CLAIM TO A WATER RIGHT

RECEIVED
MAY 25 1986

Department of Water Resources

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

The Estate of Willis W. Ritter, by Nancy Ritter,

Notice is hereby given that Personal Representative

(Name of Claimant)

1966 E. Millbrook Drive, Salt Lake City, Utah 84106 Telephone No. (801) 467-0494

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) June 1, 1902

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Sand Springs Creek tributary to Snake River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

ATTACHMENT

Point of Diversion A. A concrete headworks and gate is used to divert 6 cfs for irrigation, livestock and domestic purposes from the left bank of Sand Springs Creek in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 21, T8S R14E, B.M. These waters are conveyed in a ditch approximately 4 feet wide and 2 feet deep a distance of approximately $\frac{3}{4}$ mile to a point in the N $\frac{1}{2}$ of the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 20, where the ditch divides these waters into two deliveries. The first delivery, of approximately 3 cfs, is ditched along a road leading into the S $\frac{1}{2}$ of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 20 T8S, R14E, B.M. Approximately 0.2 cfs of these waters provide domestic supplies for the dwelling and other buildings located north of the center point of the NW $\frac{1}{4}$ of Section 20, T8S, R14E. The other 2.8 cfs provide partial supplies to the lands listed below.

The second delivery, also approximately 3 cfs, is placed in a ten-inch diameter steel pipe near the division point, brought to the edge of the rimrock at a point in the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 17, T8S, R14E and carried down to a ditch and pipe irrigation system in the S $\frac{1}{2}$ of the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 17, the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 17, the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 17, the E $\frac{1}{2}$ of the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 20, and the N $\frac{1}{2}$ of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 20, all in T8S, R14E, B.M. these lands also receive water under the first delivery described above.

Point of Diversion B. 5 cfs is diverted for irrigation and livestock purposes from a branch of Sand Springs Creek by means of a ten-inch diameter steel pipe in the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 17, T8S, R14E, B.M. These waters are distributed through ditch and irrigation pipe system on lands in the S $\frac{1}{2}$ of the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$, the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$, and the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$, all in Section 17, T8S, R14E, B.M. The island shown on the map and located in the west half of the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 17, T8S, R14E, B.M. has been deemed to be the property of the United States. However, claimant and its predecessors have irrigated the island and still maintain water delivery facilities with which to do so. The diversion works are situated below the main rimrock at an elevation of approximately 2,960 feet, where this branch of Sand Springs Creek cascades down from the east.

Re: Irrigation of wildlife crops at Thousand Springs
Preserve -- SRBA Identification Nos. 36-4269 and
36-4270

Dear Mr. Holmes:

We represent the Nature Conservancy, which owns the Thousand Springs Preserve near Hagerman, Idaho. The Conservancy holds a water right for some 24.5 cfs, the non-domestic portions of which provide stockwater and irrigate approximately 156 acres of cropland and pasture on the Preserve. I am enclosing for your information a copy of the Conservancy's water right claims for the Preserve that were filed with the Department on August 30, 1988 in the Snake River Adjudication. While the Conservancy probably will continue to raise livestock feed and perhaps other agricultural commodities on the property, it intends to irrigate chiefly crops that are beneficial to and intended for use by various forms of waterfowl, upland game birds, deer, small mammals and other wildlife. The operation of the farm for these purposes will not involve any significant changes in historic irrigation practices. Please put this letter on file with the Conservancy's water right documentation.

We are not requesting that the Department take any action in response to this letter. Indeed, according to Ms. Beeman of the Department's legal staff, no action would be necessary or appropriate because the irrigation use under these rights is continuing. Nonetheless, we wish to make it a matter of record that the irrigation is being carried out in substantial part for

56-7210

the production of wildlife crops. If there is any problem with this, or if you feel that the Conservancy should provide further documentation or submit any type of application concerning this agricultural use, please let me know immediately.

Very truly yours,

Department of Water Resources

Dear Ken:

I am writing to provide you with notice that our client, The Nature Conservancy, has purchased the property near Hagerman previously owned by the Estate of Willis W. Ritter, and has succeeded to the Estate's interests in all water rights appurtenant to the property. Among these rights are those evidenced by claim nos. 36-4269 and 36-4270. While we are aware that the rights claimed have remained appurtenant to the property through the change of ownership, we wanted to notify you of the conveyance so that you can send any notices or other information regarding these water rights to the new owner.

Accordingly, please send all notices and other pertinent information regarding these rights to:

Mr. Guy Bonnivier,
State Director
The Nature Conservancy
Idaho Field Office
P.O. Box 64
Sun Valley, Idaho 83353

Thank you for your help in this matter.

Dear Ms. Ritter:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions or if this office can be of further assistance, please feel free to contact us.

Very truly yours,
