STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF EXAMINER

Permit No. 36-7048

This proof is for b/u In Water District No. 3244683 *Ralph B. Peters*

1. Name of applicant Ralph B. Peters, 601 E. Ave. A, Jerome, Idaho ~~3244683~~

2. Source of water supply: groundwater

3. Location of point of diversion: Is in the SE 1/4 of Section 10

T. 9 S R. 17 E County of Jerome

4. Describe works as they exist, giving dimensions and capacities of same: underground water, pump size 7 1/2 HP 8LA6 Red Jacket, well casing 7" OD down 26', depth of well 200', water level at 135', well completed 2-6-69, Pump 4-30-69. *3PS6858C5*

525 gal pressure tank Smith Drilling & Pump 365 West MAIN, Jerome, 73 faucets 220 volts

5. Water is used for: commercial campground *65 units in campground*

6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

T. 9S, R. 17E, Sec. 10 SE 1/4 *7 acres in Park*

Acres is sprinkled to keep grass green. Enclosed system with submerged pump system is entirely domestic and has water facilities for 65 units + shower + toilet facilities in main building total of 73 1" outlets from 5 mains (1 1/2")

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: *Aerial Photo shows 9.2 acres - owner only claims 7. My observation would indicate more than 7 acres on the campground. I have no idea how to figure the max allowable on this system as there was only 1 dwelling on the site and no campers or trailers. Allow 50 gals/day/unit*

This examination was made on the 12th day of May, 1970

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

WATER LICENSE

Water License No. 36-7048 Priority December 18, 1968 Amount 0.17 c.f.s.

THIS IS TO CERTIFY, that RALPH B. PETERS
of Jerome, Idaho, made application for a permit to appropriate the public waters of
the State of Idaho, dated December 18, 1968; that Permit 36-7048 was issued pursuant
to said application; that the proposed works were completed on or about February 26, 1970,
with a storage/or carrying capacity of 0.19 c.f.s., said works consisting of
well, pump, and water facilities for 65 units; and that on February 27, 1970,
proof was made to the satisfaction of the State Reclamation Engineer, of the beneficial use of 49
acre feet per season, with a maximum rate of diversion of 0.17 cubic feet per second of the waters
of ground-water, tributary of _____,
for the purpose of commercial campground from January 1 to December 31;
and for _____ from _____ to _____; and for
_____ from _____ to _____; and that the use
of said waters has been made in accordance with the laws of Idaho, and is hereby confirmed by the State Recla-
mation Engineer and entered in the records of the Idaho Department of Reclamation: the point of diversion is
located in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10, T. 9 S, R. 17 E, B.M., and
other additional points _____, in the County of
Jerome; and that the amount of water to which such right is
entitled and which is hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially
used for said purposes and shall not exceed 49 acre feet per year.

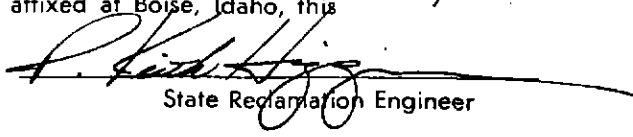

Description and location of place of use:

Re: Curtailment of Ground Water Use Under Water Right(s) 36-7048

Dear Water Right Holder:

The records of the Idaho Department of Water Resources ("Department") indicate that you own one or more water rights for the use of ground water within Water District 130 and the Thousand Springs Ground Water Management Area (GWMA). Department records do not indicate that out-of-priority diversion and use of water under your water right(s) is covered by either an approved mitigation plan or one of the stipulated agreements negotiated last year by the North Snake and Magic Valley Ground Water Districts and certain municipal and industrial water users.

Because of severe drought conditions persisting across the Upper Snake River Basin, the Thousand Springs GWMA was established last August. This allowed the Department to seek curtailment of relatively junior priority ground water diversions from the Eastern Snake Plain Aquifer ("ESPA") that further reduce the water supply available to senior priority water rights from springs and surface water tributary to the Snake River. The order designating the Thousand Springs GWMA identified an area within 10 kilometers from the Thousand Springs canyon wall north and east of the Snake River within which use of ground water rights having priority dates later in time than July 21, 1967, were determined by the Department to be injuring senior priority surface water rights. Within this area, curtailing ground water diversions will increase spring discharges tributary to the Snake River by an amount equal to 50 percent or more of the associated ground water depletions within 6 months of curtailment. This determination was made using the results from the Department's ESPA regional ground water flow model.

Curtailment orders were not issued last year to the holders of water rights for ground water in the area identified for curtailment because ground water districts and other entities representing the holders of the water rights entered into 2-year stipulated agreements with representatives of holders of affected senior rights from the interconnected springs and surface water tributary to the Snake River. These stipulated agreements provided for creation of a water district pursuant to Chapter 6, Title 42, Idaho Code, to enforce the terms of the agreements and curtail the diversion and use of water under junior priority water rights that the Department determines are injuring senior priority water rights, if the holders of the junior priority water rights are not represented by entities entering into the stipulated agreements or are not otherwise mitigating the injury.

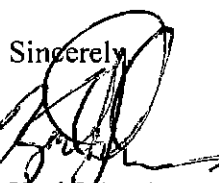

On February 19, 2002, a Final Order was issued creating Water District 130 for the administration of rights to the use of ground water and springs discharging from the ESPA in the Thousand Springs area. The first annual Water District 130 meeting was held on April 23, 2002, at which a watermaster was elected and certain resolutions were adopted.

On March 27, 2002, the Department sent a letter to you and others within Water District 130 who had water rights that were not afforded the "safe harbor" provided by an approved mitigation plan or one of the stipulated agreements negotiated last year by either the ground water districts or a group of municipal and industrial users. That letter notified right holders that the Department, through Water District 130, might need to take action to curtail diversions not covered by a stipulated agreement or an approved mitigation plan where the Department has determined that such diversions are causing injury to senior priority water rights.

Unfortunately, drought conditions continue to persist across southern Idaho and the Snake River plain, and spring discharges in the Thousand Springs reach of the Snake River are similar or less than last year. Therefore, certain senior priority water rights that were calling for water last year are again not being satisfied during parts of this year. As described above, the Department, through use of its ESPA ground water model, has determined that unmitigated ground water pumping in the area of impact is causing injury to the holders of senior priority water rights from the Snake River. Consequently, in accordance with Idaho Code §§ 42-237a.g. and 42-607 it is necessary to seek curtailment of all junior priority ground water rights within the Thousand Springs impact area that are not covered by an approved mitigation plan or stipulated agreement.

Because the water right you hold is located in Water District 130 and the Thousand Springs GWMA impact area and is not covered by an approved mitigation plan or one of the stipulated agreements negotiated by either the ground water districts or the group of municipal and industrial water users, you are hereby notified that the watermaster for Water District 130 has been instructed to curtail diversion and use of ground water under your water right for the remainder of this irrigation season. The watermaster for Water District 130 will contact you after 14 days from the date of this letter to arrange for the curtailment of the diversion and use of ground water under your water right. The watermaster will allow you reasonable time to make adjustments or arrangements to minimize hardships caused by this action. Unless water supply conditions dramatically improve, I anticipate that curtailment will need to be extended for all of next year's irrigation season.

I regret that this action is necessary. You may want to consider joining one of the ground water districts that has signed a stipulated agreement as an alternative to having your use of ground water curtailed. Should you have questions about this matter, or if you believe your water right should be excluded from this action, please contact Cindy Yenter (Water District 130 Watermaster) by telephone at (208) 736-3033 or contact Tim Luke at the Department of Water Resources at the address above or by telephone at (208) 327-7864.

Sincerely,

Karl J. Dreher
Director

Re: Permit No. 36-7048

Mr. Ralph B. Peters
601 E Ave. A
Jerome, Idaho 83338

Dear Mr. Peters:

A representative of this department has made an examination of the works covered by your Permit No. 36-7048 and has found the following:

Quantity of water diverted: 0.19 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 0.17 c.f.s.

The maximum quantity diverted shall not exceed 49 acre feet per season.

Beneficial Use: Commercial compground within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 10,
T. 9 S., R. 17 E., B.M.

The priority date established is : December 18, 1968

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

BOISE, IDAHO
REPORT OF EXAMINER

Permit No. 36-7048

- This proof is for b/u _____ In Water District No. 3244683
1. Name of applicant Ralph B. Peters, 601 E. Ave. A, Jerome, Idaho ~~3242341~~ *Ralph Peters*
2. Source of water supply: groundwater
3. Location of point of diversion: Is in the SE 1/4 NE 1/4 of Section 10
T. 9 S R. 17 E County of Jerome
4. Describe works as they exist, giving dimensions and capacities of same: underground water, pump size 7 1/2 HP 8LA6 Red Jacket, well casing 7" OD down 26', depth of well 200', water level at 135', well completed 2-6-69, Pump 4-30-69. 35685855
525 gal pressure tank Smith Drilling & Pump 365
West MAIN, Jerome, 73 faucets 220 volts
5. Water is used for: commercial campground 65 units in campground
6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

T. 9S., R. 17E., Sec. 10 SE 1/4 NE 1/4 7 Acres in Park
Acres is sprinkled to keep grass green. Enclosed
system with submerged pump system is entirely domestic
and has water facilities for 65 units & shower &
toilet facilities in main building total of 73 1" outlets
from 5 mains (1 1/2")

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Aerial Photo shows 9.2 acres - owner only claims 7
My observation would indicate more than 7 acres on the
campground. I have no idea how to figure the max
allowable on this system as there was only 1 dwelling
on the site and no campers or trailers. Allow 50 gal/day/unit

This examination was made on the 12th day of MAY, 1970

Due: March 1, 1970 PRIORITY: December 18, 1968

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 36-7048

Mr. Ralph B. Peters
601 East Avenue "A"
Jerome, Idaho 83338

Dear Mr. Peters:

We acknowledge receipt of your affidavit submitted as proof of beneficial use ~~on application~~ for permit 36-7048.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit No. 36-7048

Mr. Ralph B. Peters
601 East Ave. A
Jerome, Idaho 83338

Dear Mr. Peters:

One of the conditions of the approval of your permit no. 36-7048 was that proof of application of the water to beneficial use be submitted to this office on or before March 1, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Ralph B. Peters

North Side News
Jerome,
Idaho 83338

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

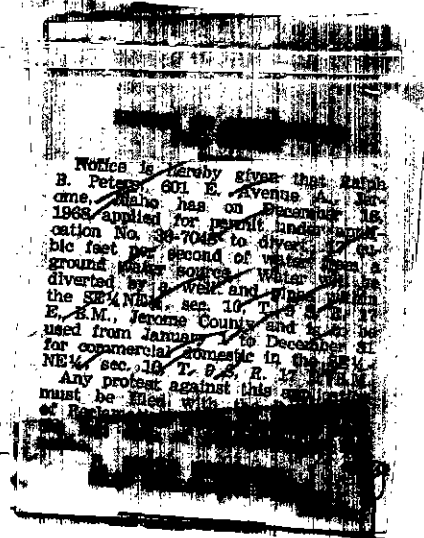

Signature of claimant

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
