Dear Mr. Suhr:

Here is a copy of Water Right License No. 47-2357 (Old No. G-29785). This license was issued for the irrigation of 104 acres of land. We do not feel that the term "supplemental irrigation" would prohibit your use of the well in the manner you now propose.

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29785 shows the well(Σ) is ~~(Σ)~~ capable of conveying 104 miner's inches, or 2.08 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 13.00, we will issue the Certificate of Completion of Works for 2.08 c.f.s. and the License and Certificate of Water Right for 2.08 c.f.s. confirming the right, with priority of June 15, 1961, to the use of subterranean water with the point of diversion in SE¼NW¼, for irrigation of 104 acres in NW¼, Sec. 14, T. 9 S, R. 16 E, B.M.

Re: Permit No. G - 29785

Arthur Suhr
Route #3
Jerome, Idaho

Dear Mr. Suhr:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29785 are due not later than **June 9, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Re: Permit No. G - 29785

Route #3
Jerome, Idaho

Dear Mr. Suhr:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29785 are due not later than June 9, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

Carl E Tappan, Engineer.

Dear Sir:

I received the enclosed papers, which had been forwarded to me from my son in Idaho. He is farming the farm on which you are seeking information.

My husband, Arthur Suhr, was deceased in 1961.. The farm is in my name as Norma Suhr. I have re-married and my name is Mrs. William Nyheim.. We are living here at Hastings, Nebr. Mr. Nyheim and I are both teaching in a Lutheran school..

All of the information you need as to location and so forth is in Jerome, Idaho.

Because my son, Dan Suhr, is living there and has access to this information I would like for him to fill out these papers and sign them if a signature is necessary.. As far as I can see the only one that requires a signature is form 11..

I am having this letter notarized and trust that all papers will be in order and acceptable by the Department of Reclamation..

Sincerely,

Norma Suhr Nyheim

Re: Permit No. G-29785

Mr. Arthur Suhr,
Route #3,
Jerome, Idaho.

Dear Mr. Suhr:

We enclose Permit No. G-29785 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-6015 which was issued covering payment in the amount of \$5.50 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

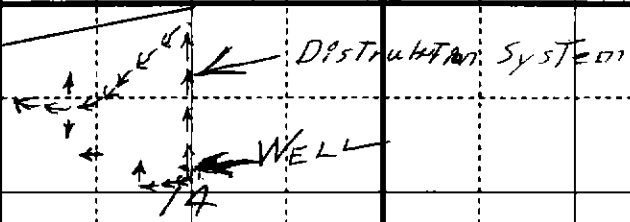

Very truly yours,

GEO. N. CARTER
