NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Fred Brailsford, Inc. Route 4, Buhl, Idaho has on May 30, 1972 submitted Application No. 36-7248 for a permit to appropriate 20.0 cubic feet per second of water from an unnamed stream, tributary of Snake River by means of existing concrete check in stream conveyed by ditch to raceways within the NE¼SW¼, Sec. 2, T. 9S. R. 14E, B.M., Gooding County to be used from Jan. 1 to Dec. 31 for fish propagation purposes within the NE¼SW¼, Sec. 2, T. 9S, R. 14E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idano Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before June 25, 1972.

WATER RIGHT LICENSE

License of Water Right No. 36-7248 Priority May 30, 1972 Amount 14.94 cfs

THIS IS TO CERTIFY, that MRS. CATHERINE WRIGHT

of Buhl, Idaho, has complied with the terms and conditions of Permit No. 36-7248 issued pursuant to Application for Permit dated May 30, 1972, and has submitted proof to the Department of Water Resources on July 28, 1977, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 14.94 cfs of water from springs, tributary to Snake River, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Fish Propagation	from January 1 to December 31	at 14.94 cfs	and N/A
	from	at cfs	and
	from	at cfs	and

(Month dates inclusive)

Subject, however, to the condition that no more than 14.94 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed N/A acre feet per year, said waters to be diverted within the NE¼SW¼, Sec. 2, Twp. 9S, Rge. 14E, B.M. in the County of Gooding

Description and location of place of use:

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

Total number of acres irrigated _____

CONDITIONS:

Facility volume = 1.72 acre feet

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 8th day of June, 19 81.

APPLICATION FOR AMENDMENT OF A PERMIT

To change the point of diversion and/or the place of use.

Comes now Mrs. Catherine Wright

of (address) Rt. 4, Box 228, Buhl, Idaho 83316 , and represents to the Director of the Idaho Department of Water Resources:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. 36-7248 , and requests that the permit and permit map be changed as follows:

1. Point of diversion: NE ¼ SW ¼, Section 2 , Township 9S , Range 14E , B.M., County of Gooding . Other points of diversion: _____

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

Amount 14.94 (cfs or acre feet per annum) for Fish Propagation purposes from 1-1 to 12-31 (both dates inclusive)

Amount _____ (cfs or acre feet per annum) for _____ purposes from _____ to _____ (both dates inclusive)

Amount _____ (cfs or acre feet per annum) for _____ purposes from _____ to _____ (both dates inclusive)

Amount _____ (cfs or acre feet per annum) for _____ purposes from _____ to _____ (both dates inclusive)

3. Place of use or land to be irrigated:

TWP	RGE	SEC	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
9S	14E	2									X	X							

Total number of acres to be irrigated = _____

4. a. Who owns the property at the point of diversion? _____

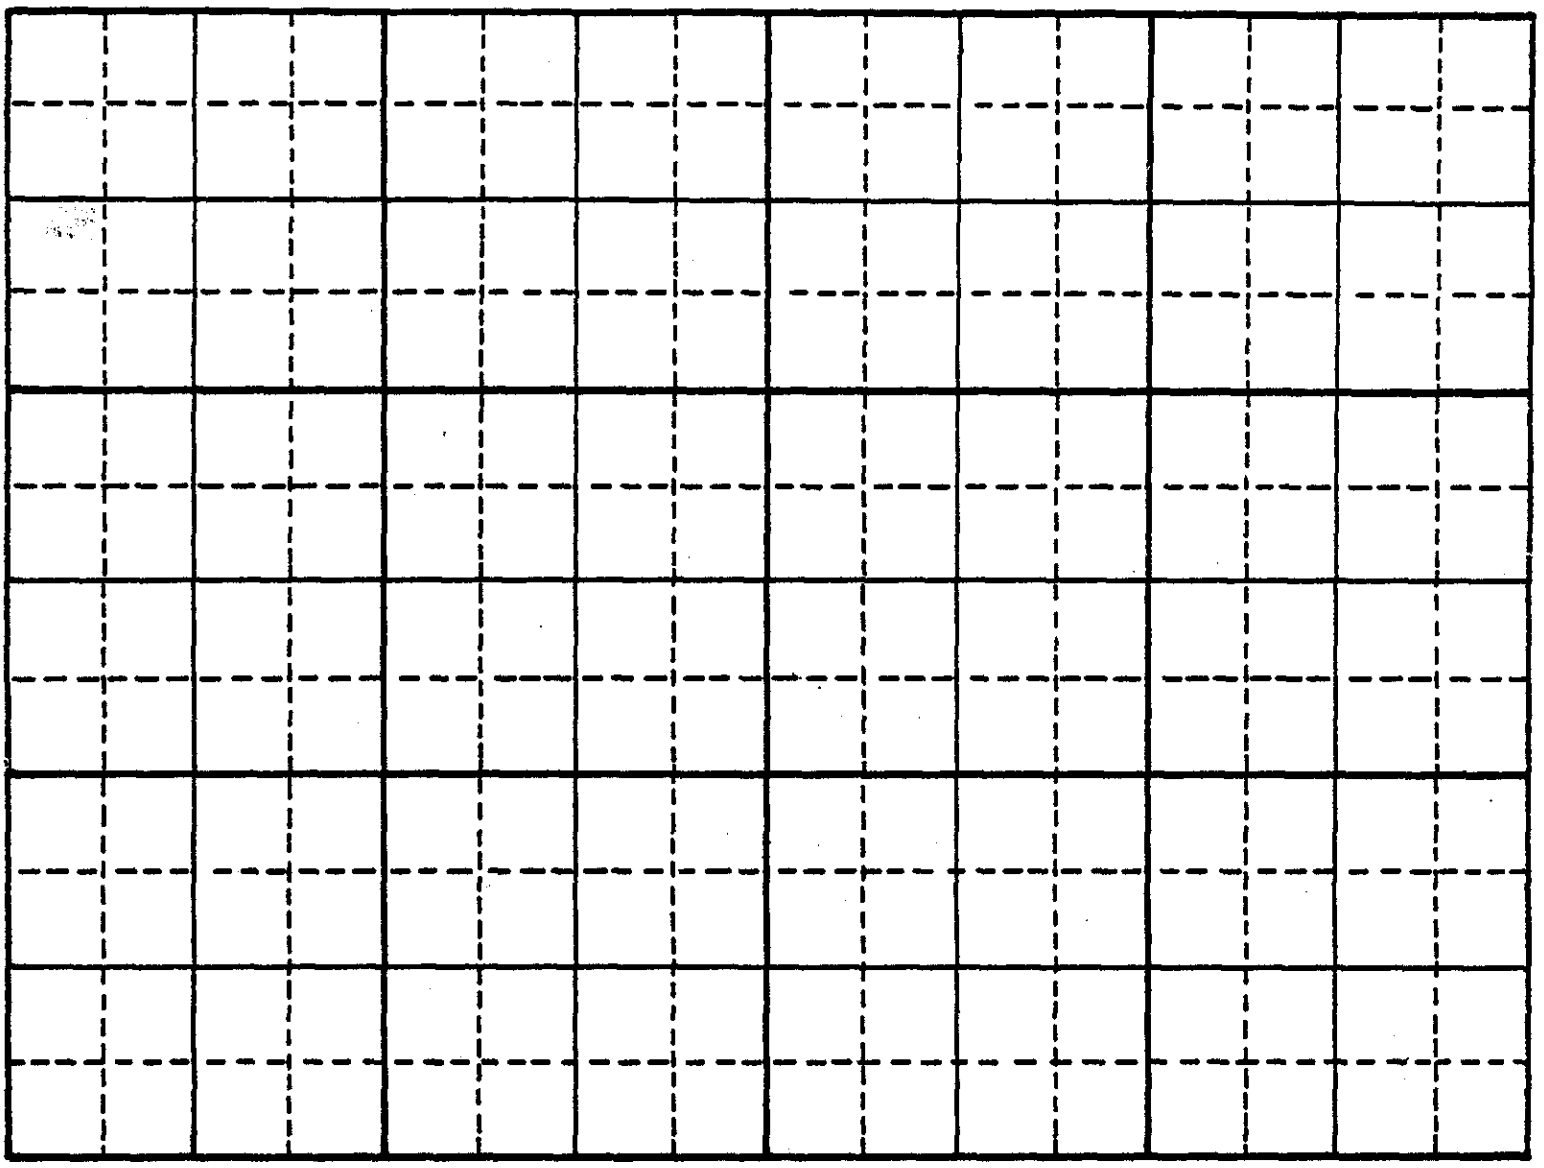

b. Who owns the land to be irrigated or the place of use? _____

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

MICROFILMED

Complete the following map by showing land and point of diversion as proposed by this amendment.

Show 40-acre subdivisions, townships, ranges and ditches.

Scale: 2 inches equal 1 mile.

That no one will be injured by such change, and that such change will be made at permit holder's own risk.

Signed at Buhl, Idaho, this 5 day of May, 19 81.

2. Source of water supply unnamed stream per John Roshott 6-2-72 RJH form Kanaka Creek which is a tributary of Snake River
   Flow from springs which /

3. a. Location of point of diversion is NE ¼ of SW ¼ of Section 2 Township 9 S. Range 14 E. B.M. Gooding County; additional points of diversion if any: _____

   b. If water is not consumed, it will be discharged into Kanaka Creek and Clear Lakes system at a point in NE ¼ of SW ¼ of Section 2 Township 9 S. Range 14 E. B.M. Gooding County

4. Water will be used for the following purposes:

   Amount 20.0 (cfs or acre-feet per annum) for fish prop. purpose from Jan. 1 to Dec. 31 (both dates inclusive)

   Amount _____ (cfs or acre-feet per annum) for _____ purpose from _____ to _____ (both dates inclusive)

   Amount _____ (cfs or acre-feet per annum) for _____ purpose from _____ to _____ (both dates inclusive)

5. Total quantity to be appropriated:

   a. 20 cubic feet per second and/or

   b. _____ acre feet per annum.

6. Proposed diverting works:

   a. Description of ditches, flumes, pumps, headgates, etc. concrete check in stream per John Roshott 6-2-72 RJH Diversion works will remain the same. Water will flow through raceways prior to use for irrigation and stock water.

   b. Height of storage dam _____ feet, active reservoir capacity _____ acre feet; total reservoir capacity _____ acre feet, materials used in storage dam: _____

   Period of year during which storage will occur _____ (Mo. Day) to _____ (Mo. Day) inclusive.

   c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. a. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years.

   b. Estimated construction cost is $ 5,000.00 .

8. Description of proposed uses:

   a. If water is **not** for irrigation:

   (1) Give the place of use of water: NE ¼ of SW ¼ of Section 2 Township 9 S. Range 14 E. B.M.

   (2) Amount of power to be generated: _____ hp under _____ feet of head.

   (3) List number of each kind of livestock to be watered _____

   (4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

   (5) If water is to be used for other purposes describe: Fish propagation through use in raceways prior to applicant's use under other rights.

36 7248

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	

Total number of acres to be irrigated _____

c. Describe any other water rights used for the same purposes None

9. a. Who owns the property at the point of diversion Fred Brailsford, Inc.

b. Who owns the land to be irrigated or place of use Fred Brailsford, Inc.

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

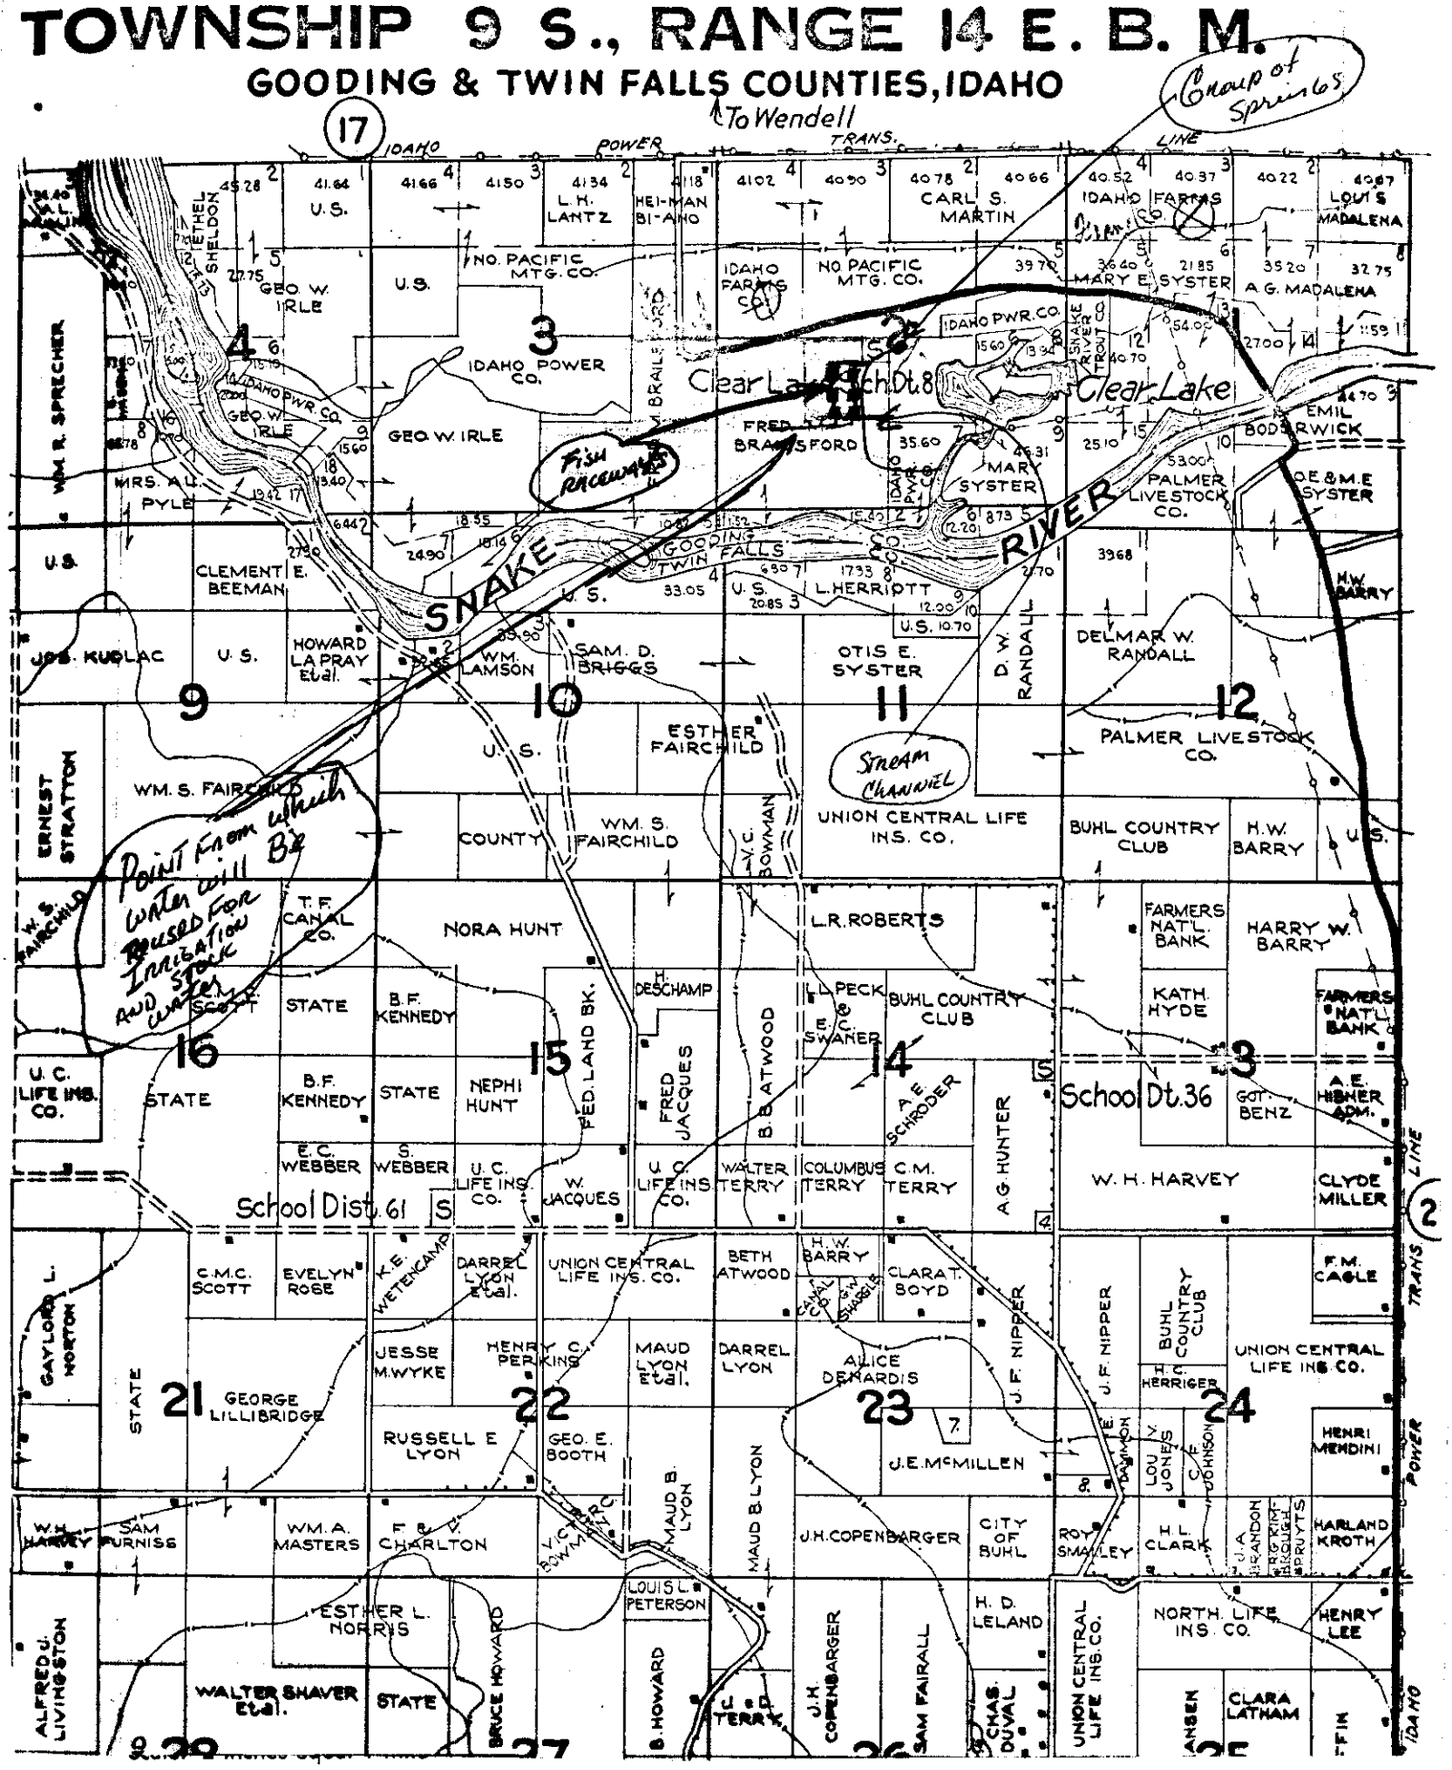

10. Remarks Water arises from springs in NW 1/4 SE 1/4 and in SW 1/4 NE 1/4 of Sec. 2, T. 9 S., R. 14 E.B.M. (locally known as Kanaka Springs) and has traditionally flowed in channel through applicant's property to the West. Applicant and his predecessors have always diverted all of the water which has flowed to the West and beneficially used it. A claim to said water has been filed simultaneously herewith. The ponds proposed can be serviced on a year-round basis and the water then used for applicant's consumptive purposes.

Buhl, Idaho 83316

Dear Mrs. Wright,

A representative of this Department made an examination of the works covered by your Permit No. 36-7248 on October 9, 1979, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 14.94 cfs Source: spring

The maximum quantity diverted shall not exceed N/A acre feet per year.

Point of diversion: NE¼SW¼, Sec. 2, Twp. 9S, Rge. 14E, B.M.

Beneficial use: Fish propagation within the N½SW¼, Sec. 2, Twp. 9S, Rge. 14E.

Priority date established: May 30, 1972

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a $20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

CONDITION: Facility volume = 1.72 acre feet

CONVERSATION MEMORANDUM

DATE 5-29-81

FILE 36-7248

NAME OF PARTY Gary Funderburg

EMPLOYEE Jim Johnson ✓ DCT

RE: Waiver of Measuring Device

A call was made to Gary Funderburg this morning to discuss the water use under permit No. 36-7248.

Gary recommended that the measuring device be removed bacause of the close location of the ponds to the Snake River. The permit holder owns all of the land between source and the River. There are no other users on this source. The measurements made by C.E.Brockway are adequate for licensing and there appears to be no need for measuring devices for proper regulation of this water.

Re: Proof of Beneficial Use - Mr. Gary Wright

Dear Gary:

On September 20, 1979 I inspected the inlet structure and weir for the fish ponds on Mr. Wright's property (Clear Lakes Ranch). The 5 foot contracted rectangular weir was flowing submerged due to insufficient capacity in the two CMP culverts used to convey water to the fish ponds. Previous inspections indicate the weir is submerged above a staff gage reading of approximately 0.8' (11.5 cfs).

The velocity of flow through the weir section was measured with a propellor type (OTT) current meter using a 0.4d method assuming the velocity profile approaches a parabolic configuration over the weir. This procedure is not as accurate as a current meter measurement in a defined channel, however, no other suitable location, at the outlet or otherwise was available. The measurement at the weir was 14.52 cfs which I believe to be reasonable. At the time of the measurement the overflow from the upper pond was operating with an estimated flow of 0.2 cfs.

A second current meter measurement was made in the stream at the farm bridge downstream of the first set of ponds and the small spring entering from the west. The stream at this point contains all flow through the first pond set, the overflow from the inlet pond and the spring flow. Because of dense growth, the small flow in the stream conveying the spring water to the main stream was not measured. The current meter measurement on the downstream side of the farm bridge was 14.94 cfs. Except for a small amount of water going into the irrigation ditch below the bridge, all of the measured water was flowing through the second set of ponds.

Sincerely,

C E Brockway

C. E. Brockway, P.E.

Re: Permit No. 36-7248

Mrs. Catherine Wright
Route 4, Box 417
Buhl, Idaho 83316

Dear Mrs. Wright:

We acknowledge receipt of the assignment conveying the above referenced permit to you. The assignment has been entered into the Department's records.

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Twin Falls.

Sincerely,

JANICE RENK
Water Rights

Identification No. _____

Permit No. 36-7248

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Fred Brailsford Inc (assigned to Catherine Wright as heir of Mr. Brailsford's estate per letter of 7/6/77 of Mr. C. Stephen Allred)

   b) Post Office Address ~~Route 4 P.O. Box. 228 Buhl, Idaho 83316~~

2. Permit Number 36-7248

3. Date of Priority that you are prepared to establish May 1, 1977

4. a) Source from which water was appropriated flow from springs which form kanaka creek

   b) Location of the point of diversion: NE ¼ SW ¼, Section 2

   Township 9S, Range 14E Boise Meridian, Other points of diversion: _____

5. a) The amount of water and use to which the water has been applied:

   Amount 20 CFS for Fish Propagation purposes from Jan 1 to Dec 31 incl.
   (cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

   Amount _____ for _____ purposes from _____ to _____ incl.
   (cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

   Amount _____ for _____ purposes from _____ to _____ incl.
   (cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

   b) Total amount appropriated 20 CFS cfs and/or acre-feet per annum

   c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: 6/29/72 utilizing a Gurley current meter, standard practices by R. Gary Wright Zoologist, Rancher & J. David Erickson, Fishery Biologist.

6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:

   a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use:

   b) Describe the agreement or understanding by which you take water from the works:

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) Surface water diversion utilizing a 24" gate valve and a small earthen dam. Water is then conveyed through two 16" circular steel pipes into ~~a series of trout ponds situated in series of two ponds per pipe. Diversion located entirely on permit holders property.~~

   b) Describe the type and size of measuring device which you have installed at your point of diversion: See item (10).. Entire surface water is diverted into fish ponds by means of the earthen dam and subject weir is therefore installed at point of total discharge. Note detailed ~~draft of "sharp-crested weir" being installed to measure and moniter discharge.~~

   c) Give well driller's name and address and the date the well was completed:

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use: Fish propagation through use in raceways prior to permit holders use under other rights per section (10).

Examined 8/8/77

9. Irrigation uses: describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision: _____

T	R	SEC.	NE¼ NE¼ NW¼ SW¼ SE¼	NW¼ NE¼ NW¼ SW¼ SE¼	SW¼ NE¼ NW¼ SW¼ SE¼	SE¼ NE¼ NW¼ SW¼ SE¼	TOTAL

Total number of acres irrigated _____

10. Remarks: water arises from aprings in NW¼ SE¼ and in SW¼ NE¼ of Sec 2, T.9S, R.14E. B.M. (locally known as Kanaka Springs) and has traditionally flowed through applicants property to the west. Applicant and his predecessors have always diverted all of the water which has flowed to the west and benefically used same. The ponds constructed can be serviced on a year round basis and the water then used for applicants consumptive purposes, as to water rights made under provisions of sec 42-225 (a) Idaho Code, claiming priority of April 15, 1927.

The above information is a true statement of the extent to which the above numbered permit has been developed.

Re: Idaho Permit No. 36-7248

Dear Mr. Allred:

This is a follow-up to our telephone conversation this morning in which I advised you that the above permit is in the name of Fred Brailsford, Inc., an Idaho corporation, and Mr. Mike Steele of your Twin Falls office advises me that the permit cannot be assigned without the consent of the Director of the Idaho Department of Water Resources.

Fred Brailford, Inc. desires to assign all of its right, title and interest in the permit to Mrs. Catherine Wright, Route #4, Box 417, Buhl, Idaho, 83316.

Fred Brailsford and his widow, Bernadette Brailsford, are both deceased, and the Corporation, Fred Brailsford, Inc., is among the assets of the estate. The estates are being distributed among the three children of Mr. and Mrs. Brailsford whose names are Frederick G. Brailsford, Catherine (Brailsford) Wright, and Beatrice Brailsford.

In the distribution of the Fred Brailsford Estate and the Bernadette Brailsford Estate, Catherine Wright is receiving the farm in Hagerman Valley to which the permit for the propagation of fish is attached.

It would be most appreciated if we could receive your consent to the transfer of the permit. In order to keep Mike Steele advised, I am sending him a copy of this letter.

Sincerely,

C. G. McINTYRE

Re: Permit No. 36-7248

Fred Brailsford, Inc.
Route 4
Buhl, Idaho 83316

Dear Mr. Brailsford:

One of the conditions of approval of your water Permit No. 36-7248 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

C. STEPHEN ALLRED
Director

CSA:jfr

Enc: Proof affidavit

Buhl, Idaho 83316

Dear Mr. Brailsford:

Enclosed is a copy of your approved Application for Permit No. 36-7248 . We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Very truly yours,

BOBBY D. FLEENOR
Assistant Director

Re: Application for Permit No. 36-7248 - Fred Brailsford, Inc.

Dear Mr. Haynes:

We are pleased to have the opportunity of commending to you, Mr. Fred Brailsford, who is major stockholder in Fred Brailsford, Inc. He has been long known to the undersigned as a man of high integrity and financial responsibility. There would be no question in our minds with regard to his ability to complete the above captioned project.

With the hope this will be sufficient to your need, I remain,

Yours sincerely,

Curtis T. Eaton

Buhl, Idaho 83316

Dear Mr. Brailsford:

We are in receipt of your letter of June 30 concerning information which we requested from you on your Application for Permit No. 36-7248.

Your reply sufficiently answers the last three questions that we asked. However, we are still in need of a letter from a financial institution indicating that you are financially able to complete the project as described in the application. We do not wish a financial statement, just some assurance from a reputable financial institution as to your ability to complete the project.

We would appreciate your prompt attention to this matter so that we may complete action on your Application for Permit.

If we can be of any assistance to you, please contact us.

Very truly yours,

Bob Haynes
District Engineer
Southern District

RECEIVED
JUL 3 1972
Department of Water Administration

Mr. Bob Haynes
Water Resource Inc. Adm.
State of Idaho Dept. of Water Administration
Statehouse - Annex 2
Boise, Idaho 83707

Dear Mr. Haynes:

Re: Application No. 36-7248 - Fred Brailsford, Inc.

Enclosed please find a copy of the primary layout of the proposed hatchery reference the above mentioned application. This "Primary" design should be considered preliminary in design, as per your request of June 5th.

On June 29th, under the direction of Mr. David Erickson, Fishery Biologist of the 1000 Springs Trout Company, the proposed location and water source was surveyed. An accurate measurement of the water to be used was made in accordance with standard practices, using a Gurley Current Meter. The total water flow was determined to be 15 cubic feet of water per second.

Information gathered from other commercial hatcheries with similiar facilities located in the same general area and using basically the same quality of water from area springs, indicates a water exchange of two per hour (without artificial re-conditioning) would be ideal. Therefore, the raceway sizes proposed have been designed to incorporate this "ideal" exchange rate. Two raceways with a capacity of 13500 cubic feet each, (as designed) would yield a complete exchange of water every 30 minutes. Information indicates that such a water source, coupled with proper layout, feeding and management can potentially produce 100,000 plus pounds of Rainbow Trout per year.

This primary design utilizes the entire water supply within two earthen raceways and does not incorporate any re-use of the water. Future expansion programs call for the re-use of this water after sufficient re-conditioning, into a series of additional production raceways. These additional raceways could be constructed in the areas indicated on the draft.

A standard contracted rectangular weir will be utilized at both points of diversion and discharge. This weir is designed to handle 6700 plus gallons per minute and is detailed on the enclosed draft. This weir will also be used to monitor the water flow on a regular basis.

The proposed raceways will be constructed of native earth, with concrete head and tailway checks. Full construction and operation of the facility should fall well within the prescribed legal time limits of the water application, within 5 years of the date of issuance of the required permit.

Sincerely,

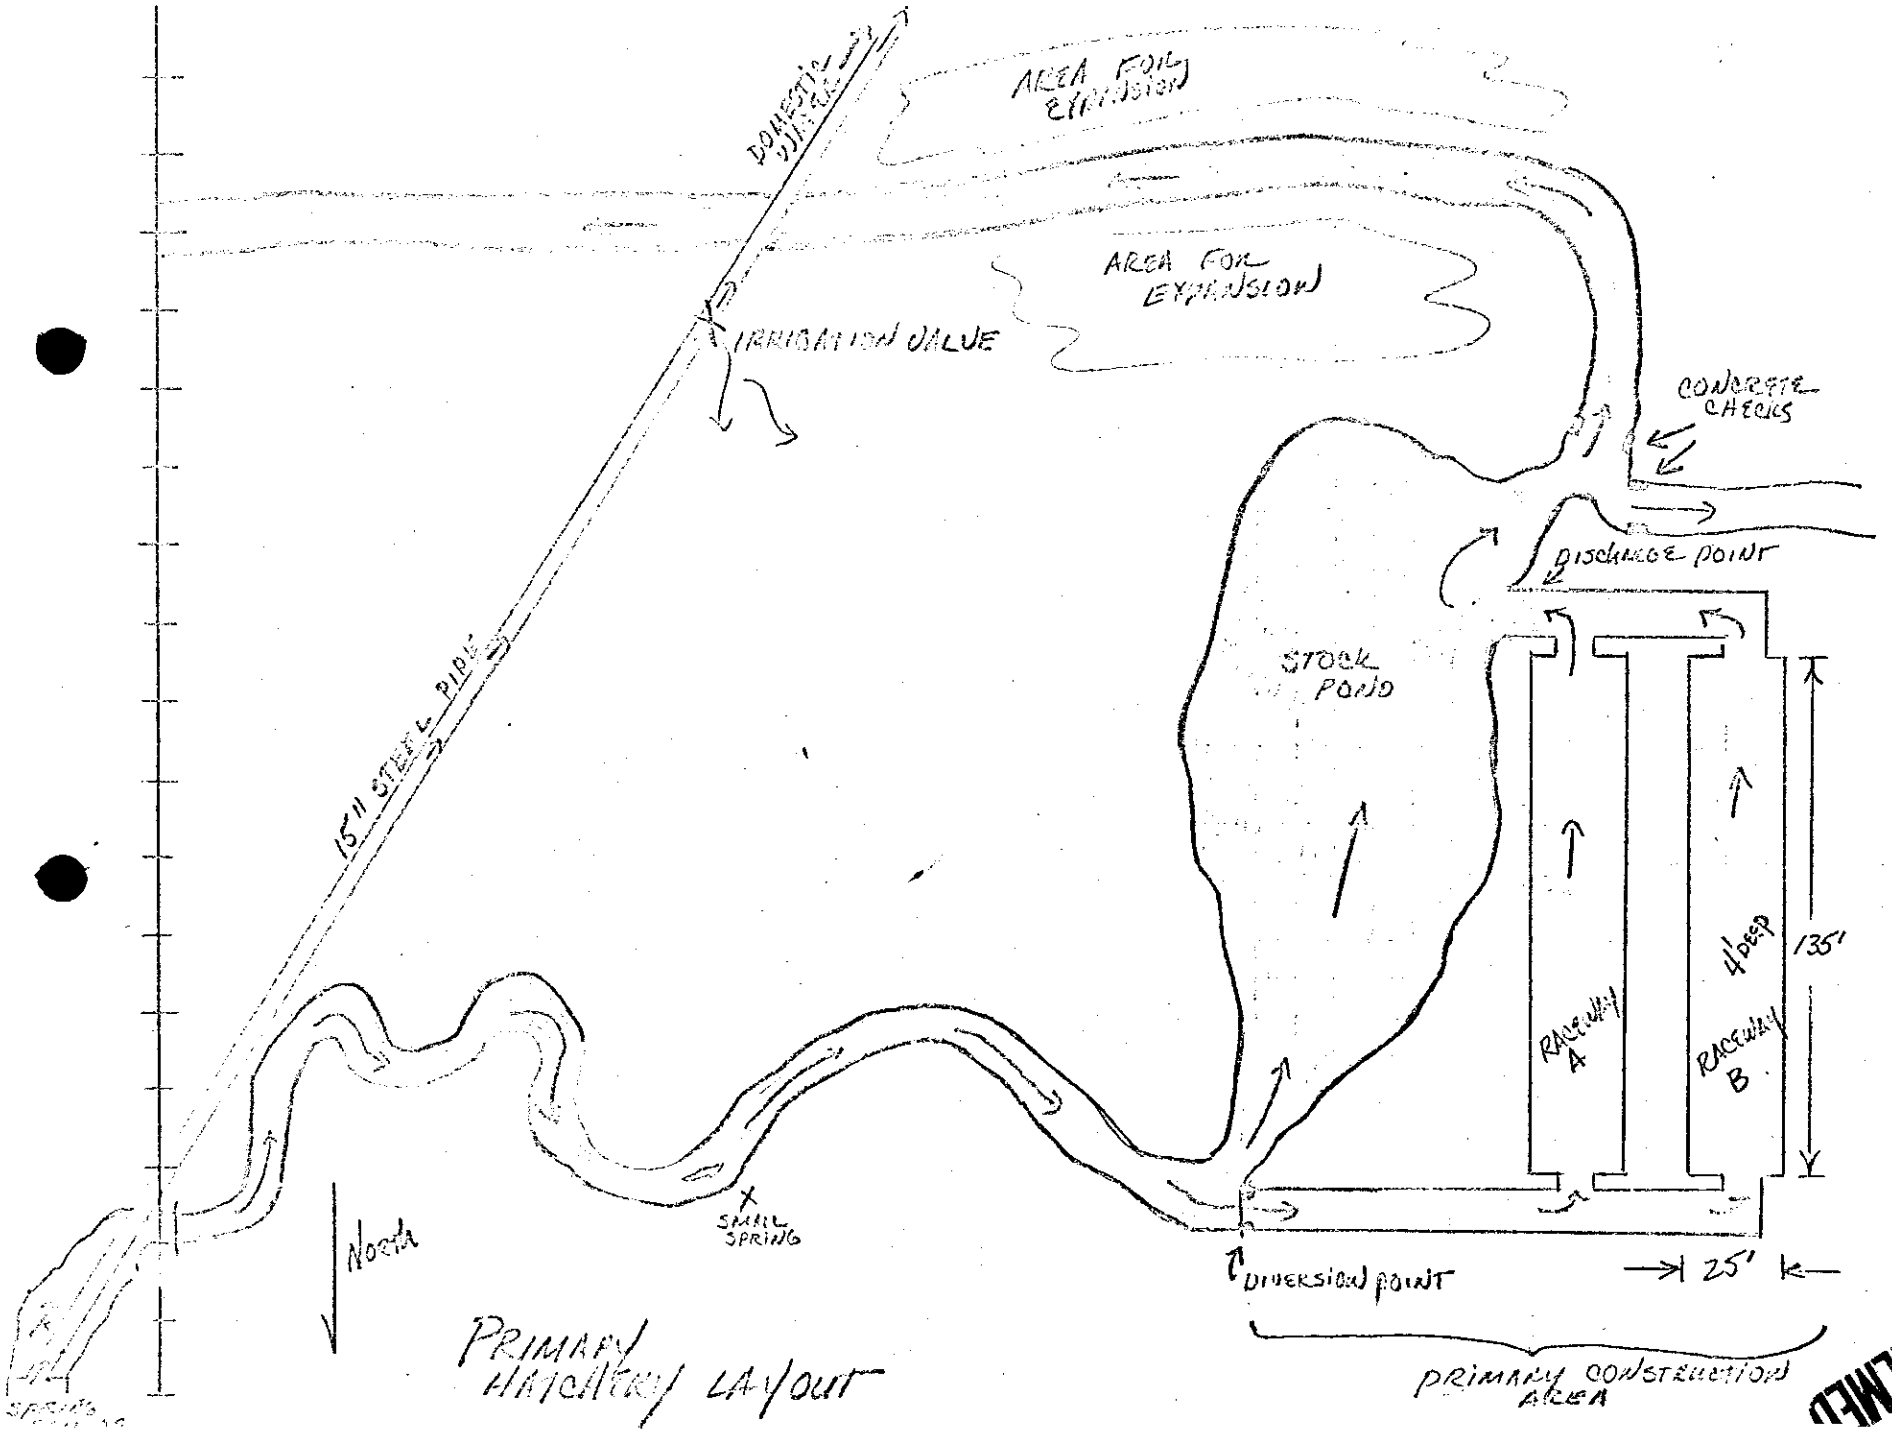

F. M. Brailsford

Gentlemen:

In order to further consider your application for permit, we will require additional information not included with the above referenced application as follows:

1. A letter from a financial institution showing that you are financially able to complete the project as described in the application. (See Section 43-203 of the Idaho Code)

2. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size ofopipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water requested.

3. A justification, based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.

4. An estimated schedule of construction, giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

36 7248

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices both at the point of diversion and the point of return of the water. These devices must be of a type approved by the Department; they can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

We would appreciate receiving this information on or before July 5, 1972. Thank your for your cooperation in this matter.

Sincerely,

Bob Haynes

Gooding County Leader
Box 56
Gooding, Idaho 83330

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

> " I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Fred Brailsford, Inc.

Route #4, Buhl, Idaho

has on May 30, 1972 submitted Application No. 36-7248

for a permit to appropriate 20.0 cubic feet per second ~~xxxx xxxx xxx xxxxxx~~

of water from an unnamed stream, tributary of Snake River

by means of existing concrete check in stream conveyed by ditch to raceways

within the NE¼SW¼, Sec. 2, T. 9S, R. 14E, B.M., Gooding County

to be used from Jan. 1 to Dec. 31

for fish propagation purposes

within the NE¼SW¼, Sec. 2, T. 9S, R. 14E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before June 25, 1972.
