Mr. Jake Bowers

Dear Mr. Bowers:

We received your letter with enclosures of September 27, 1972, in connection with the above referenced water license.

We wish to advise you, however, that the Department has no procedure for changing the record of ownership once a permit has been licensed. When a water license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction.

We will file your letter for future reference as to present ownership. If you have any questions regarding this matter, please let us know.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Hasselstrom:

A representative from this department has made an examination of your works covered by Permit 36-7009. The works were found capable of producing 1.02 c.f.s. of which .68 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for irrigation of 34 acres in SW1/4NW1/4, NW1/4SW1/4, Section 13, Twp. 9S, Rge. 22E.B.M.

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Mr. Elton Bengt Hasselstrom
R.F.D. #1, Box 61
Paul, Idaho

Dear Mr. Hasselstrom:

O
Thank you for your letter of January 9, 1969. After receiving your letter we searched through the files of the Department and found your proof which had not been entered in your file folder. Your permit has been reinstated as pursuant to the enclosed order.

P
Before a license can be issued a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise us.

Very truly yours,

Donald W. McEldowney

Dear Mr. Higginson:

In regard to letter on reverse side please be advised that information required by your office on this permit, was mailed to you on forms furnished by your office just before Thanksgiving and should have been in your office before the first of December 1968. ~~I complied to the~~ best of my knowledge I have complied with all requirements except the installation of a permanent measuring device and assumed that a permanent deep well pumping installation would accomplish the same purpose, providing the water flow was determined by a qualified party which was the case.

In any case I would appreciate any information on whether or not my permit can be reinstated or if it is permanently lapsed.

Sincerely

Dear Mr. Hasselstrom:

One of the conditions of the approval of your permit 36-7009 was that proof of application of the water to beneficial use be submitted to this office on or before December 1, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

State Reclamation Engineer
