Dear Mr. Higginson,

In answer to your letter of August 10, 1973, I Have no excuse for not sending the necessary information to obtain my water permit except that it was an oversight on my part. I simply mislaid your letter and forgot about it. I have complied with all the regulations and have a water measuring device installed as required,

I have read over the first instructions that were with your June 1, 1973 letter but do not understand what I should do just exactly now, to reinstate my water permit #36-7032.

Thank you so much for all of this trouble that could have been avoided except for my carelessness. I am very sorry, but will appreciate any information that you could send to me now.

Yours truly

Mrs. Edith Thomason

Dear Mrs. Thomson:

One of the conditions of approval of your water Permit No. 36-7032 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
