RE: Water Rights in Reporting Area 3, Basin 36
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources supplemental recommendations for your water right(s) in basin 36 (the area north of the Snake River from near Lake Walcott on the east to near Hagerman on the west). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area.

In response to the Idaho Supreme Court's decision in Basin-wide Issue 5 after most water rights in Basin 36 had been decreed, the SRBA Court requested me to file supplemental reports for Basin 36 regarding the period of use for irrigation water uses and general provisions applying to all water rights in Basin 36. The enclosed documents fulfill that request. The general provision enclosed is in addition to those already adopted by the Court.

Note you have just over 30 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Hailey, Arco, Jerome, Rupert, Gooding, and Shoshone and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

RE: Water Rights 36-07109/36-07292/36-08264

Dear Water Right Holder(s):

The Department is in receipt of the correspondence changing ownership of the above referenced decreed water right to you. We have modified our records to reflect this change in ownership and a computer generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Sincerely,

RE: Snake River Basin Adjudication (SRBA)
Notices of Claim #36-07292, 36-07109 and 47-07069

Dear Claimant:

The letter sent to you earlier today contained a couple of errors. Water right 47-07069 was entered in the subject line as 36-07069 instead of 47-07069. This right was renumbered to 36-08264 and recommended in the SRBA under that number. Secondly, our records reflect Circle 4 Cattle Co. Inc. as current owner; therefore, it is not necessary to submit the SF3 sent to you in our earlier letter.

We apologize for our error and any confusion it may have caused you. Please contact me if you have any questions.

Sincerely,

Carter Fritschle

SUBJECT: ???? ON AJ CLAIMS AND WATER RIGHT LICENSES
phone call (X) walk-in (.)

He called and was confused about how his claims were recommended in the Director's Report. Said that the numbers that were combined in the "Remarks" didn't match the numbers of the Licenses he had. Did some research and two of the numbers he had (36-08468 and 36-08417) are Permits with the proof due in 1990, therefore not required to be filed in the adjudication. The other License he questioned was 36-08264 which was licensed under France, Inc. Said this was his brother and he bought the property from him some years back. He also questioned why he didn't have a License for 36-11090? Told him that was a Beneficial Use claim, not based on a License. Seemed to have his questions answered but intended to do a little more research to try and determine which well went with which License and would call me back if he had any more questions...

RE: Reduction in acres irrigated & history of # of cattle watered.

DATE 4/15/92

NAME OF PARTY

Reed Crozier, Manager of Circle K Cattle Co.
324-2277

Mr. Crozier returned my call and we discussed the history of the # of cattle watered. Regarding the original well he indicated it originally served 1 house & no more than 40 head of cattle. Regarding the lic 36-7109 & 36-7292 he indicated that the reduction in irrigated acres occurred around 1981 to that which is presently watered. At that time they went from irrigation of 30 acres to irrigation of 14 acres and they increased waterings of cattle from 2000 to 6000 cattle in the feed lot.

Volume for 4000 range = $4000 \times 0.0134 = 53.6 \text{ AfL}$

Volume for 16 acres = $16 \times 4 = 64.0 \text{ AfL}$

$\therefore$ Apparus change in nature of use OK,

RE: Amendment of Claims

We discussed the water rights as related to the adjudication claims A36-07109, A36-07292, and A36-08264 and the need to amend the claims so that they reflect the actual, present uses of the Water right Licenses. This is because the 3 wells are presently interconnected to jointly supply water for the Domestic and stock uses, and the irrigation well can also be used for these uses in an emergency.

Mr. France stated the Horse power ratings on the pumps for the 3 wells was

Well #2 - 7.5 HP (Original Well) 4 in pit
Well #3 - 5 HP (Stockwater Well) submersible
Well #4 - 15 HP (Stockwater Well) submersible
Well #1 - 20 HP (Irrigation Well)

Mr. France signed the 3 amended claims A36-07109, A36-07292, + A36-08264 and told me he would mail his notarized⁶ statement to use as evidence of priority for claim A36-11090

RE: Clarification of Adj. Claims 36-07109, 36-07292, 36-08264 + 36-111

Mr Crozier explained that Well #2 (on the enclosed, enlarged aerial photo map of the property) is the original well and, together with permit 36-08417, serves 2 homes in the SE, SW, SW ~~and~~ (LT 4) and 5 homes and other buildings in the SE, SW of Sec 31, T8S, R16E. It is interconnected with Wells #3 + #4 for stock water. Well #1 is the irrigation well to irrigate 14 ac of pasture but it can also be connected to the system of Wells 2, 3, + 4 for an emergency water supply to the feed lot pens and the houses and buildings.

Wells 3, and 4 are the main source of water for the feed lot pens in the NE $\frac{1}{4}$, SW $\frac{1}{4}$, the NW $\frac{1}{4}$, SW $\frac{1}{4}$, the SE $\frac{1}{4}$, SW $\frac{1}{4}$, and the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 31, T8S, R16E. These pens can accommodate up to 10,000 head of feeder cattle.

There are only 14 acres of irrigated land on the property covered by these claims. This has been claimed under 36-07109 with a 1969 priority.

Sixteen of the 30 acres of formerly irrigated lands under that license are now occupied by the feed lot operations. The 14 acres licensed by 36-07292 for irrigation are now irrigated under 36-07109 and the diverted water is used as part of the stock water supply.

Dear Mr. Higginson:

I wish to request an extension of time to complete the drilling of a well - permit no. 36-7109. I have been somewhat short of funds and up to this point the need for the well has not been too great. At the time of my application for a permit these two factors were not evident.

However, I am now in a much better financial position and there will be a real need for this well this summer and a continuing need from then on. If I am granted this time extension, I plan to start drilling of the well in about 60 days and to have the work completed by June 15, 1972. To be on the safe side I would like to have the time extended at least to July 15, 1972.

I appreciate your consideration of this request.

Gentlemen:

One of the conditions of approval of your water Permit No. 36-7109 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
