INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.

You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

Dear Mr. Sullivan:

The Department of Water Administration has completed the processing of your claim to a water right, and no further action is authorized under Sections 42-225a and 42-225b of the Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of the claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

RE: Claim to a Water Right 36-4025 - Ralph Sullivan

Mr. William Strange
Box 387
Hagerman, ID 83332

Dear Mr. Strange:

I am returning your statement of protest concerning Claim to a Water Right No. 36-4025 of Mr. Ralph W. Sullivan. Mr. Sullivan's Claim to a Water Right is not an application for a new diversion but a statement of claim to an existing diversion of water right.

The last paragraph of your letter states that the protestant request "that said application, subject of this protest, be denied the applicant". The Department of Water Administration takes no action on claims to water rights but merely maintains a file which is made available to the court in case of litigation concerning water rights. So, it is impossible for us to "deny" this claim. If you feel that Mr. Sullivan's statement of existing water rights on Donkey Springs is not correct, then you should file an exception to his claim. This exception must be filed in affidavit form.

If you can be of any further assistance, don't hesitate to contact us.

Very truly yours,
