Re: Permit No. 36-7216

George B. Brandon
Hazelton, Idaho 83335

Dear Mr. Brandon:

A representative of this Department has made an examination of the works covered by your Permit No. 36-7216 and has found the following:

Quantity of water diverted: 5.01 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 4.0 cfs

The maximum quantity diverted shall not exceed 836 acre feet per year.

Beneficial use: For irrigation of 209 acres within the WSW, Sec. 27, Twp. 8 S, Rge. 22 E

Point of diversion: SW 1/4 & SE 1/4, Sec. 27, Twp. 8 S, Rge. 22 E, B.M.

Priority date established: January 5, 1972

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Our field examination also indicates that your rate of diversion exceeds that authorized by your permit. Unless you have another valid permit for other grounds to be irrigated from this same well or other beneficial uses of this water, you must reduce your rate of diversion to that allowed by law. If you have any questions regarding this matter, please contact us.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Higginson:

Enclosed please find the following:

1. Proof of permit G-33411
2. Application for permit in the name of George B. Brandon for 4 cfs.
3. Power of Attorney naming Joseph J. Thackaberry.
4. Check in the amount of \$55.00 to cover filing fee for 4 cfs.

The application for permit is on a well that is already drilled and has been in use for some time. Immediately upon the approval of this permit, Mr. Brandon wishes to make proof of beneficial use.

It is our understanding that you have another permit of Mr. Brandon's (36-7044) which will have to be re-examined in the field this spring. All three of these wells are included in a loan application and it is very important to Mr. Brandon that they be licensed as quickly as possible.

We will make every effort to have the proof of the new permit (application being filed herewith) filed with your office early enough this spring so that you might examine all wells under permits 36-7044, G-33411, and the new permit at the same time.

Very truly yours,

IDAHO LAND & APPRAISAL SERVICE

Joseph J. Thackaberry
