WATER RIGHT LICENSE

License of Water Right No. 36-7012 Priority Nov. 17, 1967 Amount 1.66 cfs

THIS IS TO CERTIFY, that FRED EVERETT LAWTON
of Wendell, Idaho, has complied with the terms and conditions of Permit
No. 36-7012 issued pursuant to Application for Permit dated November 17, 1967,
and has submitted proof to the Department of Water Resources on January 30, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.66 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Stockwater	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>0.05</u> cfs and	<u>2.7</u> acre feet
Irrigation	from <u>Feb. 15</u> to <u>Dec. 1</u>	at <u>1.66</u> cfs and	<u>*580.0</u> acre feet or
	from _____ to _____	at _____ cfs and	<u>4.0</u> af per acre

(both dates inclusive)

Subject, however, to the condition that no more than 1.66 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
582.7 acre feet per year, said waters to be diverted within the NE¹SE¹ of Sec. 28,

* Subject to the condition that the maximum volume per year shall not exceed 580
acre feet when combined with License No. 36-2489.

A measuring device of a type approved by this Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Wendell, Idaho 83355

Dear Mr. Lawton:

One of the conditions of approval of your water Permit No. 36-7012 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

It has been brought to our attention that on or about
March 10, 1968, you had a well drilled.
The well is reported to be located at a point in the
SENE, Sec. 12, T. 9S, R.
15E, B.M. for irrigation use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the Department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you may have.

Very truly yours,

Re: Permit # 36-7012

Sir:

Your letter inclosed with my copy of Permit #36-7012 calls attention to restrictions on page four of said permit. On page four is this statement, ("The applicant shall permanently install a measuring device of a type approved by the department as part of the diverting works.").

The diverting works are being installed with the technical assistance of the Soil Conservation Service and we would appreciate your suggestions as to what would be acceptable to the Department.

The water from the pump is being discharged into a 14 ft. standpipe from which it can be routed or divided into pipelines in two directions. In one direction the pipeline is along a county road and ends 1000 ft. from the standpipe. At this point it is discharged into an open ditch. At this point it could be measured with some type of wier. In the other direction the pipeline ends 1/4 mile from the pump in the field. This point also will be accessible by vehicle. We could put a fitting in the discharge from the pump to tap in any measuring instrument you may have for this purpose. If you have other suggestions, we would appreciate receiving them.

I am inclosing a sketch of the pipeline layout. We would appreciate your prompt attention to this matter as this system must be operative as soon as possible. It will be the only source of irrigation for this season.
