REMARKS: I plan on using this to supplement shares of water now being used on land. This is sandy loam and as I have it in pasture, I need the water more often - also farm land is very flat, therefore, it takes more water to irrigate with. I sent a letter to your office from North Side Canal Co. stating this meets with their approval.

Mr. Theon Zahn,
Rt. 3,
Jerome, Idaho.

Dear Mr. Zahn:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. 28596. The proofs are to be made at 11:30 o'clock A.M., on the 31st day of March, 19 65, before Bryan Henry, Jerome, Idaho, Notary Public.

As of this date, we have mailed the Notice to the North Side News Jerome, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before ^{the} Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Re: Permit No. 28596

Date:

Feb. 1, 1965

Theon Zahn
Route #2
Jerome, Idaho

Dear Mr. Zahn:

Under the terms of your Permit No. 28596 you are required to make proofs of completion of works and application of water to beneficial use on or before April 14, 1965

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Dear Mr. Zahn:

Returned herewith is your application for permit with attached Receipt No. 30062 for the \$5.25 filing fee.

The point of diversion is not clear. Under 4 you show, apparently, 11,000 feet from the N. E. corner of Section 15. The map has a cross on the center line of E 1/2 NE 1/4. Should the distance be 1100 feet which would place the point of diversion in the NE 1/4 NE 1/4? Under number 14, on page two, you show there is a total of 190 acres to be irrigated, however, the lands shown add up to only 150 acres. From the map it would seem you omitted 40 acres in the NE 1/4 NE 1/4.

Kindly correct and return the application at your earliest convenience.

This matter has been discussed with the Canal Company Manager and approved by their Board of Directors, since the lateral serves no farms nor can it serve any in the future after it leaves my land.

I would appreciate it if you would send me the necessary instructions and forms to complete a wastewater filing on this lateral.

Dear George:

Mr. Theon Zahn, who farms 5 miles south and 2 miles west of Jerome, is in the office discussing a waste water filing.

We have a coulee running through his farm below which there is no contract water diverted, nor any possibility of developing new land. We have discussed the matter of Mr. Zahn's installing a pump and pipeline on this lateral and have assured him that as far as the canal company is concerned he may pump out of the lateral and we will not contest a wastewater filing should he make one to protect his investment.

As you know it has been the policy of this company to disapprove wastewater filings in the past, but primarily because there was always the possibility of recovering or reusing the water at some future time. We see no possibility of recovering this water, and feel if it can be put to beneficial use it will better serve the tract than to dump it back into Snake River.

Enclosed herein is a letter of application by Mr. Zahn for a waste water filing.

Best Regards
