Jerome, Idaho 83338

Dear Mr. Gunning:

This letter is in reference to Permit Nos. 36-2692, 36-7255, 36-7054 and 36-7116 for the use of irrigation from groundwater. The field reports were received in our office on March 21, 1973. Since that time, I have been in contact with you concerning the installation of measuring devices required on these systems. We have tried to work with you as to allow you more time to install these devices which were to be installed at the time your Proof of Beneficial Use was submitted to our office.

If we cannot complete these field exams which require measurement of the system by the 20th of September, 1976, we will be forced to recommend these permits for cancellation. Your cooperation concerning this matter would surely be of a benefit to you.

Very truly yours,

Gary Funderburg

Dear Mr. & Mrs. Gunning:

One of the conditions of approval of your water Permit No. G-33605/36-2692 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 5, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. F. F. Gunning
GUNNING FARMS
Route #1, Box 134
Jerome, Idaho 83338

Dear Mr. Gunning:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
