Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 36-7063 and has found the following:

Quantity of water diverted: 0.27 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.08 cfs

The maximum quantity diverted shall not exceed 16 acre feet per season.

Beneficial use: Irrigation of 4 acres within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15,
Twp. 10 S, Rge. 23 E, B.M.

Point of diversion: Same as above.

The priority date established is: May 8, 1969

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

You should be aware that any ground water development after March 25, 1963, must be by means of a valid permit. Our records fail to indicate that you have a right to irrigate the additional one acre our field examiner found that you are irrigating from this well. We are enclosing a partially completed application for permit which, if approved, would allow you to irrigate the entire five acres at a rate of diversion based on the output of your system. If you have any questions concerning this matter, please contact us.

Re: Permit No. 36-7227

Dear Mr. Fleenor

We have been trying to see if we could get the exact date of when the well was completed for the Cemetery District for several months now.

Mr. Raymond Commons who was the well driller has been retired now for a number of years and have been trying to locate his old log book. The information we have is that the well was completed in the Spring of 1967 and put into immediate use and has been in constant use ever since said date, but we are unable to locate exact date in the Spring of 67 that the well was completed.

We greatly appreciate your advise if you can accept this as the date of completion.

Yours very truly

Gentlemen:

One of the conditions of approval of your water Permit No. 36-7227 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(signature of claimant)

Very truly yours,

Fred Eisenbarth
Appropriation Examiner
