DEPOSITIONS ARE OF NO VALUE

UNLESS AFFIDAVIT OF PUBLICATION

IS ATTACHED

Mr. Walter Gridley,
Hagerman, Idaho.

Dear Mr. Gridley:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 28060. The proofs are to be made at 2:00 o'clock P.M., on the 15th day of March, 1961, ~~1960~~ before Emerson Pugaire, Hagerman, Idaho,, Notary Public.

As of this date we have mailed the Notice to the Gooding Leader with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. 28060

Date: Jan 4, 1961

Mr. Walter Gridley
Hagerman, Idaho

Dear Mr. Gridley:

Under the terms of your Permit No. 28060 you are required to make proofs of completion of works and application of water to beneficial use on or before _____.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

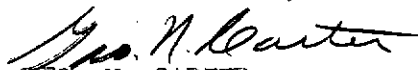

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point of points of diversion and the location of use or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A.

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. N. CARTER

RE: Permit No. 28060

Walter Gridley
Hagerman, Idaho

Dear Mr. Gridley:

The time allowed on your permit for start of construction is part of the requirement in the State Statutes. There is a saving provision, given below, which seems to fit your case.

"Provided, however, that in cases where the applicant is prevented from proceeding with his work, or by litigation of any nature which might bring his title to said water in question, the department of reclamation upon proper showing of the existence of any such condition, and being convinced that said applicant is proceeding diligently and in good faith, shall extend the time so that the time caused by such delays shall be added to the time given in the original permit for each and every action required."

Upon start of construction of the works under your permit, you should write this department requesting the extension of time, showing the reason for delay. Your request will be granted at that time.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Sir:

This letter is in reference to permit no. 28060 to appropriate the public waters of the State of Idaho. It is recorded in Book 99 Page 28060 Approved July 27, 1959.

Work is to begin on this project by September 27, 1959. This project is to be done by the State of Idaho highway department under the terms of a right of way agreement. It will be some time before such work can be started however. It seems most probable that they will be delayed by the need to condemn other property in the area. These circumstances being beyond our control we request an extension of the starting date.

Sincerely,

Walter Gridley
