Dear Mr. King:

We are enclosing a copy of your approved application for amendment and departmental receipt No. 4337 in the amount of \$5.

We have reviewed your permit and find that when your permit was approved it carried a special condition that you install and maintain a measuring device. Our field examiner found that you had not installed said device. Before we can license your permit, it will be necessary for you to either install a measuring device at your point of diversion or have the measuring device requirement removed from your permit. In order to remove the requirement, you must submit a request in letter form setting forth your reasons why you feel it is not necessary for you to install a measuring device. We will review your request and respond.

Dear Mr. King:

The Department of Reclamation has conducted a field examination of the land and works covered by the above referenced permit.
