Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney

License of Water Right No. 36-7093 Priority Nov. 17, 1969 Amount 0.30 cfs

THIS IS TO CERTIFY, that HARLEY FORTNER
of Twin Falls, Idaho, has complied with the terms and conditions of Permit
No. 36-7093 issued pursuant to Application for Permit dated November 17, 1969,
and has submitted proof to the Department of Water Resources on October 21, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.7 cfs of water from waste water
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

IN THE MATTER OF REMOVAL OF THE MEASURING
DEVICE REQUIREMENTS FOR PERMIT NO'S. 36-7093,
36-7141 and 36-7144 in the name of Harley Fortner

ORDER

WHEREAS, Harley Fortner applied for three applications for permit from the Department of Water Resources (formerly the Department of Water Administration) to appropriate (Permit No. 36-7093) 0.30 cubic feet per second of wastewater, tributary to the Snake River, to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 8, Twp. 10S, Rge. 20E, B.M., Jerome County, and (Permit No. 36-7141) 0.40 cubic feet per second of wastewater, tributary to the Snake River, to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 8, Twp. 10S, Rge. 20E, B.M., Jerome County, and (Permit No. 36-7144) 0.80 cubic feet from wastewater, tributary to the Snake River, to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 8, Twp. 10S, Rge. 20E, B.M., Jerome County, to be used for irrigation purposes; and,

WHEREAS, the Department approved said applications and issued Permit No's. 36-7093, 36-7141 and 36-7144 with the conditions that proof of construction of works and application of water to beneficial use be submitted to the Department on or before December 1, 1974, January 1, 1975, and January 1, 1976 respectively, and that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works on all three permits; and,

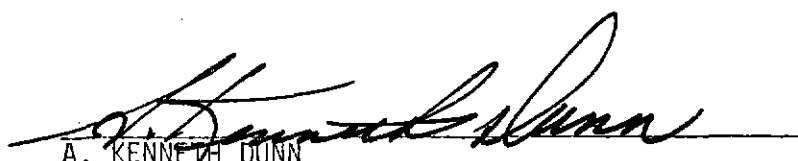

WHEREAS, the Department received the required proofs of construction of works and applications of the water to beneficial use; and,

WHEREAS, on September 9, 1975, the Department received a request that the measuring device requirements be removed from said permits; and,

WHEREAS, it has been determined by the Department that a measuring device is not required at this time for a determination of the quantity of water appropriated under said permits;

IT IS, THEREFORE, HEREBY ORDERED that the condition of approval that measuring devices of a type approved by the Department be permanently installed and maintained as part of the diverting works, be and is, REMOVED from Permit No's. 36-7093, 36-7141 and 36-7144.

Dear Mr. Fleenor:

This letter is a request to remove the measuring device requirements from Permit No's ~~36-7065~~, 36-7093, 36-7141 and 36-7144, for the following reason: It appears that our system cannot sufficiently maintain a measuring device. The field examiner from the Southern District Office of Twin Falls suggested that since this water that we are filing on is wastewater, and we have installed concrete ditches, that it would be impractical and costly for us to try and install an adequate device. Therefore, would you please remove the requirements of the measuring device.

Thank you.

Sincerely,

Mrs. Harley Fortner

Dear Mr. Fortner:

One of the conditions of approval of your water Permit No. 36-7093 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application No. 36-7093

Dear Mr. Putman:

In your recent letter you asked about the state policy concerning filings on waste water within the boundaries of an irrigation system.

It is our understanding of the law that water is the property of the original appropriator until such time as he releases it from his control. This may be in or outside of the boundary of a company. In the case in question, if the company picks up the waste water and re-uses it, then we would refuse any application by an individual to interfere with the company's right to do so. However, if the water is released by the company into a drain and is not re-used, we would consider an application by a private individual to divert the water from the wasteway for his private use. An approved application from this office does not grant access to the company's wasteway. He would have to negotiate this directly with the property owner and the company.

I hope this answers your questions concerning this matter.

Very truly yours,

R. KEITH HIGGINSON

Attn: R. Keith Higginson, State Reclamation Engineer:

Gentlemen:

This letter is in response to a "Notice of application for water" published in local papers.

It appears that Mr. Fortner is filing on waste water from the PB and PB-1 laterals of the North Side Pumping Company system. It is my understanding that filings can not be made on waste water while the waste water is still within the boundaries of a segregated system.

If you have additional information on this, please advise us.

Dear Applicants:

Pursuant to 43 CFR 2411.1-1(d)(2), attached is a copy of the initial decision on the petitions for classification filed for the lands described therein.

No protests were received within the time allowed.

For a period of 30 days after receipt of this decision by the parties listed, in accordance with 43 CFR 2411.1-1(e), this initial decision shall be subject to the exercise of the supervisory authority by the Secretary of the Interior for the purposes of administrative review. If the Secretary exercises his supervisory authority, you will be so notified by the appropriate land office. If he does not exercise his authority this decision will become the final order of the Secretary.

All comments, objections, or protests to this decision should be sent to the Secretary of the Interior, LLM, 320, Washington, D. C., 20240. They must be sent within 30 days of receipt of this decision. However, they should be sent as early as possible to insure enough time for their full review.

INITIAL CLASSIFICATION DECISION

The following described lands have been examined and found suitable for agricultural development by desert land entry. They are hereby classified for desert entry under 43 CFR 2226:

T. 12 S., R. 21 E., Boise Meridian, Idaho
Sec. 6: Lots 4, 5, 6 & 7, SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ - 274.70 acres

The above lands have soils in Class III which are suitable for cultivation under good conservation practices and sufficient irrigation water.

The State Reclamation Engineer has lifted the critical groundwater designation on these lands, and will allow the drilling of deep wells to obtain irrigation water. Thus, presumably, water can be obtained. However, there has been a history of dry well holes in this area, and because of this the applicant will be required to do the following before allowance will be granted:

- (1) Obtain a Special Land Use Permit to drill a well on the entry.
- (2) Obtain a drilling permit from the State Reclamation Engineer.
- (3) Present a copy of the well log and well test to the District Manager showing sufficient water to irrigate all of the irrigable lands of the entry.

The following described lands have been examined and found improper for desert entry. They are hereby classified as improper for desert land entry:

T. 12 S., R. 21 E., B. M., Idaho
Sec. 6: Lot 3
7: Lot 1

Lot 3, Sec. 6, is covered only by Application I-1865. With only 39.87 acres remaining after allowance of I-1803, it would not be an economical unit, and about one-third of this subdivision is covered by a gravel pit which is unsuitable for cultivation. Also, there is a valuable source of road material on this land which will be retained for that purpose.

Lot 1, Sec. 7, will be surrounded by farm lands on all sides when Application I-1803 is allowed; thus, it becomes extremely important for upland game bird habitat. Therefore, we are retaining this in public ownership for that purpose.

Preference Right

Because Application I-1803 is the senior application to I-1865, Alma Charles Clark will have a preference right to enter on the following described lands. Therefore, Application I-1865, Herbert G. Becker, cannot be approved:

T. 12 S., R. 21 E., Boise Meridian, Idaho
Sec. 6: Lots 4,5,6,7, SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ - 274.70 acres

INITIAL CLASSIFICATION DECISION

The following described lands have been examined and found suitable for agricultural development by desert land entry. They are hereby classified for desert entry under 43 CFR 2226:

T. 12 S., R. 21 E., Boise Meridian, Idaho
Sec. 5: SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ - 320 acres

The above lands have Class III soils which are suitable for cultivation under good conservation practices and sufficient water for irrigation.

The State Reclamation Engineer has lifted the critical groundwater designation on these lands and will allow the drilling of deep wells to obtain water for irrigation. Thus, presumably, water can be obtained. However, there has been a history of dry well holes in this area. Because of this, the applicant will be required to accomplish the following before allowance will be granted:

- (1) Obtain a Special Land Use Permit to drill a well on the entry.
- (2) Obtain a drilling permit from the State Reclamation Engineer.
- (3) Present a copy of the well log and well test to the District Manager showing proof of sufficient water to irrigate all of the irrigable lands of his entry.

The following described lands have been examined and found unsuitable and improper for desert land entry. They are hereby classified as unsuitable and improper for desert entry:

T. 12 S., R. 21 E., Boise Meridian, Idaho
Sec. 5: Lots 1, 2, 3, 4, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$

As shown in the field report and preference right statement, I-1804 will take parts of both applications I-1866 and I-1867. There will be remaining in I-1866 only 198.12 acres of which just 120 acres are suitable for cultivation in a broken land pattern. Thus, the remaining land in I-1866 is not an economical unit.

There will be remaining in I-1867 only 118.82 acres of which about 82 acres are suitable for cultivation in a very broken soil pattern. Thus, the land remaining in I-1867 is not an economical unit.

All three subdivisions (lots 3, 4, SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 5) have part of a large gravel pit on them. This pit is a valuable source of road building material for the area; therefore, it is being retained for that purpose.

Preference Right

Applicant I-1804, Kathryn Clark, having filed the senior application will have a preference right to enter on the following lands:

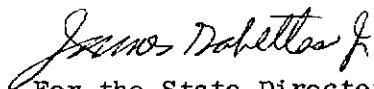

T. 12 S., R. 21 E., Boise Meridian, Idaho

Sec. 5: SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ - 320 acres

Applications I-1866, LaVaun B. Adams, and I-1867, Howard R. Adams, cannot be approved.

Sec. 4: Lots 1, 2, 3, 4, S $\frac{1}{2}$ N $\frac{1}{2}$ 313.70 acres

There are only 123 acres of Class III soils and 79 acres of Class IV soils on the above lands. The remaining lands are unsuitable for cultivation. The land pattern of suitable soils is very broken, and it would be difficult to work out fields of farmable size. The lands that are suitable for cultivation do not comprise an economic unit for development; therefore, the entry cannot be allowed.

INITIAL CLASSIFICATION DECISION

The following described lands have been examined and found suitable for agricultural development by desert land entry. They are hereby classified for desert entry under 43 CFR 2226:

T. 12 S., R. 21 E., Boise Meridian, Idaho
 Sec. 4: NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ - 280 acres in Cassia County

The major part of the subject lands has soils suitable for cultivation; however, there are some Class VI soils on these lands. Class VI soils are not suitable for farming. There are 106 acres of Class IV soils on the above lands which require good conservation practices to maintain them in production.

The State Reclamation Engineer has lifted the critical groundwater designation on these lands and will allow the drilling of deep wells to obtain water for irrigation. Presumably, water can be obtained. However, there has been a history of dry well holes in this area. Therefore, the applicant will be required to accomplish the following before allowance will be granted:

- (1) Obtain a Special Land Use Permit to drill a well on the land.
- (2) Obtain a drilling permit from the State Reclamation Engineer.
- (3) Furnish the District Manager with a copy of the well log and well test which shows sufficient water to irrigate all of the irrigable lands.

The following described land has been examined and found unsuitable for agricultural development. It is hereby classified as unsuitable for desert entry:

T. 12 S., R. 21 E., Boise Meridian, Idaho
 Sec. 4: NW $\frac{1}{4}$ SW $\frac{1}{4}$ - 40 acres

This subdivision does not have 5 acres that is suitable for agricultural development; therefore, it cannot qualify for entry under the desert land laws. All of the soils on this subdivision are Class VI soils which are not suitable for cultivation.

The following petition is hereby approved for the following lands:

DLA I-1833, Hal Gene Pickett

T. 12 S., R. 21 E., Boise Meridian, Idaho
 Sec. 4: NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ - 280 acres, Cassia County

Copies of the proposed decision are being sent to the following interested parties:
