To my knowledge the swimming pool has been in operation since 1920. The hot water comes from the springs and wells. The cold water from Blind Springs across the river, runs through a pipe line, under the Snake River. It is also used in the swimming pool.

The hot and cold water is used in the cabins and baths too.

Hot and cold water and power is also used for campers.

MRS J.W. BANBURY
2726 N. 76TH ST.
WAUWATOSA, WIS.

Dear Mrs. Banbury,

Hope this letter finds you all rested up from your trip out West. We are sorry that you didn't get down to visit with us while you were here although we can understand how busy you must have been. We have the apartment all finished now and it does look nice. We have also re-cemented all around the pool to fill those awful puddles of water that were always standing there. The new addition has been painted on the outside and improves the looks of the place a great deal.

Now for some bad news----Due to unforeseen circumstances I feel that it will be necessary for me to sell the Hot Springs property. Freda has been ailing for some months and after a complete physical check-up we find that she has an ailment of the heart which will cause her to give up all strenuous work and be given complete relaxation. In addition to that my health is not good. After a physical check-up I find that I have an ulcer of the stomach and would like to get into something else that would be easier on my nervous system.

In reality we both will hate to leave very much because we have worked so hard trying to improve the place and make it a better business. Although at the same time we feel that our health and life must come before anything else. I know that will undoubtedly come as a blow to you although we have no alternative. We had planned on living here for many years and making this our home but it is quite out of the question now.

All we are interested in is getting our money out of the place and, providing it meets with your and Grace's approval, we would turn the contract over to the buyer and he would pay you the remainder of the principal on the contract as stipulated in the contract. Of course before we would even consider selling to anyone, we would have them investigated thoroughly to determine their financial background and personal integrity.

We have had a number of people inquire about buying the place in the past but until this time did not give the slightest consideration to such a thing.

Please let us know at your earliest convenience if you have any objections to such an arrangement as it is our intentions to sell the place before opening date if possible.

We hope that you and your husband are in the best of health and will be looking forward to hearing from you again.

Very truly yours,

Harry VanDevender
