
Box 157
Gooding, Idaho 83330

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

" I hereby certify that the foregoing account is just and correct,
that the amount claimed is legally due, after allowing all just
credits, and that no part of the same has been paid. "

(signature of claimant)
