ATTENTION: Henry Jones, President

Gentlemen:

Your application to appropriate the subterranean waters of the State of Idaho is being processed; however, before action is taken you are requested to supply additional information.

It is noted in your application that you intend to use a lateral belonging to the Hillsdale Irrigation District as a means of conveyance of part of the waters under this permit. Would you please advise this office as to what arrangements you have made with Hillsdale Irrigation District for the use of the canal?

Your prompt attention to this matter will be greatly appreciated.

Very truly yours,

License of Water Right No. 36-7000 Priority June 14, 1967 Amount 0.56 cfs

THIS IS TO CERTIFY, that Jones Land & Feed Yards, Inc.
of Eden, Idaho, has complied with the terms and conditions of Permit
No. 36-7000 issued pursuant to Application for Permit dated June 14, 1967,
and has submitted proof to the Department of Water Resources on November 14, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.56 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Permit No. 36-7000.

Gentlemen:

When we originally filed the application for the foregoing permit, our client intended to use the same for both irrigation and livestock watering. We haven't checked with the permit holder yet, since receiving your letter of October 2nd, but it may be that the water is used entirely for watering of feedyard livestock and none for irrigation.

Will this necessitate the filing of an amendment? If so, please send us the form to do so, as we must file final proof by December 1st.

Gentlemen:

One of the conditions of approval of your water Permit No. 36-7000 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Please let me know the status of the application referred to in the enclosed correspondence. We are ready to make proof of completion of works and application of water to beneficial use if you will please send us the necessary forms.

I may have neglected to answer your letter of July 24th concerning arrangements with Hillisdale Irrigation District for use of the canal. However, even if approval could not be secured from the District, we would still use the water for watering of cattle in the feed lot, as set forth in the applicant's permit.

Personally, we doubt that the approval of the District is necessary, as Jones Land & Feed Yards, Inc. is the owner of more than 500 shares of water in the canal, some of which is appurtenant to the feed yard where the point of diversion is located. There is nothing to prevent the applicant from using such canal water upstream on the canal and replenishing the same with well water a mile or two downstream. No intervening rights would be affected.

Yours very truly,
