Gentlemen:

One of the conditions of approval of your water Permit No. 36-7215 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

In regards to the application for 1.8 cubic feet per second water. License No 77-2218 (G 21908). I am quite anxious to get that permit. For it is holding up our Loan.

I would much rather get that than the $30.00 refund. See letter Jan 14-72 by Mr Bobby D. Reeves. Permit No 36-7215.

Gentlemen:

We received your January 10th letter requesting a refund on a portion of your filing fee.

Under most circumstances this fee is not refundable. However, after reviewing your application, it appears that your intent was to appropriate only an additional 1.80 cubic feet per second of water even though the amount entered on line 4 of the application was 4.24 c.f.s. Therefore, we will refund the additional $30.00 which you sent at our request.

Prior to the issuance of a State Warrant, it is required that you submit a signed Miscellaneous Expenditure Voucher, DA-8. Enclosed is a DA-8 form, please sign it where indicated by the red "x" and return it to this office. Payment will be made promptly.

We are sorry for any inconvenience caused by this misunderstanding.

Sincerely,

Dear Mr James Bookes

In regards to Jan 7-72 letter
The 180 cubic feet per second. Was what we had intended to apply for. With a total of 4.24 cu ft. Witch would be for the 212 acres.
The irrigation season from Mar. 15 to Nov. 15 is fine with us.
And in your letter Dec 28-71
Was improper then too for the 4.24 cu ft. fee of $65.00 Witch should have been 180 cu ft.
Witch I did not catch when I sent the extry $30.00. Should we have a refund?

Yours Very Truly.

Mr. S. S. Reinke

Dear Mr. Reinke:

During the processing of your application for permit, we have come upon some problems that you might be able to help us with.

Since 160 acres of the land listed on your application has already been licensed for 2.44 cubic feet per second under License No. 77-2218 (G021908), the maximum amount of water that we can approve your new application for permit for, would be a total of 1.80 cubic feet per second. This would equal one miners inch per acre, when combined with your other rights. If you have any objections to this application for 1.80 cubic feet per second, please advise. The total appropriation in this manner would be 4.24 cubic feet per second.

You have listed your irrigation season as being from April 1 to October 15. Our studies indicate that the maximum irrigation season in the area of your application is from March 15 to November 15. At some point in time, someone may want to use water within the longer season. Please advise us if this will be exceptable to change.

If we can be of any further assistance in this matter, please feel free to contact this Department.
